

APPR Summary for 2020-21 Staff Evaluation Score and Rating Distribution and Data Submission

This summary of your approved 2020-21 APPR plan should be used as a resource when calculating scores and ratings for teachers and principals and when submitting staff evaluation data to the Department for the October 22, 2021 staff evaluation data submission deadline.

The APPR summary is broken up according to the type of scores and ratings needed for a group of educators and is divided into two columns – required subcomponent and optional subcomponent. Each section outlines the evaluation components that should be submitted to the Department, as well as the basis of the scores and ratings. Sections are organized by the measures/evidence/assessments indicated in the APPR plan, variance, and/or supplemental form.

Important to note: ALL educators should have only ONE SET of scores and ratings.

APPR Plans Approved under Education Law §3012-d (prior to 1/1/2020)

Some evaluations will be based on the original measures/assessments included in Task 2/7 of the APPR plan.

These scores and ratings include those NOT based on State-provided growth scores and/or NYS grades 3-8 ELA/ math assessments, where applicable.

Teachers AND principals whose original measures/assessments indicated in Tasks 2/7 of an APPR plan utilize any of the following should have evaluations based on the Alternate SLOs* included in either Task 2/7 Transition of the approved plan or Supplemental Form for Alternate SLOs:

Individual State-provided growth scores

- grades 4-8 ELA/math teachers and most principals (those in buildings that contain any of the grades 4-8 and grades 9-12 principals)

Individual SLOs based on the NYS grades 3-8 ELA/math assessments

- grade 3 ELA/math teachers and some principals
- teachers with a small number of students that take the NYS grades 3-8 ELA/math assessments

School-, program-, district-, or BOCES-wide SLOs based on either a building State-provided growth score or the NYS grades 3-8 ELA/math assessments

- could include any teacher that does not teach only grades 3-8 or Regents courses or any principal of grades K, 1 and/or 2 only

* In most LEAs, only a subset of evaluations will be based on Alternate SLOs.

APPR Plans Approved under Education Law §3012-d, as amended in 2019 (after 1/1/2020)

All evaluations will be based on the measures/assessments included in Task 2/7 of the APPR plan.

These scores and ratings will include those based on NYS assessments, as applicable, per the approved plan.

APPR Variance or Supplemental Removal form approved in conjunction with an existing APPR plan*

Measures in the APPR plan should be replaced by any corresponding measures/evidence/assessments included in the approved variance or form.

* Applicable to plans approved under Education Law §3012-d and Education Law §3012-d, as amended in 2019

Accessing the APPR Summary

This APPR Summary is posted in the IRS Portal (IRSP). Regional Information Centers have a copy of the APPR Summary for each district and BOCES in their area, which will assist in their ability to provide technical assistance throughout the staff evaluation data submission process.
