## **MANAGEMENT DISCUSSION AND ANALYSIS**

### **Overview of the Financial Statements**

The Management Discussion and Analysis of Central York School District's financial performance provides a brief overview of the district's financial activities for the fiscal year ended June 30, 2022. The Management Discussion and Analysis is an element of the reporting model adopted by the Governmental Accounting Standard Board (GASB), in their Statement No. 34 Basic Financial Statements.

The accompanying financial statements for Central York School District for the fiscal year ended June 30, 2022 have been prepared in accordance with GASB Statement No. 34 and present both Government-Wide and Fund Level Financial Statements using both the accrual and modified accrual basis of accounting, respectively. The Government-Wide Financial Statements show financial information about the activities of the District as a whole and provide a longer-term view of the District's finances. The Statement of Net Assets and the Statement of Activities provide this information. These statements distinguish between those activities of the School District that are governmental and those that are considered business-type activities. These statements are prepared using the accrual basis of accounting. All assets and liabilities of the District are included in these statements, and all of the current year's revenues and expenses are taken into consideration regardless of when cash is received or paid. This method of financial presentation is similar to the accounting used by most private-sector companies. Fund Financial Statements show how the district finances its services in the short term, as well as, what remains for future spending. Fund Financial Statements provide separate information for the District's most significant funds and then non-major funds are aggregated and presented together. The modified accrual method of accounting is used in Fund Financial Statements. This method measures cash and all other financial assets that can be readily converted to cash. In the financial statements there is a reconciliation, which shows the differences between the Government-Wide Financial Statements and the Fund Financial Statements. Lastly, a Statement of Fiduciary Net Assets is provided which provides financial information about activities that the School Board acts solely as an agent for the benefit of students. These activities are excluded from the other financial statements of the district, because these assets cannot be used to finance the districts operations.

The \$(55,185,741) of unrestricted net assets represents the accumulated results of all past years' operations. In simple terms, the amount of unrestricted net assets represents the amount of funds the district would have remaining if all of the outstanding obligations were paid as of June 30, 2022. The results of the current years' operations would be reflected in the Statement of Activities for the year ended June 30, 2022.

As reflected in the Statement of Activities, the change in net assets for the current year was \$4,694,233 for Governmental and Business-Type Activities. This statement provides a summary of the total cost of the services provided by the District, and the offsetting revenue used to support those services. The following pages provide a summary of the District's functions, as well as, the District's net cost (total cost less revenues generated by the activities or grants and funding specific to the program). The net cost is the amount of financial burden, which was placed on the district's taxpayer's and the cost provided by non-specific grants (such as basic education funding provided by the state).

As you can see from the above schedule the programs generated \$18,602,886 in program revenue to offset the total cost of services. Program revenue consists of charges to users and operating or capital grants provided by state or federal subsidies. The additional revenue used to provide the district services was generated from taxes, investment earnings, or grants and entitlements from the state, which were not restricted for specific programs. Below is a summary of the revenues used to provide services for the District.

## **Fund Financial Statements**

As stated earlier, Fund Financial Statements provide the reader with an understanding of how the district finances its services in the short-term, and what funds are available for future spending. School Boards establish various funds to control and manage resources for particular purposes or due to legal requirements. The three major funds that the District maintains are: General Fund which is the principal operating fund of the district; the Capital Reserve Fund, which is used to monitor larger projects of the district and to maintain excess funds from the General Fund for future use; and Capital Projects Fund which is used for renovation and construction projects.

The General Fund balance is \$3,074,002 for the year ended June 30, 2022. The fund balance currently equals 3% of the 2021-2022 expenditure budget. The Capital Reserve Fund balance is \$1,390,156 for the year ended June 30, 2022.

## **Capital Assets and Debt Administration**

At June 30, 2022, the Board of Education had \$85,142,470 invested in a broad range of capital assets including land, buildings, furniture and equipment.

As of June 30, 2022, the District had \$6,350,000 in outstanding general obligation bonds. Moody's Investor Service, the nation's leading agency for evaluating the credit worthiness of municipal bonds has maintained the district's rating at Aaa. Additionally, as of June 30, 2022 the district had \$1,648,737 in compensated absences, which represents accrued vacation pay, sick leave and retirement bonuses. The District's Other Post-Employment Benefits liability for retiree health insurance was \$24,359,380 as of June 30, 2022. The Net Pension liability at June 30, 2022 was \$144,153,000.

## **General Fund Budget Highlights**

The Board of Education adopts an annual budget for all Governmental Funds and the Proprietary (School Food Service) Fund. The budget includes all revenues and expenditures/expenses of these funds. The budget acts as the operating plan for the fiscal year and is revised as necessary in accordance with requirements of State law and Board policy. The Board of Education may amend the budget at any time during the fiscal year by making additional appropriations, or by increasing existing appropriations, but the funds must be provided from unexpended balances in existing appropriations, from unappropriated revenues or from temporary loans.

The financial statements show the original budget and final budget amounts, and a comparison of the final budget to the actual amounts.

**Fiduciary Funds**

The Fiduciary Funds of the District are presented separately in the Statement of Fiduciary Net Assets because these funds are not used in the Operation of the School District, but the Board of Education acts as the agent of these funds for the benefit of students.

**INDEPENDENT AUDITOR'S REPORT**

Board of Education  
Central York School District  
York, Pennsylvania

**Report on the Audit of the Financial Statements**

**Opinions**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Central York School District as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the School's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Central York School District as of June 30, 2022, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

**Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Central York School District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

**Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Central York School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

**Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from

Board of Education  
Central York School District  
York, Pennsylvania

error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures including examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Central York School District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Central York School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 1-10 and page 20 be presented to supplement the basic financial statements. Such information, is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Central York School District's basic financial statements. The schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic

Board of Education  
Central York School District

financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

**Other Information**

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

**Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated January 3, 2023, on our consideration of the Central York School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Central York School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Central York School District's internal control over financial reporting and compliance.

**RECONCILIATION OF GOVERNMENTAL FUND BALANCES**  
**TO NET POSITION OF GOVERNMENTAL ACTIVITIES**  
**JUNE 30, 2022**

**TOTAL GOVERNMENTAL FUND BALANCES** \$ 4,464,187

**AMOUNTS REPORTED FOR GOVERNMENTAL ACTIVITIES IN THE  
STATEMENT OF NET POSITION ARE DIFFERENT BECAUSE:**

Capital assets, net of accumulated depreciation, used in governmental activities are not financial resources and therefore are not reported in the funds. The cost of assets is \$179,645,081 and the accumulated depreciation is \$94,606,998. 85,038,083

Property taxes receivable will be collected this year, but are not available soon enough to pay for the current period's expenditures, and therefore are deferred in the funds. 1,121,278

Right to use leased assets used in governmental activities are not financial resources and therefore are not reported in the funds.

**AMOUNTS REPORTED FOR GOVERNMENTAL ACTIVITIES IN THE STATEMENT OF ACTIVITIES ARE DIFFERENT BECAUSE:**

Governmental funds report capital outlays as expenditures.

However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.

This is the amount by which capital outlays exceeded depreciation in the current period.

**CENTRAL YORK SCHOOL DISTRICT**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2022**

**NOTE 1 - NATURE OF OPERATIONS**

Central York School District (School District) operates a public school system located in York, Pennsylvania. It is a school district of the third-class based on its population and is comprised of elementary, middle and secondary schools.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities, if any, at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

The financial statements of the School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The School District also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, to its governmental and business-type activities and to its proprietary funds provided they do not conflict with, or contradict, GASB pronouncements. The most significant of the School District's accounting policies are described below.

**Reporting Entity**

In evaluating the School District as a reporting entity, management has addressed all potential component units for which the School District may or may not be financially accountable, and as such, are includable within the District's financial statements. In accordance with GASB Statement 14, the School District is financially accountable if it appoints a voting majority of the organization's governing board and (1) it is able to impose its will on the organization or (2) there is a potential for the organization to provide specific financial benefits to, or impose financial burden on, the School District. Additionally, the primary government is required to consider other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statement to be misleading or incomplete. The School District has no component units.

**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2022**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Fund Accounting**

The School District uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain School District functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the School District are grouped into the categories governmental, proprietary and fiduciary.

**1. Governmental Funds**

Governmental Funds are those through which most governmental functions of the School District are financed. The measurement focus is on the flow of expendable resources, rather than on net earnings determination.

**a. General Fund**

The General Fund is used to account for all financial transactions not accounted for in another fund. Revenue is primarily derived from local property taxes, earned income taxes and state and federal subsidies. Many of the more important activities of the School District, including instruction, administration of the School District and certain noninstructional services, are accounted for in this fund. This is a budgeted fund and any unrestricted fund balances are considered as resources available for use.

**b. Capital Reserve Fund**

This fund is authorized by P. L. 145, Act of April 30, 1943, known as Section 2932, School Laws of Pennsylvania, and accounts for monies transferred during any fiscal year from appropriations.

**c. Capital Projects Funds**

Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities, (other than those financed by Proprietary Funds, Special Assessment Funds and Trust Funds).

**d. Debt Service Fund**

This fund is used to account for the accumulation of resources for, and payment of, interest and principal on debt of the School District.

**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2022**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Fund Accounting (Continued)**

**2. Proprietary Fund**

Proprietary Funds are used to account for the School District's ongoing activities which are similar to those often found in the private sector. The focus of proprietary funds is on the determination of net earnings and capital maintenance.

**Enterprise Funds**

Enterprise funds are those intended to account for services to third-parties by way of user charges for the services provided. The following fund is utilized:

**Food Service Fund**

This fund accounts for all revenues and expenses pertaining to cafeteria operations as authorized under Section 504 of the Public School Code of 1949. It is the intent of the governing body that the cost of providing food goods or services to the students on a continuing basis be financed or recovered primarily through user charges or cost reimbursement plans.

**3. Fiduciary Funds**

This fund is used to account for assets held by the School District as trustee agent. The School District excludes these activities from the District-wide financial statements because it cannot use those assets to finance its operations.

**Agency Fund**

This fund accounts for the receipts and disbursements of monies from student activity organizations. These organizations exist with the explicit approval, and are subject to revocation, of the School District governing body. This accounting reflects the School District's agency relationship with the student activity organization.

**Basis of Presentation**

*Government-wide Financial Statements* - The statement of net assets and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the School District that are governmental and those that are considered business-type activities.

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements, therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

**CENTRAL YORK SCHOOL DISTRICT**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2022**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Basis of Presentation (Continued)**

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the School District and for each function or program of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues, are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the School District.

*Fund Financial Statements* - Fund financial statements report detailed information about the School District. The focus of governmental and enterprise fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and current liabilities and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

All proprietary fund types are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the statement of net assets. The statement of changes in fund net assets presents increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its proprietary activities.

Fiduciary funds are reported using the economic resources measurement focus.

**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2022**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Basis of Accounting**

Basis of accounting determines when transactions are recorded in the financial records and reported in the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting.

*Revenues - Exchange and Non-exchange Transactions* - Revenues resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenues are recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of fiscal year-end.

Non-exchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, property taxes are recognized in the fiscal year for which the taxes are levied. Revenues from grants, entitlements and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied. On a modified accrual basis, revenues from non-exchange transactions must also be available before they can be recognized.

*Expenses/Expenditures* - On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported in the operating statement as an expense with a like amount reported as donated commodities revenues. Unused donated commodities are reported as deferred revenues.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

**Cash and Investments**

The School District has limited authority as to the types of allowable investments. Cash consists of cash on hand and checking, savings and money market account balances. Investments consist of certificates of deposit, U. S. Treasury Securities, Federal Home Loan Mortgage and Government National Mortgage Association securities and liquid assets funds, which are stated at market value.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Inventories**

Food Service Fund food inventories of \$109,666 includes food commodities donated by the federal government which are valued at estimated fair market value. Inventory in the Food Service Fund consists of expendable supplies held for consumption and government donated commodities. The expendable supplies are recorded as an expenditure when used. The Food Service Fund inventories are not offset by a fund balance reserve. The cost of governmental fund type inventories are recorded as expenditures when purchased rather than when consumed.

**Bond Discounts and Premiums**

Bond discounts and premiums are being amortized on the straight-line method over the term of the related obligation. Bond premiums and discounts are presented as increases or reductions to the General Obligation Bonds.

**Capital Assets**

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net position and in the respective funds.

Capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of five thousand dollars. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are expensed. Interest incurred during the construction of capital assets is not capitalized.

All reported capital assets are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

|                            | <b><u>Governmental<br/>Activities<br/>Estimated Lives</u></b> | <b><u>Business-Type<br/>Activities<br/>Estimated Lives</u></b> |

**Encumbrances**

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is not employed by the School District.

**GASB # 54 FUND BALANCE IMPLEMENTATION**

In accordance with Government Accounting Standards Board 54, Fund Balance Reporting and Governmental Fund Type Definitions, the District classifies governmental fund balances as follows:

Non-spendable - includes fund balance amounts that cannot be spent either because they are not in spendable form or because of legal or contractual constraints.

Restricted - includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors or amounts constrained due to constitutional provisions or enabling legislation.

Committed - includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision making authority and does not lapse at year end. The following are committed fund balance:

|                                | <u>General Fund</u>         | <u>Capital Reserve</u> | <u>Capital Project</u> |
|--------------------------------|-----------------------------|------------------------|------------------------|
| Technology Upgrades            | \$ 0                        | \$ 0                   | \$ 0                   |

Assigned - includes fund balance amounts that are intended to be used for specific purposes that are neither considered restricted nor committed. Fund Balance may be assigned by the Business Manager.

Unassigned includes positive fund balance within the general fund which has not been classified within the above mentioned categories and negative fund balances in other governmental funds. The amount of the unassigned fund balance for Central York School District is \$1,805,813 for the year ended June 30, 2022.

**Interfund Activity**

Advances between funds are accounted for in the appropriate interfund receivable and payable accounts. Advances between funds which are not expected to be repaid are accounted for as transfers. Interfund balances and transactions are eliminated in the government-wide financial statements.

Exchange transactions, if any, between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in proprietary funds.

**Budgets and Budgetary Accounting**

An operating budget is adopted each year for the General Fund on a modified accrual basis of accounting.

The Pennsylvania School Code dictates specific procedures relative to adoption of the School District's budget and reporting of its financial statements, specifically:

1. The School District, before levying annual school taxes, is required to prepare an operating budget for the succeeding fiscal year.
2. The Board of School Directors may make transfers of funds appropriated to any particular item of expenditure by legislative action. An affirmative vote of two-thirds of all members of the Board is required. The budget amounts shown in the financial statements are the final authorized amounts as revised during the year.
3. Fund balances in budgetary funds may be appropriated based on resolutions passed by the Board of Education, which authorize the School District to make expenditures. Appropriations lapse at the end of the fiscal period.
4. Included in the General Fund budget are program budgets as prescribed by the state and federal agencies funding this program. These budgets are approved on a program-by-program basis by the state or federal funding agency.
5. Capital budgets are not implemented for capital improvements and capital projects in the Capital Projects Fund. All transactions of the Capital Projects Fund are approved by the Board prior to commitment thereby constructively achieving budgetary control.

**GASB # 34 Implementation**

In June 1999, the Governmental Accounting Standards Board (GASB) unanimously approved Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments*. Certain of the significant changes in the Statement include the following:

A Management's Discussion and Analysis (MD & A) providing an analysis of the District's overall financial position and results of operations.

Financial statements prepared using full-accrual accounting for all of the District's activities.

A change in the fund financial statements to focus on the major funds.

These changes are reflected in the accompanying financial statements (including notes to financial statements) as of June 30, 2022. The District has implemented GASB Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments*, for the year ended June 30, 2022.

**INVESTMENTS:**

**Credit Risk** - risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below are the actual ratings for each investment as of the end of the year:

| <b><u>Investment Type</u></b>                     | <b><u>Rating as of Year End from Standard &amp; Poor's</u></b> |                                   |
|---|--|-----------------------------------|

| Pennsylvania Local<br>Government Investment Trust | \$ 0   | \$ 0                              |
| Pennsylvania School District<br>Liquid Asset Fund | <u>4,511,597</u>   | <u>4,511,597</u>                  |
| <b>Total</b>                                      | <b><u><u>\$ 4,511,597</u></u></b>                              | <b><u><u>\$ 4,511,597</u></u></b> |

**Concentration of Credit Risk** - risk of loss attributed to the magnitude of an entity's investment in a single issuer. Disclosure occurs by issuer and amount investments in any one issuer that represent 5% or more of total investments for the entity:

| <b><u>Investment Type</u></b>                     | <b><u>Amount</u></b>              | <b><u>Percentage</u></b>  |
|---|-----------------------------------|---------------------------|
| Pennsylvania Local<br>Government Investment Trust | \$ 0                              | 0%                        |
| Pennsylvania School District<br>Liquid Asset Fund | <u>4,511,597</u>                  | <u>100%</u>               |
| <b>Total</b>                                      | <b><u><u>\$ 4,511,597</u></u></b> | <b><u><u>100%</u></u></b> |

**Interest Rate Risk** - is the risk that changes in interest rates demanded by the market will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. Information about the sensitivity of the fair values of the entity's investments to market interest rate fluctuations is provided by the following table that shows the distribution of the Entity's investments by maturity:

| <b><u>Investment Type</u></b>                     | <b><u>Investment Maturities (In Years)</u></b> |                                   |                           |

**NOTE 4 - PROPERTY TAXES**

Property taxes are levied on July 15. Taxes are collected at a discount until September 15, at their face amount from September 16 until November 15, and include a penalty thereafter. The taxes are billed by York County and are collected by elected tax collectors in North York Borough, Springettsbury Township, and Manchester Township. Delinquent real estate taxes are sent to York County for collection on December 31.

Revenue from local sources includes real estate taxes collected on a total assessed valuation of taxable real estate at July 1, 2021 in the amount of \$3,040,170,241 for the year ended June 30, 2022.

**GASB # 77 TAX ABATEMENT**

Central York School District entered into a property tax abatement agreement through the Local Economic Revitalization Tax Assistance (LERTA) program. LERTA was established to allow local taxing authorities to exempt improvements to a business property if such property is located in a deteriorated area. The local tax authority may provide for an exemption on the assessment attributable to the actual cost of the improvements or up to any maximum cost established by the municipal governing body. The local tax authority shall establish an exemption schedule not to exceed 10 years and shall specify the portion of improvements to be exempted each year. The District is in the eighth year of an agreement on a LERTA approved parcel. The land assessed value of the parcel was 1,465,230 which is taxed at 100%. The building assessed value is 22,156,000 and was taxed at 80 percent of assessed value for the year ending 6/30/22. The abatement amount for the 21/22 school year was \$90,087.

There was another LERTA Property in the District which is in the fifth year of an agreement. The land assessed value of the parcel was 3,134,930 which is taxed at 100%. The building assessed value is 21,208,630 and was taxed at 80 percent of assessed value for the year ending 6/30/22. The abatement amount for the 21/22 school year was \$344,937.

**NOTE 5 - TAXES RECEIVABLE AND DEFERRED REVENUE**

The School District, in accordance with generally accepted accounting principles, recognized the delinquent and unpaid taxes receivable reduced by an allowance for uncollectible taxes as determined by management. A portion of the net amount estimated to be collectible which was measurable and available within sixty days was recognized as revenue and the balance deferred in the fund financial statements.

Taxes receivable consist of the following as of:

|                   | <b>June 30, 2022</b>                  |  |  |                                       |                            |

**NOTE 10 - PENSION PLAN**

**1. Summary of Significant Accounting Policies**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms investments are reported at fair value.

**General Information about the Pension Plan**

Plan Description

PSERS is a governmental cost-sharing multi-employer defined benefit pension plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the System included all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year, and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues publicly available financial report that can be obtained at [www.psers.state.pa.us](http://www.psers.state.pa.us).

Benefits provided

PSERS provides retirement, disability, and death benefits. Members are eligible for monthly retirement benefits upon reaching (a) age 62 with at least 1 year of credited service; (b) age 60 with 30 or more years of credited service; or 35 or more years of service regardless of age. Act 120 of 2010 (Act 120) preserves the benefits of existing members and introduced benefit reductions for individuals who become new members on or after July 1, 2011. Act 120 created two new membership classes, Membership Class T-E (Class T-E) and Membership Class T-F (Class T-F). To qualify for normal retirement, Class T-E and Class T-F members must work until age 65 with a minimum of 3 years of service or attain a total combination of age and service that is equal to or greater than 92 with a minimum of 35 years of service. Benefits are generally equal to 2% or 2.5%, depending upon membership class, of the members' final average salary (as defined in the code) multiplied by the number of years of credited service. For members whose membership started prior to July 1, 2011, after completion of five years of service, a member's right to the defined benefits is vested and early retirement benefits may be elected. For Class T-E and Class T-F members, the right to benefits is vested after ten years of service.

Participants are eligible for disability retirement benefits after completion of five years of credited service. Such benefits are generally equal to 2% or 2.5%, depending upon membership class, of the members' final average salary (as defined in the code) multiplied by the number of years of credited service, but not less than one-third of such salary nor greater than the benefit the member would have had at normal retirement age. Members over normal retirement age may apply for disability benefits.

Death benefits are payable upon the death of an active member who has reached age 62 with at least one year of credited service (age 65 with at least three years of credited service Class T-E and Class T-F members) or who has at least five years of credited service (ten years for Class T-E and Class T-F

members). Such benefits are actuarially equivalent to the benefit that would have been effective if the member had retired on the day before death.

Contributions

Member Contributions:

Active members who joined the System prior to July 22, 1983, contribute at 5.25% (Membership Class T - C) or at 6.5% (Membership Class T-D) of the member's qualifying compensation.

Members who joined the System on or after July 22, 1983, and who are active or inactive as of July 1, 2001, contribute at 6.25% (Membership Class T-C) or at 7.5% (Membership Class T-D) of the member's qualifying compensation.

Members who joined the System after June 30, 2001 and before July 1, 2011, contribute at 7.50% (automatic Membership Class T-D). For all new hires and for members who elected Class T-D membership, the higher contribution rates began with service rendered on or after January 1, 2002.

Members who joined the System after June 30, 2011, automatically contribute at the Membership Class T-E rate of 7.5% (base rate) of the members qualifying compensation. All new hires after June 30, 2011, who elect Class T - F membership, contribute at 10.3% (base rate) of the members qualifying compensation. Membership Class T-E and Class T-F are affected by a "shared risk" provision in Act 120 of 2010 that in future fiscal years could cause the Membership Class T-E contribution rate to fluctuate between 7.5% and 9.5% and Membership Class T-F contribution rate to fluctuate between 10.3% and 12.3%.

Members who joined the System on or after July 1, 2019, contribute according to Membership Class T-G - 5.50% base rate with shared risk provision and 2.75% direct contribution rate, T-H - 4.50% base rate with shared risk provision and 3.00% direct contribution rate. Code DC has only a direct contribution rate of 7.50%.

Employer Contributions:

The school districts' contractually required contribution rate for fiscal year ended June 30, 2022 was 33.99% of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the District were \$15,150,554 for the year ended June 30, 2022.

**2. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

At June 30, 2022 the School reported a liability of \$122,965,000 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by rolling forward the System's total pension liability as of June 30, 2020 to June 30, 2021. The School's proportion of the net pension liability was calculated utilizing the employer's one-year reported covered payroll as it related to the total one-year reported covered payroll. At June 30, 2022, the School's proportion was .2995%, which was an increase of .0094 from its proportion measured as of June 30, 2021 which was .2901%.

Actuarial assumptions

The total pension liability as of June 30, 2021 was determined by rolling forward the System's total pension liability as of June 30, 2020 actuarial valuation to June 30, 2021 using the following actuarial assumptions, applied to all periods included in the measurement:

Changes in assumptions used in measurement of the Total Pension Liability beginning June 30, 2021.

The Investment Rate of Return was 7.00%, includes inflation of 2.5%.

Salary growth changed from an effective average of 4.50%, which comprised of inflation of 2.50%, and 2.00% for real wage growth and for merit or seniority increases.

**CENTRAL YORK SCHOOL DISTRICT**  
**NOTES TO FINANCIAL STATEMENTS**  
**YEAR ENDED JUNE 30, 2022**

**NOTE 10 - PENSION PLAN (CONTINUED)**

Demographic and economic assumptions approved by the Board for use effective with the June 30, 2021 actuarial valuation:

- Salary growth rate - decreased from 5.00% to 4.50%.
- Real wage growth and merit or seniority increases (components for salary growth) - decreased from 2.75% and 2.25% to 2.50% and 2.00%, respectively.
- Mortality rates - Previously based on the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale. Effective with the June 30, 2021 actuarial valuation, mortality rates are based on a blend of 50% PubT-2010 and 50% PubG-2010 Retiree Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2020 Improvement Scales.

The actuarial assumptions used in the June 30, 2021 valuation were based on the results of an actuarial experience study that was performed for the five year period the period ending June 30, 2020.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The pension plan's policy in regard to the allocation of invested plan assets is established and may be amended by the Board. Plan assets are managed with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the pension.

| Asset Class          | Target<br>Allocation | Long-Term<br>Expected Real<br>Rate of Return |
|----------------------|----------------------|--|
| Global public equity | 27.0%                | 5.2%   |
| Fixed Income         | 35.0%                | 1.8%   |
| Commodities          | 10.0%                | 2.0%   |
| Absolute return      | 8.0%                 | 3.1%   |
| Infrastructure/MLPs  | 8.0%                 | 5.1%   |
| Real estate          | 10.0%                | 4.7%   |
| Cash                 | 3.0%                 | 0.1%   |

|                      | 100%                 |  |

The above was the Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2021.

Discount rate

The discount rate used to measure total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the School's Proportionate share of the net pension liability to changes in the discount rate

The following presents the net pension liability, calculated using the discount rate of 7.00%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.00%) or 1-percentage-point higher (8.00%) than the current rate:

**JUNE 30, 2022**

**NOTE 11 - POST EMPLOYMENT BENEFITS**

In accordance with labor contracts and board policy, the School District provides health care benefits for eligible professional and administrative retirees through the Lincoln Benefit Trust. Eligibility to receive benefits is based on reaching normal retirement age and years of service. The School District recognizes the cost of providing these benefits as expenditures as the monthly payments are due. The cost of these benefits amounted to \$116,789 during the fiscal year ended June 30, 2022. Approximately ten retirees receive benefits under this plan.

**NOTE 12 - COMMITMENTS AND CONTINGENCIES**

**Grant Programs**

The School District participates in both state and federally assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The School District is potentially liable for any expenditures which may be disallowed pursuant to the terms of these grant programs. Management is not aware of any material items of noncompliance which would result in the disallowance of program expenditures.

**Litigation**

The School District is subject to various claims and legal proceedings covering a wide range of matters that arise in the ordinary course of its business activities. Each of these matters is subject to various uncertainties, and some of these matters may be resolved unfavorably to the District.

**LEASE OBLIGATIONS - RIGHT TO USE ASSETS:**

GASB Statement No. 87, Lease Accounting - As of July 1, 2021, the School District adopted GASB Statement No. 87, Lease Accounting. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain leased assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset.

Central York School District has recorded leased assets as a result of implementing GASB # 87. The right to use assets are initially measured at an amount equal to the measurement of the related lease liability as of July 1, 2021.

Central York School District entered into a lease agreement on May 26, 2021 for a 2021 Toyota Corolla. The lease requires 36 monthly payments of \$256.71. The lease was recorded by the District in the financial statements as a right to use asset with a net book value of \$5,648.

**NOTE 13 - SPECIAL SCHOOLS**

The School District is one of fourteen member school districts participating in the operation of the York County School of Technology. The school is operated, administered, and managed by a joint operating committee consisting of board members from the fourteen member school districts. These members are elected by their individual school district board of education.

The School District participates as one of twenty-seven school entities in Lincoln Intermediate Unit No. 12 (LIU). The LIU is a regional education service entity which provides services for special education students.

The School District participates as one of nine member school districts in the operation of the York County High School. The high school was established to provide drop-outs from participating school districts an opportunity to acquire a high school diploma. York County High School is controlled by a board comprised of one elected board member from each participating district.

Expenditures paid to special schools are reflected as instruction expenditures in the General Fund and consist of the following for the year ended:

**NOTE 14 - OTHER INFORMATION**

**Risk Management**

The School District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets, errors and omissions, injuries to employees, and natural disasters. The School District is insured against these risks by the purchase of commercial insurance to cover any reasonable loss.

**Lincoln Benefit Trust**

The School District is a member of Lincoln Benefit Trust. The trust is a claims servicing pool which pays claims for hospital benefits, medical coverage for physicians' services, certain dental coverage, major medical coverage and certain other benefits submitted by employees of the seventeen participating School Districts. Each participating employer contributes to the trust amounts determined by actuarial principles which will be adequate to cover annual claim costs, operating costs and reserves sufficient to provide stated benefits.

Because Lincoln Benefit Trust acts as a claim-servicing pool, the School District remains responsible for the economic risk of providing stated benefits to employees. However, claims incurred between \$50,000 and \$150,000 are paid from the Trust minipool. Claims incurred for \$150,000 to \$2,000,000 are paid from a stop loss insurance policy purchased by the Trust.

Under provisions of GASB No. 10, *Accounting and Financial Reporting for Risk Financing and Related Insurance Issues*, the School District must record a liability for claims when the loss is probable, it can be reasonably estimated and it exceeds cumulative contributions. The contingent liability, if any, cannot be fully determinable until such time that the School District withdraws from the trust. As of June 30, 2022, a liability is not required because the School District's cumulative contributions to the Trust exceed the accrued and incurred claims.

Changes in net assets for the School District's account were as follows for the year ended:

An assumption for salary increases is used only for spreading contributions over future pay under the entry age normal cost method. For this purpose, salary increases are composed of a 2.5% cost of living adjustment, 1% real wage growth, and for teachers and administrators a merit increase which varies by age from 2.75% to 0%.

**Withdrawal**

Rates of withdrawal vary by age, gender and years of service. Sample rates for employees with more than 10 years of service are shown below. Rates for new employees start at 22.9% for both men and women and decrease with age and service.

**Percent of Eligible retirees Electing Coverage in Plan**

100% of Administrators, 90% of Teachers and 75% of the Support Staff are assumed to elect coverage. Those paying the full premium are assumed to cease coverage upon reaching Medicare Eligibility.

**Percent married at Retirement**

25% of employees are assumed to be married and have a spouse covered by the plan at retirement. Non-spouse dependents are deemed to be immaterial.

**Spouse Age**

Wives are assumed to be two years younger than their husbands.

**Per Capita Claims Cost**

Making use of weighted averages for various plan designs, per capita cost for medical and prescription drug is based on the expected portion of the group's overall cost attributed to individuals in the specified age and gender brackets.

Dental costs are assumed to equal the premium. The resulting costs are as follows:

| Age   | Medical and Rx Combined |           |
|-------|-------------------------|-----------|

**Retiree Contributions**

Retiree Contributions are assumed to increase at the same rate as the Health Care Cost Trend Rate. However, the first year trend assumption was adjusted to account for short-term reserve applications.

**Health Care Cost Trend Rate**

5.5% in 2021 through 2023. Rates gradually decrease from 5.4% in 2024 to 4.0% in 2075 and later based on the Society of Actuaries Long-Run Medical Cost Trend Model.

**Actuarial Value of Assets**

Equal to the Market Value of Assets

**Actuarial Cost Method - Entry Age Normal**

Under the Entry Age Normal Cost Method, the Normal Cost is the present value of benefits allocated to the year following the valuation date. Benefits are allocated on a level basis over the earnings of an individual between the date of hire and the assumed retirement age. The Accrued Liability as of the valuation date is the excess of the present value of future benefits over the present value of future Normal Cost. The Unfunded Accrued Liability is the excess of the Accrued Liability over the Actuarial Value of assets. Actuarial gains and losses serve to reduce or increase the Unfunded Accrued Liability.

Other Postemployment Benefits

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit term. Investments are reported at fair value.

**General Information about the Health Insurance Premium Assistance Program**

Health Insurance Premium Assistance Program

The System provides Premium Assistance which, is a governmental cost-sharing, multiple-employer other postemployment benefit plan (OPEB) for all eligible retirees who qualify and elect to participate. Employer contribution rates for Premium Assistance are established to provide reserves in the Health Insurance Account that are sufficient for the payment of Premium Assistance benefits for each succeeding year. Effective January 1, 2002 under the provisions of Act 9 of 2001, participating eligible retirees are entitled to receive premium assistance payments equal to the lesser of \$100 per month or their out-of-pocket monthly health insurance premium. To receive premium assistance, eligible retirees must obtain their health insurance through either their school employer or the PSERS' Health Options Program. As of June 30, 2020 there were no assumed future benefit increases to participating eligible retirees.

Premium Assistance Eligibility Criteria

Retirees of the System can participate in the Premium Assistance Program if they satisfy the following criteria:

Have 24 1/2 or more years of service or

Are a disability retiree, or

Have 15 or more years of service and retired after reaching superannuation age, and

Participate in the HOP or employer-sponsored health insurance program.

Plan Description

PSERS is a governmental cost-sharing multi-employer defined benefit pension plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the System included all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year, and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues publicly available financial report that can be obtained at [www.psers.state.pa.us](http://www.psers.state.pa.us).

Benefits Provided

Participating eligible retirees are entitled to receive premium assistance payments equal to the lesser of \$100 per month or their out-of-pocket monthly health insurance premium. To receive premium assistance, eligible retirees must obtain their health insurance through either their school employer or the PSERS' Health Options Program. As of June 30, 2021 there were no assumed future benefit increases to participating eligible retirees.

Employer Contributions:

The school districts' contractually required contribution rate for the fiscal year ended June 30, 2022 was 0.80% of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the OPEB plan from the District were \$0 for the year ended June 30, 2022.

**2. OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB**

At June 30, 2022, the District reported a liability of \$7,099,000 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2021, and the total OPEB liability used to calculate the net OPEB liability was determined by rolling forward the System's total OPEB liability as of June 30, 2020 to June 30, 2021. The District's proportion of the net OPEB liability was calculated utilizing the employer's one-year reported covered payroll as it related to the total one-year reported covered payroll. At June 30, 2022, the District's proportion was .2995 percent, which was an increase of .0094 from its proportion measured as of June 30, 2021.

For the year ended June 30, 2022, the District recognized OPEB expense of \$500,000. At June 30, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

|   | Deferred Outflows<br>of Resources | Deferred Inflows<br>of Resources |
|---|-----------------------------------|----------------------------------|
| Difference between expected and actual experience               | 66,000                            |                                  |

| 2025                | 225,000 |
| 2026                | 183,000 |
| 2027                | 143,000 |
| Thereafter          | 123,000 |

**3. Actuarial Assumptions**

The Total OPEB Liability as of June 30, 2021, was determined by rolling forward the System's Total OPEB Liability as of June 30, 2020 to June 30, 2021 using the following actuarial assumptions, applied to all periods included in the measurement:

- Actuarial cost method - Entry Age Normal - level % of pay.
- Investment return - 2.18% - S & P 20 Year Municipal Bond Rate
- Salary growth - Effective average of 4.50%, comprised of inflation of 2.50% and 2.00% for real wage growth and for merit or seniority increases.
- Premium Assistance reimbursement is capped at \$1,200 per year.
- Assumed Healthcare cost trends were applied to retirees with less than \$1,200 in premium assistance per year.
- Mortality rates were based on a blend of 50% PubT-2010 and 50% PubG-2010 Mortality Tables for males and females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2020 Mortality Improvement Scale.

Participation rate:

- Eligible retirees will elect to participate Pre age 65 at 50%
- Eligible retirees will elect to participate Post age 65 at 70%

The following assumptions were used to determine the contribution rate:

- The results of the actuarial valuation as of June 30, 2019 determined the employer contribution rate for fiscal year 2021.
- Cost Method: Amount necessary to assure solvency of Premium Assistance through the third fiscal year after the valuation date.
- Asset Valuation method: Market Value
- Participation rate: 63% of eligible retirees are assumed to elect premium assistance.
- Mortality Tables for males and females, adjusted to reflect PSERS experience and projected using a modified version of the MP-2015 Mortality Improvement Scale.

**NOTE 15 - POSTEMPLOYMENT BENEFITS PLAN (CONTINUED)**

Investments consist primarily of short term assets designed to protect the principal of the plan assets. The expected rate of return on OPEB plan investments was determined using the OPEB asset allocation policy and best estimates of geometric real rates of return for each asset class.

The OPEB plan's policy in regard to the allocation of invested plan assets is established and may be amended by the Board. Under the program, as defined in the retirement code employer contribution rates for Premium Assistance are established to provide reserves in the Health Insurance Account that are sufficient for the payment of Premium Assistance benefits for each succeeding year.

| <u>OPEB -<br/>Asset Class</u> | <u>Target<br/>Allocation</u> | <u>Long-Term<br/>Expected Real<br/>Rate of Return</u> |
|-------------------------------|------------------------------|---|
| Cash                          | 79.8%                        | 0.10%   |
| US Core Fixed Income          | 17.5%                        | 0.70%   |
| Non-US Developed Fixed        | 2.7%                         | -0.30%  |
|                               | <u>100.0%</u>                |   |

The above was the Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2021.

**Discount Rate**

The discount rate used to measure the Total OPEB Liability was 2.18%. Under the plan's funding policy, contributions are structured for short term funding of Premium Assistance. The funding policy sets contribution rates necessary to assure solvency of Premium Assistance through the third fiscal year after the actuarial valuation date. The Premium Assistance account is funded to establish reserves that are sufficient for the payment of Premium Assistance benefits for each succeeding year. Due to the short term funding policy, OPEB plan's fiduciary net position was not projected to be sufficient to meet projected future benefits payments, therefore the plan is considered a "pay-as-you-go" plan. A discount rate of 2.18% which represents the S & P 20 year Municipal Bond Rate at June 30, 2021, was applied to all projected benefit payments to measure the total OPEB liability.

**Sensitivity of the System Net OPEB Liability to Change in Healthcare Cost Trend Rates**

Healthcare cost trends were applied to retirees receiving less than \$1,200 in annual Premium Assistance. As of June 30, 2021, retirees Premium Assistance benefits are not subject to future healthcare cost increases. The annual Premium Assistance reimbursement for qualifying retirees is capped at a maximum of \$1,200. As of June 30, 2021, 93,392 retirees were receiving the maximum amount allowed of \$1,200 per year. As of June 30, 2021, 611 members were receiving less than the maximum amount allowed of \$1,200 per year. The actual number of retirees receiving less than the \$1,200 per year cap is a small percentage of the total population and has a minimal impact on Healthcare Cost Trends as depicted below.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE  
AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN  
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Board of Education  
Central York School District  
York, Pennsylvania

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Central York School District, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the School's basic financial statements and have issued our report thereon dated January 3, 2023.

**Internal Control Over Financial Reporting**

In planning and performing our audit, we considered Central York School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Central York School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Central York School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Board of Education  
Central York School District

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Central York School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under Government Auditing Standards.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

Board of Education  
Central York School District  
York, Pennsylvania

**Report on Compliance for Each Major Federal Program**

We have audited Central York School District's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Central York School District's major federal programs for the year ended June 30, 2022. Central York School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Central York School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022.

**Basis for Opinion on Each Major Federal Program**

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Central York School District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Central York School District's compliance requirements referred to above.

**Responsibilities of Management for Compliance**

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Central York School District's federal programs.

**Auditor's Responsibilities for the Audit of Compliance**

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Central York School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered

material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Central York School District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Central York School District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Central York School District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Central York School District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weakness in internal control over compliance that we identified during the audit.

### **Report on Internal Control over Compliance**

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**CENTRAL YORK SCHOOL DISTRICT**  
**NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**  
**JUNE 30, 2022**

**NOTE 1 - ORGANIZATION AND SCOPE**

Central York School District, York County, Pennsylvania operates a high school, a middle school and five elementary schools.

The district received federal funds to operate the programs for the benefit of some of the students as detailed on the Schedule of Expenditures of Federal Awards, which covers the period from July 1, 2021 to June 30, 2022.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The District reports federal programs in its general purpose financial statements and on the Schedule of Expenditures of Federal Awards on the accrual basis.

**NOTE 3 - REPORTING ENTITY**

The Central York School District Board is the basic level of government which has oversight responsibility and control over all activities related to the public school education in the Central York School District. The District receives funding from local, state and federal government sources and must comply with their accompanying requirements. However, the Board is not included in any other governmental "reporting entity" as defined by the GASB pronouncement, since Board members are elected by the public and have decision-making authority, the authority to levy taxes, the power to designate management, the ability to significantly influence operations and primary accountability for fiscal matters.

The reporting entity for Central York School District consists only of those funds, functions, and activities controlled by the School Board and required or allowed by State laws and regulations.

The financial statement of the School District includes all funds and activities that are controlled by or dependent on the School District. Control or dependence is determined on the basis of budget adoption, taxing authority, and funding and appointment of advisors.

Re: Management Letter

Board of Education:

We have completed our audit of Central York School District for the year ended June 30, 2022.

We have audited the accompanying basic financial statements of the Central York School District as of and for the year ended June 30, 2022. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. We have issued our audit report in accordance with the above standards stating that the basic financial statements present fairly, in all material respects, the financial position of the Central York School District.

In planning and performing our audit, we considered Central York School District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the basic financial statements, but not for the purpose of expressing an opinion on the effectiveness of Central York School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Central York School District's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses as defined above.

We have also audited the compliance of Central York School District with the types of compliance requirements described in the Uniform Guidance that are applicable to each of its major federal programs for the year ended June 30, 2022.

We did not have any findings or questioned costs for the year ended June 30, 2022.

We would like to take this opportunity to thank Brent Kessler, Kim Ansell and their staff for the cooperation and assistance we received during the course of our audit.
