

# Race & Science: Final Analysis

**PART 1:** Silently walk around and observe the GIST statements printed out. Write brief notes for each statement.

POSTER	TIME PERIOD	NOTES
<b>Reading #1 Gist 1</b> <i>Who is Human?</i>		
<b>Reading #1 Gist 2</b> <i>Who is Human?</i>		
<b>Reading #2 Gist 1</b> <i>We the People in the United States</i>		
<b>Reading #2 Gist 1</b> <i>We the People in the United States</i>		
<b>Reading #3 Gist 1</b> <i>Inventing Black and White</i>		
<b>Reading #3 Gist 2</b> <i>Inventing Black and White</i>		
<b>Reading #4 Gist 1</b> <i>The Science of Race</i>		
<b>Reading #4 Gist 2</b> <i>The Science of Race</i>		

**PART 2:** Analyze your notes on all of the readings. Notice the time period and what was said to answer the following questions.

1. How did the concept of race develop? Explain the different points in time where it shifted.

2. Why do you think the concept of race shifted?

**PART 3:** This portion is all OPINION. Use the Proposition and Support (blue) section of the green flipbook to formulate your paragraph.

3. How can society's current perception of race be shifted (ie: black vs. white vs. brown)? Use real life examples in your explanation.
