### What is redlining?

Color-coded maps ranking the “loan worthiness” of neighborhoods in more than 200 cities and towns across the United States.

- A- Green
  - Best
- B- Blue
  - Good
- C- Yellow
  - Declining
- D- Red
  - Hazardous

The federal government deemed “D” areas as places where property values were most likely to go down and the areas were marked in red — a sign that these neighborhoods were not worthy of inclusion in homeownership and lending programs.

Not coincidentally, most of the “D” areas were neighborhoods where Black residents lived
