NAVIANCE

BY POWERSCHOOL

What is Naviance Student?

Naviance Student is a comprehensive 7-12 college and career readiness platform that enables self-discovery, career exploration, academic planning, and college preparation.

Through Naviance, each student creates an electronic portfolio of college and career experiences to help make post-secondary decisions that align with his/her talents, interest and aspirations.

PRHS also uses Naviance to electronically send documents to colleges, technical schools and the NCAA Clearinghouse.

Naviance Student is accessible anywhere. While many of the features are familiar, it has been redesigned to provide students the opportunity to engage in college and career planning more effectively and on any of their devices.

Colleges: Apply to College

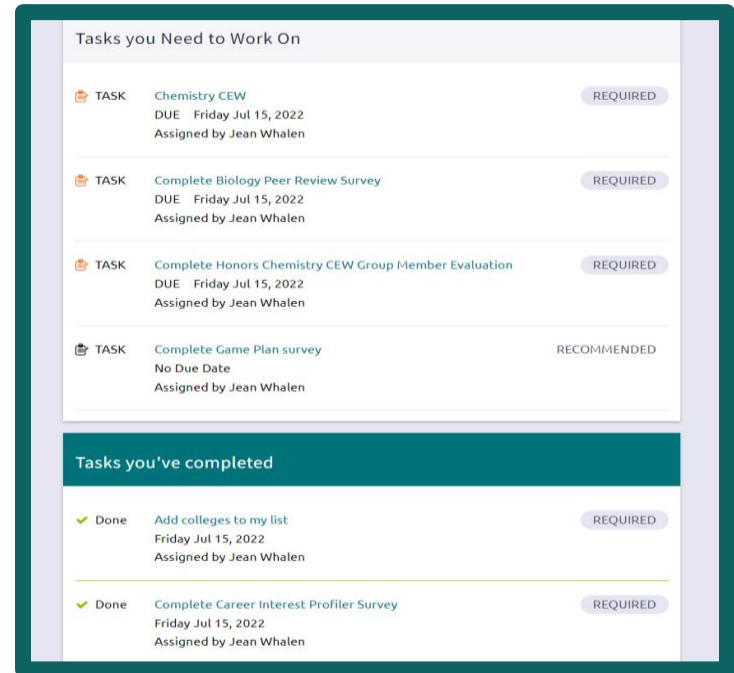

The school counseling office uses Naviance to electronically send the PRHS Profile, student transcripts, teacher letters of recommendation, senior year schedules, mid-year grades, and final transcripts to colleges and technical schools.

Students and parents can monitor requests by checking their accounts. Naviance does not send SAT, ACT or AP scores. Most colleges require students send scores directly from the testing agency.

AchieveWorks Personality®

Your personality type is: **ESFJ**
You described your profile as: **Very Accurate (85% or more)**

Extraverts prefer to:

- focus their attention outward
- work on a variety of tasks
- seek out and interact with many people
- work at a rapid pace
- talk about their ideas to think them through

Feelers prefer to:

- do work that is meaningful
- help others and be appreciated
- make decisions according to their values
- work in a friendly, supportive environment
- make efforts to understand other people

Judgers prefer to:

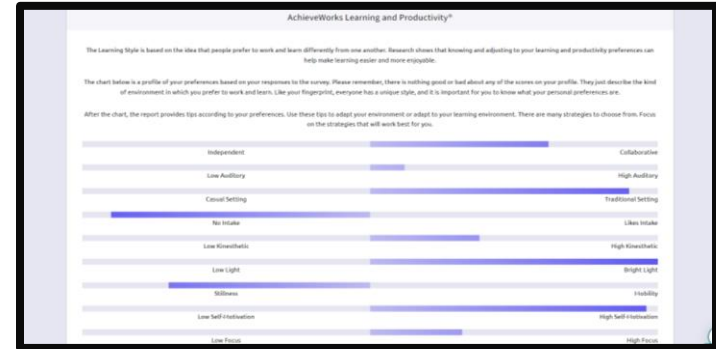

- make many decisions as part of their work
- work in a predictable environment
- complete their responsibilities before relaxing
- maintain control over projects

Sensors prefer to:

- focus on "what is" rather than "what could be"
- work with real things rather than ideas
- apply past experience to solving problems
- receive specific and realistic directions

Of the many factors that contribute to a successful education and subsequent career, an understanding of personality type is among the most useful.

While interests and skills change during the course of a person's life, the one thing that does remain constant is an individual's personality type — the innate way in which each person naturally prefers to see the world and make decisions. All individuals are unique, but people of the same type share large similarities in the kinds of academic subjects and careers they find interesting, and the kind of work they find satisfying.
