Maintains and Enhances Programs and Services

The 2023-24 budget maintains all instructional programs for students, enhances mental health services and reflects a large decrease in the District's debt service related to capital project financing. Decisions were guided by the Board of Education's Budget Guidelines which are student-based. provide high-quality professional learning, and are sensitive to limited resources and maintaining fiscal stability into the future.

The proposed budget continues the work of the current year with a focus on student needs and support services addressing learning gaps, and upgrades in safety and security. The District continues to invest funds in technology and has completed the 1:1 device initiative which allows every student to have access to a laptop/iPad. An increase in enrollment for BOCES programs, including career and technical education, is also factored into the budget.

Inflationary pressure has impacted the budget for supplies, materials and contractual expenses, such as utilities and fuel. The labor shortage continues to impact transportation which has resulted in higher expenses for contract transportation. A long-range financial plan has been created to guide future decisions in light of the uncertain economic environment.

Tax Levy Increase of .08% is Lowest Since Tax Cap Inception

The Property Tax Cap for PCSD is .08% as calculated by the New York State Property Tax Levy Cap Formula. While commonly referred to as the "2% Tax Cap," (because the law limits one factor of a complex formula to 2% or the rate of inflation, whichever is less) the maximum Tax Levy Limit may be higher or lower than 2% depending on each school District's allowable formula adjustments and exemptions.

NYS Foundation Aid Funded after Many Years of Advocacy

Until the 2021-22 fiscal year, New York State (NYS) has consistently underfunded NYS schools' general operating aid known as "Foundation Aid." Each year the formula and actual aid paid became increasingly inequitable. In 2022-23, an effort was made to finally provide school districts with the remaining balance of what was owed in Foundation Aid. After a decade of advocacy by the Pittsford Board of Education, the District expects to be paid the full amount of Foundation Aid under the formula that was legislatively approved in 2007. The District has budgeted a Foundation Aid increase of \$4.8 million and has outlined a plan on how this additional state funding will be spent based on the requirement set forth by legislation. The spending plan is available for review on the District's website (pittsfordschools.org) and has been reviewed with the District Planning Team.

Contingent Budget

Per NYS law. school boards can submit a budget to the voters a maximum of two times, then a "Contingent Budget" must be implemented. If the proposed budget is defeated once, the Board may conduct a revote or go straight to a Contingent Budget. NYS law requires that a Contingent Budget not include certain non-ordinary contingent expenses AND that the new budget must have a Tax Levy that is not greater than the previous year's Tax Levy. The Board of Education is charged with determining a Contingent Budget. A Contingent Budget would result in a reduction of over \$1.1 million in budget support, resulting in a potential reduction in programs and services.

☑ Propositions

Proposition 1: Capital Reserve Fund - Purchase of Buses

Authorization to withdraw from the "Capital Reserve Fund - Purchase of Buses" (savings account) a sum of money not to exceed \$1,794,696 to be used for the purchase of twelve replacement buses, two replacement vehicles and communications equipment used in the operation of such buses. Using reserves for this purchase will generate approximately \$1.2 million in State Aid. This is the last year that this reserve can be used which has necessitated the need for Proposition 2 below.

Propositions will NOT result in additional taxes or issuance of debt

Proposition 2: Capital Reserve Fund -Transportation Vehicles

Authorization to establish a "Transportation Vehicles Reserve Fund" (savings account) for the purpose of financing the purchase of school buses and vehicles by the District, with the ultimate amount of such reserve fund not exceeding \$50,000,000, including the transfer of the entire balance of the existing "Capital Reserve Fund - Purchase of Buses" approved by voters on May 19, 2015.

This reserve will also prepare for the purchase of electric buses which are expected to cost over \$500,000 per bus. The District is currently working on a three-year infrastructure plan to prepare the facilities for the implementation of new electric buses ahead of the state mandated schedule of 2027. Additional capital project improvements will be needed to fully convert the current bus fleet to all electric buses by 2035. That work would be paid from a separate reserve fund (savings account).

Proposition 3: Capital Reserve Fund -Swimming Facilities

Authorization to establish a "Swimming Facilities Reserve Fund" (savings account) for the purpose of financing of District swimming pools, including the acquisition and installation of machinery, equipment, apparatus or furnishings required for the purposes thereof, with the ultimate amount of such reserve fund not exceeding \$40,000,000. This is part of the District's long-range facilities plan that was fully discussed during the recent capital project vote.

Proposed Budget Expenditures

2023-2024

State-required three-part budget

Current 2022-2023 Three-Part Budget

Proposed 2023-2024 Three-Part Budget

- Program
- Capital
- Administrative

of budget
