

# Collegial Circle Final Report

## COLLEGIAL CIRCLE INFORMATION

Title of Circle: **Analyzing Student Engagement in Physical Education** Standards Area: **Physical Education**

Facilitator: **Fred Ricci** School(s): **Mendon**

Beginning Date: **1/4/** Ending Date: **2/9** # of Hours: **7**

Participants (list): **Kerri Thompson, Heidi Rassmussen, Craig Northrup, Brian Tripp**

Please attach copies of the following to this report:

- ✓ Collegial Circle Attendance Log (required for payment)
- ✓ Collegial Circle Meeting Log
- ✓ Log of Strategies Implemented
- ✓ Samples of implementation strategies or student work samples if applicable
- ✓ Collegial Circle Reflection Sheets (each member fills one out)

## COLLEGIAL CIRCLE DESCRIPTION

(Type your answer in the grey box below the question. The size of the box will adjust to the length of your answer.)

### What were the anticipated objectives of this Circle?

First, our department wanted to develop a tool that could assess the level of student engagement in Physical Education. We wanted to create a survey that can gauge student interest in our instructional practices. This survey will need to contain meaningful and relevant questions that will provide significant actionable student responses. In order to develop these questions we will be collecting information from students, colleagues and information provided by Charlotte Danielson's rubric of student engagement.

Second, after the survey has been administered, we would like to analyze the data and match it against what we current offer our students. The hope is that this process will allow our department to create a more relevant learning experience based on our student's needs and interests.

### What grade level(s) and or subject area(s) would benefit from this Circle?

High School Physical Education Students and Teachers

## FINAL REFLECTIONS

(Type your answer in the grey box below the question.)

### Was the outcome/goal of this Collegial Circle met? Explain.

Yes. A survey based on information collected from Charlotte Danielson rubric of student engagement was developed. This survey was then administered and it's outcomes were analyzed. Instructional action items were created based on the data.

### How did the Collegial Circle assess whether the outcome was met?

Our group knew the Collegial Circle outcomes were met through the data produced by the survey. ( see attached)

### How did your work impact teaching/learning? Include student work samples, lesson plans, peer reviews, etc.

The survey data allowed us to construct an instructional action plan for our students. (See attached)

### Comments/additional information to share.
