Be very thoughtful when choosing your classes. Over the summer the master schedule is set based on what classes YOU selected.

If you change your mind in August, it is highly unlikely that you will be able to change your schedule, so be mindful of your choices.

ENHANCED MATH

Students take a math transition benchmark test in May in elementary. This test, along with student SBAC scores and other academic criteria places students in the appropriate math class. Elementary school teachers do not give recommendations, nor do we take outside recommendations. The district will send home a letter during the summer disclosing your placement.
