

# EVACUATION

**EVACUATION** is implemented when conditions make it unsafe to remain in the building. This action provides for the orderly movement of students and staff along prescribed routes from inside school buildings to a designated outside area of safety.

**EVACUATION** is considered appropriate for, but is not limited to, the following types of emergencies:

- Bomb threat
- Chemical accident
- Explosion or threat of explosion
- Fire
- Earthquake

In the event of an explosion, earthquake, or other event causing falling debris, **EVACUATION** will be preceded by a “**DROP, COVER, and HOLD ON**” protocol. Students and staff should drop to the floor, duck under a desk or table, cover the head with arms and hands, and hold onto furniture.

## **THINK ON YOUR FEET: LOOK, LISTEN, AND LEAVE - FIRE ALARM**

Before evacuation, take a moment to look outside the door for any potential dangers. Listen for anything unusual that might pose a safety risk. Once it's determined the path is safe, evacuate the office or classroom to a designated safe area.

### **EVACUATION:**

- Requires exit from the building to a designated safe site, on-campus or off-site
- May require that students and staff rely on district bus transportation
- May require staff to exit via alternate routes based on circumstances
- Requires that students remain with assigned teachers unless circumstances prohibit it
- Requires that staff and students assist those with special needs to ensure for safe egress of all

# EVACUATION

## **EVACUATION ROUTES:**

Take care in choosing a designated evacuation area. Consider whether there is a clear route to the area from all parts of the campus, and whether it is far enough away in the case of a fire or gas leak, but close enough to be reached on foot. Consider also having multiple designated evacuation areas in the event one is obstructed or otherwise becomes unsafe during an emergency. Make sure there is a clear, unblocked path onto campus for emergency vehicles. Be sure to include evacuation to designated area(s) as part of drills and training.
