SMHS Library

What is NoodleTools?

NoodleTools is a great way to save multiple projects/assignments, compile information, and create a works cited page in MLA or APA format.

The screenshot displays the NoodleTools web application interface. At the top, there is a navigation bar with tabs for 'Projects', 'Dashboard', 'Bibliography', 'Notecards', and 'Paper'. Below this, a user greeting 'Welcome, anongers' is visible along with links for 'Sign Out', 'My Account', and 'Help'. The main section is titled 'My Projects' and includes a 'Create a New Project' button. It features a table of projects with columns for Description, Style, Level, Entries, Notes, Created (PST), Modified (PST), and Shared?.

Below the table, there are buttons for 'Copy', 'Merge', 'Delete', 'Archive', and 'Unarchive', along with a 'Recover a deleted project' link. The bottom section is titled 'Projects Shared with Me' and includes a 'Sharing Setup' button. It shows a table of shared projects with columns for Drop Box, Description, Status, Style, Level, Entries, Notes, Created (PST), Modified (PST), and Shared By.
