Final Reflections:

1. Was the outcome/goal of this Collegial Circle met? Explain.
We were able to read through the Smart & Good Report and talk through the SEL (CREE) Data for MCE as a group. We presented the concepts of the Smart & Good Report as well as CREE Data for MCE at a summer ILT meeting. We began to develop strategies for classroom use and presented them at ILT. We were unable to present to the entire faculty as well as implement strategies due to a lack of Collegial Circle hours. Additionally, we were unable to move forward with our ideas for sharing information with parents due to a lack of hours. We will apply for an extension of this Collegial Circle.
2. How did the Collegial Circle assess whether the outcome was met?
All participants read Smart & Good Report, presented a proposal to ILT and was well received by all members as well as administration.
3. How did your work impact teaching/learning? Include student work samples, lesson plans, peer reviews, etc.
Our work will follow up with MCE's SEL Committee to be implemented in classrooms. Data has been delivered to faculty and encouraged to be shared with MCE students. Strategies will need to be more developed and implemented through an extension of this Collegial Circle.
