

Maintenance of Effort Procedures

Originally Approved by OSC June 2, 2010
Revised, OSC, March 22, 2013
Revised, OSC February 26, 2016

Secondary Education Act (ESEA) of 1965. This amount includes any activities under Title 1, Impact Aid, and other ESEA programs.

- The amount of funds expended by an LEA for early intervening services under 34 CFR, section 300.226 shall count toward the maximum amount of expenditures that the LEA may reduce under this section.

Section 3 – Four MOE Test Methods to Maintain Effort

Either local or state and local funding sources are used for comparison at the SELPA level as well as for each individual LEA. In addition, the comparison may be per capita (per child with a disability, unless some other basis is permitted by the SEA for determining “per capita”). The four (4) methods to maintain effort are:

1. The combination of state and local funds.
2. Local funds only.
3. The combination of state and local funds on a per capita basis.
4. Local funds only on a per capita basis.

Consequences for Failure to Maintain Effort

If the SELPA as a whole fails the second comparison test (actual vs. actual) after applying the exceptions, the SELPA will be billed by the CDE for the amount the SELPA, collectively, failed to spend from local or state and local funds to maintain its level of effort. The SELPA AU will then bill the individual LEA sub-grant recipients that failed the MOE second comparison test for the amount the LEA(s) failed to spend from local or state and local funds to maintain their level of effort.

If the SELPA as a whole passes the second comparison (actual vs. actual) but one or more individual LEA sub-grant recipients fail to spend from local or state and local funds to maintain their level of effort, CDE will bill the SELPA for the amount that the LEA failed to spend from local or state and local funds to maintain its level of effort. The amount must be paid to CDE by the LEA from its state and/or local funding in the budget year.

When an LEA fails to meet the MOE test in one year, the LEA is required in subsequent fiscal years to maintain effort at the level prior to the failure. Thus, the LEA must calculate its level of effort on the most recent fiscal year in which the MOE test was met.

For the purposes of maintenance of effort, the SELPA AU is the recipient of the federal funds from CDE and is, in turn, a grantor of all or part of those funds as sub-grants to participating LEAs.
