Topic: 7	4	Primo Tapia De La Cruz and other native trascan's faced many hardships. They were the victims of land enroachment from large landowners who would take the native land and sell it off. During this time in Mexico there was also an issue of widespread poverty and inequality because it was run under a dictatorship. He also faced racism and discrimination being a migrant laborer.			
Topic: 12	4	Assata Shakur is a symbol of the strenuous fight for equality and civil rights. Her wrongful conviction also showed people just how unrighteous the "justice" system can be. She is a very inspiring woman to many because despite all the hardships she faced she continued to perservere and continued to stand by her own morals and to contribute to social reform.

Topic 6

Dear Major Taylor,

Let me start of this letter by saying how inspiring you are to me personally as an athlete. You continuing to perservere as a Black man and activist during a time like the late 1800's through a sport is truly amazing because I know that I simply cannot handle hate from my oposing teams in softball and volleyball, and you handled so much more at a higher level. The racial slurs from white competators and banned competitions is unfathomable, yet you still managed to deal with all of that and become very sucessful. Using your platform as a talented cyclist to help empower fellow margenlized communities and speak up against racism is very brave given the fact you were already reciving so much hate. You really paved the way for younger generations to fight for your causes such as integration in sports. I don't think you could have done any better!
