## COLLEGIAL CIRCLE DESCRIPTION

### What was the anticipated goal(s) of this Collegial Circle?

The anticipated goal of this circle was to continue our work investigating the Algebra 2 CC standards, modules, PARCC standards. We will be incorporating the learning from Communities of Practice and AMTNYS.

### What grade level(s) and or subject area(s) will benefit from this Circle?

Algebra 2 CC classes – honors 10<sup>th</sup> grade and regular 11<sup>th</sup> grade

## FINAL REFLECTIONS

### Was the goal of your Collegial Circle met? Please explain.

In our allotted 12 hours, we have worked diligently at creating materials for instruction. The task of working through all the topics/standards of these new courses is daunting. We will need continued time together to continue working through all the new standards.

### How did the members of this Collegial Circle assess whether the outcome was met? What evidence was utilized to assess your progress?

We assessed based on the ability to teach lessons aligned cross-district and with common core standards.

### How did your work impact teaching and learning? [include student work samples, lesson plans, peer reviews, etc.]

The work that we do together as a collegial circle is used on a daily basis in our classrooms. Students benefit from our collaborative work across district.

### Did your work align with the Level of Evaluation you identified in your proposal? Please explain. [Refer to the document, *5 Levels of Professional Development Evaluation*, on the TC webpage.

Yes. We were able to fully implement the work that we did/prepared.

### Please include any additional comments you would like to share with the Collegial Circle Committee. This may include unanticipated outcomes, next steps, new learning, etc.

As a group, we found this time together very beneficial and would like to continue this circle for the remainder of the school year.
