

Senior Device Return with Option to Purchase

This document contains Senior device return dates for both On Site and MVA students, as well as information for those wishing to purchase their MPS:1 Device.

All seniors, including those who qualify for device ownership, must return their device. We will begin billing for devices not returned on Monday, May 30th.

When/Where do SENIORS return their device?

Seniors attending class on site will **TURN IN** their device at their High School. Please don't forget the charger! The last day for device returns:

Westmoore - Wednesday, May 15th (Office Hours 8:00-11:20)

Southmoore - Thursday, May 16th (Office Hours 8:00-9:00 & 11:45-12:45)

Moore - Friday, May 17th (Office Hours 8:00-11:20)

Client Tech office hours are listed for those who no longer need their device and wish to return it before the deadline.

You may return your device earlier if you have confirmed it is no longer needed for testing. Early device return will need to be done during the Client Techs normal office hours.

Any device not turned in by May 21st must be brought to the MPS Technology Center to avoid being invoiced for a missing device.

Seniors attending class through Moore Virtual Academy (MVA) will **TURN IN** their device to the MPS Technology Center. The deadline for device return is Friday, **May 24th**. Please don't forget the charger! You are welcome to return the device before the deadline. See the close of this document for location and office hours.

Will I have access to my email/documents after I leave MPS?

You do NOT retain an MPS account, and it will be disabled upon leaving the district. Please make sure you have a personal account to transfer away from MPS email and other accounts attached to moorestudents.com. All devices will be set to factory settings. **It is the student's responsibility to make sure they have transferred all personal material BEFORE turning the device over to the Client Tech.**

Do I qualify for device ownership?

To qualify for device ownership, you must purchase the Device Protection Plan (DPP) for school years 2020-2021, 2021-2022, 2022-2023, and 2023-2024 (4 years total). If you have not purchased the plan all four years, you can still qualify by making up the years missed.

If I qualify for device ownership, do I still need to turn in my device at the end of the year?

Yes, you still need to turn in your device on the dates given earlier in this document.

Returning the device is necessary to allow the technology department to complete the transfer of ownership. This process includes removing all MPS information and setting the device back to factory settings.

Please note, the device is still property of Moore Public Schools until the transfer of ownership has been completed.

Your device will be ready for pick up on/after June 17th at the MPS Technology Center.

How Do I Purchase Current and/or Previous years DPP?

You may purchase the **current year DPP (2023-2024)** online at MyPaymentsPlus, in person at the MPS Technology Center, or over the phone by calling 405-735-4024. The cost of the current year DPP will be based on current lunch eligibility.

Previous years DPP purchases (2020-2021, 2021-2022, 2022-2023) must be made in person at the MPS Technology Center, or over the phone by calling 405-735-4024. The cost for previous years DPP has a set amount of \$50 per year(s) regardless of lunch eligibility.

What is the deadline to purchase the Device Protection Plan?

The last day to purchase the Device Protection Plan is May 10th, 2024.

If you have any questions concerning items discussed in the document, please contact MPS Technology Center.

MPS Technology Center Telephone: 405-735-4024
