Records showing the bids received and prices paid for each item will be placed on file and may be examined by the public upon request. Contractors are expected to take immediate action to correct any situation in which product integrity is violated. See Product Specification.

Quantity

The district does not guarantee orders in the amounts listed nor shall the districts be required to limit its orders to specific figures. This is an indefinite quantity bid based on estimated usage and average daily participation. The amounts shown are estimates only. The districts do not guarantee any specific usage but the following represents the current meal participation. See Exhibit A.

Delivery Requirements

The participating district's school information is listed within this document. Please reference this information to determine delivery locations. The delivery times will be conducted between the hours of 6:30am and 2:30 pm. Deliveries made by the Contractor without a scheduled appointment may result in delivery refusal by the district. Any cost accrued as the result of such refusal shall be born solely by the Contractor and not result in any additional costs

to the District. The contractor must be responsible for insuring that delivery personnel remain with their equipment and unload the delivery. Drivers and helpers shall deliver merchandise to designated areas. Drivers and helpers shall request the authorized receiver or the designated representative, to verify the accuracy of quantities of each item, brand and code numbers of each item and condition of merchandise. Each delivery ticket shall be signed by a designated receiver. Variations from the norm, i.e., shortages, damages, etc., shall be noted on each ticket by the designated receiver and initialed by both the truck driver and receiver. If deliveries are made wherein shortages or damaged items are noted, the contractor will be required to make "next day" deliveries to correct the discrepancies. However, if the shortage had been noted and transmitted to the affected entity during the order process, the requirement for "next day" shall not apply. The term "next day" is used to allow entities to exercise that option. However, it shall not be intended as mandatory. The successful contractor will pick up damaged or unusable cases of product. The organization will be given credit for all damaged or unusable product. However, the contractor will not be required to credit organizations for damaged product due to TCSS equipment failure.

In the event of default by the Contractor(s) of their obligations, the District reserves the right to obtain the required products elsewhere. The Contractor(s) would be responsible for the District's documented differences in price for the replacement products.

Delivery contact information

Please see the attached sheet.

Substitute Distributor

The term substitute distributor for purposes of this document shall mean the distributor selected to take over the administration of a contract cancelled by the original contractor. The selection of a substitute contractor may result in awarding the contract to the next low responsible bidder based on the bids received when the original award was made or the selection may be made on the basis of a new competitive bid process. If the latter is the case, a bid from the distributor causing cancellation may not be considered.

Fuel Surcharge

In the event that fuel prices increase significantly over the life of the contract, then a fuel surcharge may be negotiated.

Damages

The bidder agrees to be responsible for damage to the milk boxes, refrigerators, building or grounds when such damage was the direct actions of delivery personnel.

Payments

All invoices for products received and accepted prior to the last working day of the month shall be paid on or before the 20th of the next month. Distributor will notify each school district of any delinquencies. One purchase

order will be issued by the Tuscaloosa City Schools and the Tuscaloosa County School System each month for the milk service to all schools served by a vendor.

- Purchase Order Number
- Quantity of Each Item Purchased
- Price of Each Item Purchased

The contractor must have a bookkeeper that can assist with resolution of any differences in the accounts. This should be by local telephone.

Taxes

Purchases made under provisions of any contract established as a result of this Invitation are exempt from federal, state and local taxes unless otherwise noted and bidders should quote prices which do not include such taxes.

Gifts, Rebates, Gratuities

Acceptance of gifts from contractors and the offering of gifts by contractors is prohibited. Violations of this provision are punishable under the laws of the State of Alabama.

Cancellation

The participating districts reserve the right to cancel this Request for Bid at any time if cancellation is deemed to be in the District's best interest. In no event shall the district have any liability for the cancellation. The proposer assumes the sole risk and responsibility for all expenses connected with the preparation of its proposal.

Disputes

In case of any doubt or differences of opinions as to the items or services to be furnished hereunder, or the interpretation of the provisions of the Request for Bids, the decision of the participating districts shall be final and binding upon all parties.

Clarification

District reserves the right to request clarification of any item in a firm's proposal or to request additional information necessary to properly evaluate a particular bid. All requests for clarification and responses shall be in writing.

Contractors have the right to request clarification for this bid document. All request shall be made in writing to the Director of Child Nutrition no later than seven (7) working days prior to the time and date set for the bid opening. The Director of Child Nutrition will respond to the request, by letter, or in the form of a written addendum if it is determined that all prospective bidders should have benefit of the clarification. No addendum will be issued within the five (5) day period prior to the date of the bid opening. An addendum may serve to delay that opening for a time sufficient for all bidders to response to the addendum.

Assignment

The contractor shall not assign, or subcontract in whole parts, its rights or obligations under this agreement without prior written consent of the Tuscaloosa County School System. Any attempted assignment or sale of the contract without said consent shall be void and of no effect.

Review and Award

After the public opening of the Request for Bids, school system officials will establish a contract between the lowest responsible, responsive bidder and the school systems on the bid except as may otherwise be specified in the Invitation for Bid. Awards will be based on the total or bottom line on all items listed. Lowest responsible bidder will be determined by the lowest bottom line. Tuscaloosa County Board of Education will serve as the awarding authority based on the following.

1. **Delivery Ability:** Bidder must demonstrate or has demonstrated to the Tuscaloosa County Board of Education the ability to promptly and efficiently deliver all items on the bid list or contract with a 3rd party distributor who has the ability to do so. Telephone numbers should be available in the event of an emergency situation.
2. **Capacity:** Bidder must demonstrate to Tuscaloosa County and City Boards of Education that they have the physical as well as financial capacity to procure and store the merchandise covered by the contract in the volume necessary to efficiently administer the provisions of the contract, or contract with a 3rd party to do so.
3. **Reliability:** For a bidder to be declared a responsible vendor, they must have a proven record of service in the administration of a contract of this size and this type. A distributor may be considered unreliable, thus non-responsible, if for any reasons other than reasons beyond their control, they have violated any of the requirements listed herein or have caused the cancellation of a contract of this type or have failed to properly communicate with participating entities on matters essential to a contract of this type.
4. **Accounting Procedures:** A bidder, to be considered for award, must clearly demonstrate to the Tuscaloosa County Board of Education the capability to provide accurate, reliable and timely invoices, statements, and credits. They must demonstrate the ability and capability to provide any and all date.
5. **Facilities and Equipment:** Bidder must have the warehouse facilities required to safely and securely store the products required by these specifications or contract with a 3rd party to do so. The facilities and operating practices must, at all times, be in compliance with the United States Food, Drug, and Cosmetic Act as well as any State and local Statue, Regulation or Ordinance.
6. **Delivery Equipment:** Bidders must show evidence of ownership or the ability to lease, rent or otherwise obtain vehicular equipment necessary to affect an efficient day to day delivery schedule to participating entities within the bidder's region of responsibility. The Tuscaloosa County Board of Education does not presume to dictate the type of trucks or tractor trucks necessary to accomplish an efficient day to day delivery schedule. However,

bidders should know that all delivery sites do not provide state-of-the-art unloading and food handling facilities. Some sites in fact, fall far short of that standard.

7. Review Process: After bids have been opened and tabulated, the bid evaluation team will check all aspects of the low bidder's proposal. If the proposal is found to be error free and does, in fact, represent the lowest responsible offering, while offering the greatest number of requested items, that bid will then be recommended for approval. If, however, an error is discovered and the error is a mistake in the extension, the correct extension will be applied. Should a corrected extension cause the bid price to be escalated to such an extent that the bid was no longer "low", then the same evaluation would be applied to the next low bidder's offering until a true low bid would be selected.

Bid Acceptance

The Tuscaloosa County Board of Education reserves the right to reject any or all bids, to waive any informality and unless otherwise specified by the bidder, to accept any item on the bid. If a bidder fails to stipulate otherwise, it is understood and agreed that the Tuscaloosa County Board of Education has sixty (60) days to accept. The Tuscaloosa County Board of Education is awarding authority for all systems listed in this document and reserves the right to reject any and all bids.

Termination of Contract

Failure on the part of the participating school systems or the contractor to meet requirements as stipulated of this contract may result in contract termination.

- A. Each party shall follow the procedure outlines below if a contract is to be terminated. All transactions shall be sent by Registered or Certified mail.
Step 1: Verbal communication in regards to violation.
Step 2: Issue warning letter and outline violations and length of time to correct the problem.
Step 3: Issue letter of Intent to Cancel Contract if problem is not resolved by given date.
Step 4: Issue letter to cancel contract.
- B. In the event that the physical facilities of the contractor are destroyed, the contractor will not be held liable by the participating school systems. The contractor may not be held liable for the terms of the contract should normal fulfillment of the contract be disrupted by an organized labor strike. The credibility of any such labor disruption claim should be verified by the participating school system before allowing the termination of the contract.

Federal Requirements

- A. The District participates in the National School Lunch Program and School Breakfast Program and is required by law to use school foodservice funds, to the maximum extent practical, to buy domestic commodities or products for meals served under these programs. A "domestic commodity or product" is defined as one that is either produced in the U.S. or is processed in the U.S. substantially using agricultural commodities that are produced in the U.S. The term "substantially" means that over 51 percent of the final processed product consists of agricultural commodities that were grown domestically. Therefore, when school foodservice funds are used to acquire foods, Contractors shall ensure that the items are in compliance with this requirement. See specific USDA Federal Requirements in Attachment A, Sample Requirements Contract – FOOD.
- B. Contractor is compliant with regulations implementing Executive Order 12549, Debarment and Suspension, 7DFR Part 3017, Section 3017.510, Participants' responsibilities. The regulations were published as Part IV of the January 30, 1989, Federal Register (pages 4722-4733). Copies of the regulations may be obtained by contacting the Department of Agriculture.
 1. Bidder/Contractor certifies by submission of it's Bid, that neither it nor its principals is presently debarred,

suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any Federal department or agency.

2. Bidder/Contractor certifies that it shall provide immediate written notice to the District if at any time the bidder learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
 3. Bidder/Contractor certifies that it has hereby been informed that Federal and State penalties exist for Bidders and Districts that knowingly enter into contracts with suspended/dared persons.
- C. Bidder/Contractor certifies that by entering into this transaction it is subject to section 1352, Title 31, U.S. Coded, and this certification is a material representation of the fact upon which reliance was placed when this transaction was made and entered into. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure. The signatory submitting this bid certifies to the best of their knowledge and belief, that:
1. No Federal appropriated funds have been paid or will be paid by or on behalf of the signatory, to any person for influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with the awarding of a Federal contract, the making of a Federal grant, the making of a Federal loan, the entering into a cooperative agreement, and the extension, continuation, renewal, amendment, or modification of a Federal contract, grant, loan, or cooperative agreement.
 2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with this Federal grant or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "disclosure Form to Report Lobbying," in accordance with its instructions.
 3. The signatory shall require that the language of this certification be included in the award documents for all covered sub awards exceeding \$100,000 in Federal funds at all appropriate tiers and that all sub receipts shall certify and disclose accordingly.

(ii) (A) The contractor must separately identify for each cost submitted for payment to the school food authority the amount of that cost that is allowable (can be paid from the nonprofit school food service account) and the amount that is unallowable (cannot be paid from the nonprofit school food service account); or

(B) The contractor must exclude all unallowable costs from its billing documents and certify that only allowable costs are submitted for payment and records have been established that maintain the visibility of unallowable costs, including directly associated costs in a manner suitable for contract cost determination and verification;

(iii) The contractor's determination of its allowable costs must be made in compliance with the applicable Departmental and Program regulations and Office of Management and Budget cost circulars;

(iv) The contractor must identify the amount of each discount, rebate and other applicable credit on bills and invoices presented to the school food authority for payment and individually identify the amount as a discount, rebate, or in the case of other applicable credits, the nature of the credit. If approved by the State agency, the school food authority may permit the contractor to report this information on a less frequent basis than monthly, but no less frequently than annually;

(v) The contractor must identify the method by which it will report discounts, rebates and other applicable credits allocable to the contract that are not reported prior to conclusion of the contract; and

(vi) The contractor must maintain documentation of costs and discounts, rebates and other applicable credits, and must furnish such documentation upon request to the school food authority, the State agency, or the Department.

(2) Prohibited expenditures. No expenditure may be made from the nonprofit school food service account for any cost resulting from a cost reimbursable contract that fails to include the requirements of this section, nor may any expenditure be made from the nonprofit school food service account that permits or results in the contractor receiving payments in excess of the contractor's actual, net allowable costs.

(g) Geographic preference.

(1) A school food authority participating in the Program, as well as State agencies making purchases on behalf of such school food authorities, may apply a geographic preference when procuring unprocessed locally grown or locally raised agricultural products. When utilizing the geographic preference to procure such products, the school food authority making the purchase or the State agency making purchases on behalf of such school food authorities have the discretion to determine the local area to which the geographic preference option will be applied;

(2) For the purpose of applying the optional geographic procurement preference in paragraph (g)(1) of this section, "unprocessed locally grown or locally raised agricultural products" means only those agricultural products that retain their inherent character. The effects of the following food handling and preservation

techniques shall not be considered as changing an agricultural product into a product of a different kind or character: Cooling; refrigerating; freezing; size adjustment made by peeling, slicing, dicing, cutting, chopping, shucking, and grinding; forming ground products into patties without any additives or fillers; drying/dehydration; washing; packaging (such as placing eggs in cartons), vacuum packing and bagging (such as placing vegetables in bags or combining two or more types of vegetables or fruits in a single package); the addition of ascorbic acid or other preservatives to prevent oxidation of produce; butchering livestock and poultry; cleaning fish; and the pasteurization of milk.
