Happy May

I am writing to ask for your support in voting for the upcoming school mill levy. This levy is crucial for our schools to continue providing a quality education for our children.

Funding from the mill levy goes towards essential resources such as classroom supplies and educational services for our students, technology upgrades, and salaries. Without this additional funding, our schools may be forced to make cuts that could negatively impact our children's education.

By voting for the school mill levy, you are investing in the future of our community and ensuring that our children have the tools they need to succeed. Please consider the impact that your vote can have on the education of our youth and join me in supporting this important measure.

Thank you for your consideration and support. The mill levy is an important source of funding for our district, and it plays a crucial role in ensuring that our schools have the resources needed to provide a quality education for our children. Your support will help to ensure that our schools continue to thrive and provide the best education for all students.

If you are a registered voter within the Fromberg School district, your ballot should have arrived at your regular mailing address. It is a mail in ballot and we as a school are asking for 14.92 mills which equals \$77,819.97. If you need to register to vote please call the elections office at 406-446-1220 and they can help you become a registered voter. When you receive your ballot the biggest question is how much will your taxes go up? Here is an example what your additional cost would look like approximately:

\$100,000 piece of property, taxes on your property will increase \$20.14

\$200,000 piece of property, taxes on your property will increase \$40.28

\$300,000 piece of property, taxes on your property will increase \$60.43

\$400,000 piece of property, taxes on your property will increase \$80.56

\$500,000 piece of property, taxes on your property will increase \$100.71

\$600,000 piece of property, taxes on your property will increase \$120.85

I urge you to take the time to vote and return your ballot by May 7th. It can be dropped off at Fromberg Schools or it can be mailed but you have to make sure the ballot is received by the date of the election. We have many exciting things planned at Fromberg Schools and I certainly appreciate your continued support.

Fromberg High School Graduation will be May 18th at 2:00 p.m. in the Fromberg Gym. We have six Fromberg High School Seniors and we will also have an introduction of our 8th grade students that afternoon as well, for their recognition.

We are looking at next year and want to clean up our mailing addresses for the school newsletters. If you would like to receive a school newsletter, please give us a call at 406-668-7755 and we will certainly put you on our school mailing.

If any of you have any questions or concerns please feel free to contact me on my cell phone at 406-855-7271. We are hoping you all have a wonderful summer! See you in August, the 1st day for students will be August 14th at 8:00 a.m.

Thank you for your continued support!

Jennifer Hickok
Fromberg School Superintendent/High School Principal

FANTASTIC

SUMMER

BREAK!!

MAY K-1

It's May! Wow where has the time gone! 17 days left of school and summer fun begins! K-1 has been working so hard! It makes me sad to think that in 17 days I won't get to spend my mornings having really important conversations about Spiderman, cows, siblings, and what would happen if we farted on another planet.

Yes, that's right! Farts have been a very important topic in K-1 all year. Let me tell you what we as a class decided was the answer to farting on another planet.

Your kiddos came to the conclusion that if we farted on another planet we would just create another gas planet made out of farts. It would be the smelliest planet in the solar system. If it got too close to the sun it would explode, if it got too far away it would be a "frozen smelly fart planet" and I couldn't agree more!

We did learn that farting in a space suit means you would have to sniff your own farts and that would be gross. We also learned that farts are flammable and could potentially be dangerous for astronauts. Out of all the space information we learned, I'm certain these things were the most important. I can honestly say I would of never thought about these things without the help of some of K-1's finest thinkers!

Readwell

We have finished ahead of schedule and will take this time to continue to work on our handwriting and reviewing our letters and sounds

Math

We are continuing to count by 5s and 10s to 100. practicing to count by 2s. still reviewing our shapes and counting as high as we can! We've been working with number lines and color graphing and we've even done some addition!

DATES TO WATCH FOR

- May 9th K1-K field trip to Wise Wonders
- May 14th Spring concert 6:30 p.m.
- May 21st Field day, Petting Zoo 9-11:30
- May 23rd Elementary award assembly 10 a.m.

ASP

HEY ASP FAMILIES! I CAN'T BELIEVE HOW FAST THE YEAR WENT BY. THE LAST DAY OF ASP IS THURSDAY MAY 9TH. MIGRANT SUMMER PROGRAM WILL BEGIN JUNE 5TH AND END JULY 18TH. MIGRANT DAY GOES AS FOLLOWS.

- BREAKFAST AT 8:30 A.M.
- CLASS BEGINS AT 9 A.M.
- LUNCH AT 11:30 A.M.
- END OF PROGRAM/ BUS LOADS AT 2:50 P.M.

IF YOU HAVE ANY QUESTIONS ABOUT THE MIGRANT SUMMER PROGRAM HERE AT THE SCHOOL. PLEASE FEEL FREE TO REACH OUT TO ME. I'M HAPPY TO ANSWER ANY QUESTIONS YOU HAVE.
KPETE@FROMBERG.K12.MT.US 406.694.6903

PARENTS IF YOU WOULD PLEASE TAKE A MOMENT TO FILL OUT OUR ASP SURVEY. IT'S COMPLETELY ANONYMOUS AND YOUR SURVEY GOES TO MY DIRECTOR SO THAT I CAN BETTER THE PROGRAM TO FIT YOUR CHILDREN'S NEEDS.

with Kinder1

5/14 – Spring
Concert at 6:30pm

5/21 – Field
Day/FFA Petting
Zoo 9 –11:30am

5/23 – Elementary
Awards Assembly
10am

What we have been learning...

In reading, the Superkids have been having so many adventures in their new bus! Recent letters and sounds we have learned are B, R, N, M, and P. The Kindergarteners are reading so many leveled books and as their teacher it is so fun to see them “rocking and rolling” as we like to say!

In Math, we have learned about height and length recently, and are moving onto weight. We have a lot of conversations about measuring these days.

A Big Thank You

I just have to say what a pleasure it has been teaching the kindergarteners each day this year. We have had so much fun learning and growing together! I cannot believe we have just a few weeks left of school! What a great year we have had!

Miss Lockman

1st & 2nd Grade Newsletter

May 23 – Last Day of School

Lesson Updates

Please continue reading each night with your child. It would be beneficial to practice basic addition facts.

Student Achievements

It makes a difference when you read with your child each night.

Classroom News

Our class continues to read many different stories in class. We have been really using our word attack skills to sound out unknown words in stories. The students are practicing reading with expression and observing punctuation in the text.

In math, the second graders are learning to regroup with double digit numbers in addition and subtraction. The first graders are learning about adding double digit plus a single digit number.

Our word of the month is courage. We are learning about choosing what is helpful, right, and kind—even when it's hard or scary.

😊 Mrs. Barta

May

3rd/4th Grade Miss Douglas

Reading – 3rd grade will be reading drama/myths, poetry & doing a review. 4th grade will be reading historical fiction. Poetry and doing a review.

Math – 3rd grade will be data & 2-D Shapes and 4th grade will be working with 2-D shapes, patterns, & measurement.

Writing - The students will be writing an imaginative story.

Events:

05/03– MBI

05/14 – Spring Concert

05/21 – Field Day

05/23 – Elementary Awards & Last Day

We will have a field trip sometime this month too.

Birthdays:

06/17 – Logan

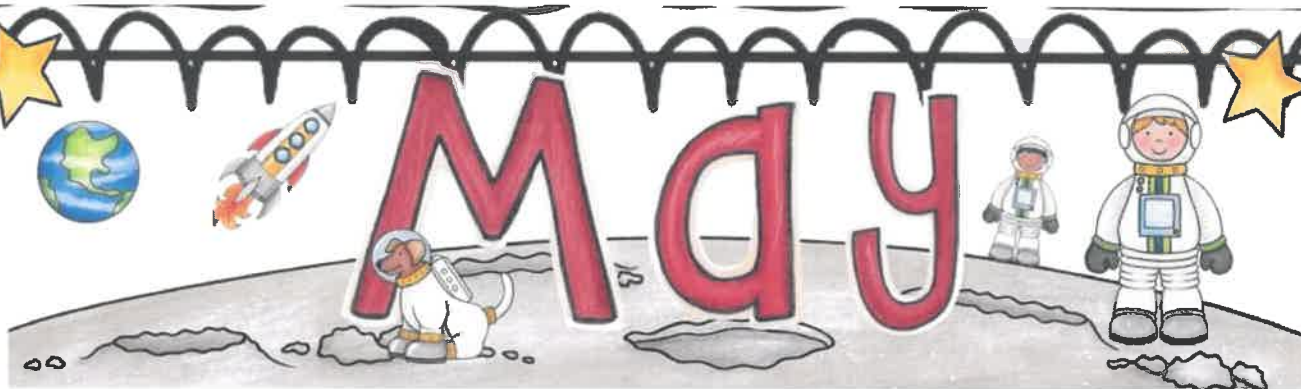

06/19 – Abel

08/27 - Mariah

Homework:

20 minutes of reading and Practice flashcards

NEWSLETTER • • • • •

• This year has been a wonderful adventure.

• The Fromberg Elementary held their MBI assembly on Friday April 5th. During our assembly we reviewed the rules and expectations for the playground and the restroom. During our assembly the Joliet Mason's presented two students with Kindles for "I Love to Read Month." The winner for grades K1-2 was Zenelle Blasi and for grades 3-5 was Secret Christman. Way to go ladies!!!! We would like to thank the Joliet Masons for their generous donation.

• This months books that each class received are:

- Kinder-One - 1st - Peppa Pig - George's Race Car
- 2nd - I Survived The Nazi, Invasion, 1944
- 3rd - 4th - National Geographic Kids
- 5th - Mysteries According to Humphrey

Tickets

- ❖ **Kinder-One** received 179 individual tickets, they have 71 class tickets and their next reward is a POPCORN & MOVIE.
- ❖ **Kindergarten** received 46 individual tickets, they have 73 class tickets, and their next reward is a UNICORN ICE CREAM.
- ❖ **1st & 2nd** received 51 individual tickets, they have 71 class tickets, and their next reward is a 1/2 DAY OF GAMES.
- ❖ **3rd & 4th** received 102 individual tickets, the have 64 class tickets, and their next reward is a FREE TIME.
- ❖ **5th** received 61 individual tickets, they have 55 class tickets, and their next reward is a GAME IN THE GYM.

TO-DO

Enjoy the last few days of school before summer break!

May

Summer School Program

Clarks Fork Valley Migrant School
Fromberg School District
Fromberg, Montana

Who qualifies?

Children of Migrant Farm Workers involved in agricultural activities on a seasonal or temporary basis.

1. You must travel across a school district, county, or state line to seek or obtain seasonal or temporary agricultural employment.
2. This move must involve establishing temporary residency for at least 48 hours.
3. This employment must provide an important part of your annual income.

What qualifies as an agricultural activity?

- feeding, raising, moving, and processing livestock
- prepping, growing, harvesting and selling produce
- fencing field used for agriculture or livestock
- irrigating farm or ranch land
- Hoeing or hauling sugar beets (hauling must be from the field)
- sorting sugar beets at the sugar factory
- clearing, prepping, or planting fields used for agriculture
- working as a farm or ranch hand on a seasonal or temporary basis
- planting, cutting and hauling grains (hauling must be from the field)

Summer School Program

- provided free at NO COST to qualified families
- program starts early June and ends mid July
- the curriculum emphasizes math, reading and STEM for elementary and secondary students as well as arts and crafts and outdoor activities
- breakfast, lunch and snack are provided at no charge to all qualified participants

If you feel that you or someone you know qualifies or is interested in his program please call Kathleen Fetch, Program Tutor, 406-671-0576, kfetch@huntley.k12.mt.us, Mark Branger, Program Director at mbranger@huntley.k12.mt.us or contact Kieran Klubber, Program Recruiter, 406-697-2899, kklubber@huntley.k12.mt.us.

Clarks Fork Valley Summer Program

If you or anyone in your family travel for the purpose of agriculture, your children may qualify for FREE Summer which includes FREE transportation and Free Breakfast, Lunch and Snack.

For children ages 3 - high school graduation.

For information and registration contact:

Kieran Klubber, Program Recruiter, 406-697-2899, kklubber@huntley.k12.mt.us

Kathleen Fetch, Program Tutor, 406-671-0576, kfetch@huntley.k12.mt.us

The Library Connection

May 2024

March, in the library, seemed to go by rather quickly. We held our second annual Book Blast, which lasted two weeks. Congratulations to our Miss Lockman on qualifying for a \$200 shopping spree. Congratulations to the winners of the treasure chests: Logan (1st); Evelyn (K); and Monte (2nd). Brigid (2nd) grade won the iPad. Awesome!!! Participation was 39.53%. Good job! In 1 or 2 weeks each child will receive at least 2 books for their home libraries. Some students will qualify for more. Mrs. Rupprecht was able to purchase several books for our school library. Next year our 3rd annual event will be in February...since it will be "I Love to Read Month"!

Dav Pilkey, author and illustrator of several books, spent most of his school days in the hallway.

He has ADHD and dyslexia. While in the hallway, he drew pictures and cartoons.

In partnership with Miss Kandy, (after school program), there will be a Scholastic Book Fair in May in the Library. Watch for detailed information.

Frogs and more frogs, fictional and non-fictional, invaded the library early in April... One week of fictional frog characters and a week of learning about real frogs. We admire the beautiful colors of the endangered and dangerous frogs. The bright and beautiful colors tell potential predators that they do not taste very good and that their skin is poisonous. Who knew that eating ants could make a protective coating on these amphibians?

We especially like the red-eyed tree frog...

The Scholastic Book Fair is coming! **SAVE THE DATE! May 6th-10th** and get ready to empower your reader with book choice and Start exploring together!

Explore scholastic online by visiting our website www.scholastic.com/bf/frombergschool: or scanning our Qr code.

If you sign up with ewallet Your child will be able to purchase books at the book fair or online. you can share your ewallet with family and friends so they can add funds to the ewallet for your child. Just scan the Qr code or use our scholastic url, scroll down to the bottom of the page and fill out the ewallet information.

Counselor's Corner

We made it to May! Crazy how the school year flew by! We are on the downhill stretch of the year and summer is just a few short weeks away. Midterms for middle and high school were the middle of last month. Please check Infinite Campus for an update on grades. We will send out final grades at the end of the year. As always, reach out with questions or concerns about grades!

Seniors are busy planning for graduation. If you are still working on scholarships or planning to go to college in the fall, please reach out if there are issues or concerns. Many scholarships are closed but a few are still open and FAFSA has sent out a report noting that some issues have been ironed out so you should be able to finalize if you have not already.

Most elementary students have been working on coping skills recently. There are many new ideas that they have learned about if they are having big feelings that they might not know how to deal with. 5th graders have worked on conflict resolution and so many students have great ideas of how to deal with negative interactions and situations! Kindergarteners are still learning about Little Spots of emotion and how all feelings are so important. Sometimes we are a Scribble Spot and that's ok!

I want to thank all staff, students, and parents for making my first year at Fromberg amazing. I have truly enjoyed getting to know all the students and building a trusting relationship with so many. I cannot wait to come back next year to see you all! Hope everyone has a GREAT summer!

WHAT'S UP IN THE SCIENCE LAB?

CLASS UPDATES

STEAM FAIR 2024

STEAM Fair has been rescheduled. The new date for the event is May 16, 2024, and it will take place from 2:00pm to 6:00pm at the School Gym. This change in schedule will provide our students with additional time to investigate, invent, and innovate on their projects. I believe this extra time will be beneficial for the quality of the projects and the overall learning experience. The gym will be open for public viewing, and I especially encourage parents to come and witness the creativity and hard work of our students. We look forward to seeing you at the STEAM Fair!

SCIENCE TECHNOLOGY ENGINEERING ART MATH

MAY 16 ◦ 2pm-6pm ◦ Gym

2

0

2

4

- **Science** encourages students to explore the natural world, develop hypotheses, and seek answers.
- **Technology** equips students with modern tools and skills to solve problems more efficiently.
- **Engineering** teaches students to design and build solutions to complex problems.
- **Arts** foster creativity and encourage students to think outside the box.
- **Mathematics** provides the foundation for logical reasoning and problem-solving.

WHAT'S UP IN THE SCIENCE LAB?

CLUB UPDATES

MONTANA SCIENCE OLYMPIAD

On April 17th and 18th, 2024, our Middle School (RaeLee, Braydon, & Miles) and High School (Brooklyn & Eric) team participated in the prestigious Montana Science Olympiad Competition in MSU Bozeman. This two-day event was filled with rigorous challenges and intellectual battles. Our Middle School team competed in two of the 14 events against 37 teams, securing the 16th rank in the Tower event. The High School team faced off against 35 teams in three different events, achieving notable ranks in all their events, with their best performance being the 19th rank in the Tower event. This competition served as a great platform for our students to showcase their scientific prowess and team spirit. We are incredibly proud of their efforts and eagerly look forward to future competitions.

NASA ARTEMIS ROADS II Expo

Our official participants for the NASA Artemis ROADS II Challenge are Brooklyn, Eric, and Miles. They will be representing us under the team name "Falcons Flight" and will showcase their output on May 21 at MSU Bozeman.

OPEN TO ALL

Our STEM Club is not just for middle and high school students. We welcome elementary kids, parents, and other community volunteers. We believe that everyone can contribute to and benefit from the STEM fields.

STEM CLUB WORKSHOP

Every Friday from 2:15-3:00, our Science Lab is open to anyone who wants to learn more about science. Our club members will be there to assist and help you explore the wonders of science.

Opportunity: MONTANA AEROSPACE SCHOLARS

In partnership with NASA, the Montana Learning Center is offering the Montana Aerospace Scholars program for high school students. This is a fantastic opportunity to delve deeper into the aerospace field. More details can be found on the next pages.

Opportunity: YOUNG SCIENTIST CHALLENGE

EM & Discovery Education are hosting a Young Scientist Challenge for grades 5-8 on May 8. This is a great platform for young minds to showcase their scientific prowess. Details can be found on the poster on the next pages.

SOLAR ECLIPSE VIEWING

Our solar eclipse viewing event on April 8 was a resounding success! Some of our students and staff had the unique opportunity to step outside and witness the partial solar eclipse firsthand. Armed with their eclipse glasses, they were able to safely observe this extraordinary celestial event. It was a truly memorable experience that brought our STEM lessons to life. Thank you to everyone who participated and made this event possible. Let's continue to explore and learn more about our fascinating universe!

GRANTS & DONATIONS

We are thrilled to announce that we have received several generous donations and grants for our science equipment. These contributions will significantly enhance our STEM program and provide our students with more opportunities to explore and learn. Here's a rundown of what we've received so far:

- **2 Lego Spike Prime Sets:** These sets are fantastic for introducing students to robotics and programming.
- **10 Makerbot PLA filaments:** These filaments are essential for our 3D printing projects.
- **16 Science Comics:** These comics make learning science fun and engaging.
- **100 pieces of Eclipse Glasses:** Perfect for safe solar viewing during astronomy lessons.

In addition, a kind-hearted family from our community has donated a variety of STEM-related toys including sets of Legos, Makeblock, Dragons, and more. We are incredibly grateful for their generosity. These resources are a fantastic addition to our program and will go a long way in enriching the learning experience for our students. We can't wait to see what our students will create and discover with these new tools! Thank you to everyone who has contributed. Your support is greatly appreciated and will have a lasting impact on our STEM program.

Winners for the Carbon County Art Show!!!!

Congratulations are in order for fourteen, very talented young artists who rose above the rest to be recognized in the annual Carbon County Arts Guild Student Show. Many of our images were made in reference to the Year of the Dragon, celebrating the Chinese New Year. We had a variety of medias and our young artists showed off their skills, winning fourteen places in the county wide show.

Among these winners were Lynlea Bergstrom with The Golden Dragon in 2nd place, Willow Bult with Pretty Pinks, Atlas Park showed Ben Aslart and Logan Bergstrom was a winner with Naughty Dragon. Second grade had two winners Paisley Bult, with Water Dragon Taryn Amlin was an Honorable mention with a work titled, The Fromberg Valley. Third grader, Blakely Elmore brought home a second place, with Loving Dragons. Fourth grade had three winners: Logan King with Nature, for second place and honorable mention for Harlee Holmes and Secret Christman. Isla McCranie, fifth grader, also got an honorable mention with Aurora's Lights. In our sixth grade competitors Lexie Carter came back with a first place ribbon for Life Cycle and Braydon Maharry took third place in the 3-D class with a lovely fused glass necklace titled Sunset Field. Last but not least Sylvia Hoffman won fourth place with, Peaceful Life. A spectacular pencil drawing of a log cabin in the forest.

We took a National Book Challenge and Succeeded!

WE are Published Authors!

A big CONGRATULATIONS to Eric Worden, Norman Hathaway, Nathan Shaw, Ella McCranie, and Wyatt Lowery on their section of the book, If I Could, I Would. A collection of stories about how these student's characters would like to change things for the positive. The Class of 2029, Florence Gruel, Brislyn Maharrey, Landon Wilm, Teagan O'Grady and Victoria Zepeda, created a fictional short story based on their real lives and the exciting things to come in 2029.

A Colorful End to Adult Education!

Paint Pours With Wendy!

Fromberg's very own Wendy Miller will be teaching paint pours May 6th at 5:00 in the Art Room. You may have admired Wendy's work at the Strut Your Stuff Bazaar, where she displayed light switches, wooden puzzles, Christmas ornaments, spontaneous paint pours and more. Wendy practices a variety of styles, and will have displays of those pieces for future classes next fall. Wendy is treating us to a super fun learning opportunity that requires no drawing or Art expertise. This is a make and take class with an 8x10 canvas, finished product. Cost of the class is \$15.00 and comes with all supplies. Please register at Fromberg High School office to reserve your place in class before Friday May 3rd.

Huge Shout Out to Richard Polley and the Techniglass Corporation!!

On my recent trip to the Glass Craft and Bead Expo in Las Vegas, not only did I find new products for teaching glass fusion, I met Richard Polley with the Techniglass Corporation. Techniglass carries my favorite shelf paper and I was purchasing a roll for my home studio and small sheets for my student's school microwave kiln. When Richard heard about my students love of glass working and the small size of our school he was inspired to help our students learn. Not only did the Techniglass Corporation extend great generosity by gifting my students much needed Papyros kiln paper samples, they wrapped it up in a heavy duty, orange bag, perfect for books and heavier objects. The kids were thrilled and inspired to create more! I promised to keep Richard and the Techniglass crew informed of our student's progress. Thank you very much for supporting Fromberg Schools, Lindi O'Brien.

FFA Greenhouse Plant Sale!

Opening April 29th till all stock is gone.

8-5:00 Monday – Friday

Open three Saturdays May 4, 11, 25

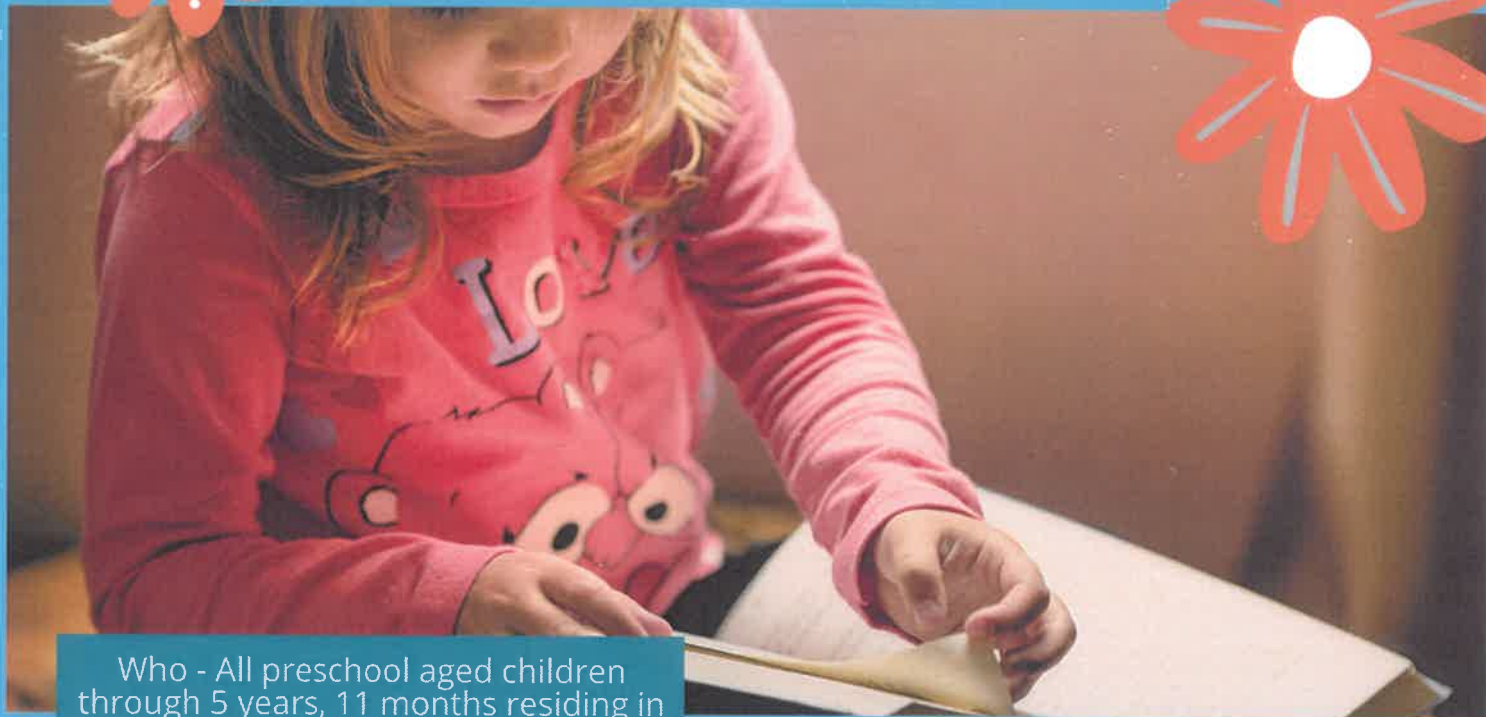

8-5:00
