We are committed to keeping Personal Data accurate, up-to-date, safe, secure and will not keep Personal Data longer than necessary. This privacy notice explains how we use the Personal Data of parents, students, employees, alumni and the extended ISBerne community, who we share it with and the ways in which we protect and account for the protections to privacy. This notice applies to all Personal Data collected for and on behalf of the School. This pertains to information collected in analogue (forms, documents, in writing) and through technological means such as information systems and email. For these purposes, ISBerne acts as data controller which means it determines how an individual's Personal Data is processed and for what purposes.

From time to time, we will make you aware when we require additional Personal Data for processing through a separate specific privacy notice.

ISBerne parents, students, employees, alumni and the extended ISBerne community are all encouraged to read this Privacy Notice and understand ISBerne's obligations regarding data protection to its community.

ISBerne reserves the right to amend this privacy notice. In such case the 'last updated' date at the bottom of this page will be amended accordingly.

1. HOW WE USE PERSONAL DATA

The School collects Personal Data and sensitive categories of Personal Data of students, parents, employees and alumni to provide a safe and caring international environment for teaching, learning and general educational purposes. - to provide a safe learning environment
- to comply with child protection requirements
- to support and enable the academic, pastoral and personal objectives of children, including the monitoring and reporting of progress
- to provide support and care for emotional and psychological wellbeing (pastoral and counselling)

- to protect the health of the students and employees we serve
- to provide a tailored learning environment and make evidence based education decisions for the children we serve
- to enable students to take part in standardised or external assessments
- to enable the children we serve to continue or progress their education at other educational organisations
- to monitor (where appropriate) the responsible and safe use of IT and communication systems
- to support and develop our employees in the performance of their duties
- for financial planning to help in the future planning and resource investment purposes
- to meet our statutory reporting requirements to the education and other authorities
- to help investigate any concerns or complaints you may have
- to ensure campus security including video surveillance and monitoring of campus entry and exit
- to make you aware of services, information, news, events and activities that are undertaken at or in association with ISBerne
- to maintain relationships with alumni and the extended ISBerne community including direct marketing or fund-raising activities
- to respond to requests from former employees, parents and students for information related to their time at ISBerne.

2. BASIS ON WHICH ISBERNE PROCESSES PERSONAL DATA

We process Personal Data to carry out the education services as prescribed above. We do so under the lawful basis that the processing is necessary for the performance of a contract in which you are entering or have entered into. In some circumstances, we may have to process data for other purposes that are not necessary for the performance of the contract. Where this is the case, we will either have legitimate interest to do so, need to as there is a legal requirement, we have your consent, or because it is in the vital interests of the individual for us to process or share information.

3. CATEGORIES OF PERSONAL DATA PROCESSED

Categories of personal data processed by ISBerne

- personal data (such as name, unique number, address, telephone contacts and e-mail address as well as employment information including employer, position and work contacts)
- special categories of data (such as health and nationality) (see below)
- other relevant categories for the performance of our services (such as assessment, relevant medical information, languages spoken, special educational needs information, exclusions / behavioural information and psychological reports and assessments)
- attendance information (such as lessons attended, number of absences and absence reasons)
- logging and audit in the use of IT systems and education technology apps, applications and cloud based systems
- photographs and videos (see below).

Special Categories of Data

The education services we provide require us to collect and process special categories of data for the purposes of safeguarding, the protection of vulnerable children, and well-being of those within our care. We do not disclose or share special categories of data without explicit and unambiguous consent unless we have to do so where we are required to by law, or where we have good reason in protecting the vital interests of an individual, or where not doing so would place someone else at risk.

Special categories of data such as nationality or health may be used from time to time in forecasting and planning for education service provision. Where used in this way, the data will be anonymised.

Photographs and Videos

Photographs and videos are a key media through which to record and celebrate everyday life at ISBerne to the parents, students, employees, alumni, the extended ISBerne community, prospective families and the general public. ISBerne uses such media for promotional purposes, including but not limited to: the ISBerne website, printed publications, electronic newsletters and ISBerne social media. Photographs and video are also generated for educational purposes (records of lessons, class blogs, student led projects, field trips, sports, events, staff professional development) by faculty and students and play an important role in the delivery of our teaching and learning programme.

As members of the ISBerne community, parents, students, employees and alumni may be photographed or filmed and these photographs or film used for promotional or educational purposes. Please be aware that if an image of yourself

or your child should appear on the ISBerne website, you may request to have it removed. It will be removed at the earliest possible opportunity and no more than 3 business days.

Photographs or videos used for promotional purposes will not identify individuals by their full name. If individuals are identified by name then this will only be done with prior consent.

Publications intended for the ISBerne community including the e-newsletter, 'It's Friday!' and the yearbook, may identify parents, students, employees, alumni and members of the extended ISBerne community either directly or indirectly depending on context. These publications are primarily accessible only to members of the ISBerne community, but do have potential to be shared outside the community.

4. PARTICIPATING IN OUR COMMUNITY

We are keen to ensure all individuals associated with ISBerne can participate in the community. To do so we will use the Personal Data you have provided to make you aware of services, information, news, events and activities that are undertaken at or in association with the School and do so under the lawful basis of legitimate interests. 8. STORING PERSONAL DATA

We keep Personal Data for as long as is reasonable given the requirement of our staff and students to request historic information pertaining to their time at ISBerne. We do so as it would be accepted that a school would hold data on the achievements and experiences of the child for the purposes of their benefit in later life should they need access to that information.

9. SECURITY

Feldeggweg 1
CH- 3003 Bern
Switzerland

**) Children are at a greater risk of dehydration than adults. This is because in relation to their size, children have a larger proportion of their skin available to lose sweat and be exposed to heat. Additionally, children don't always recognize that they are thirsty, and if they are not encouraged and reminded may forget to drink. The amount your child needs will vary depending on their age, size, and level of activity. For children under 8 years of age, at least 4-6 glasses of water are recommended. For children older than 8 years of age a minimum of 6-8 glasses is recommended. If your child is playing sports or is very active, they will need extra fluid.*
