Better Data. Better Decisions. Better Schools.

Introduction

Educational Effectiveness Survey, Family edition

While there is no single solution for all schools, research on effective schools identified common characteristics of high-performing schools known as the 9 Characteristics. Successful schools that are engaged in improvement activities focus on these characteristics of “organizational and educator capacity” to create and improve the system(s) that ultimately drive performance outcomes.

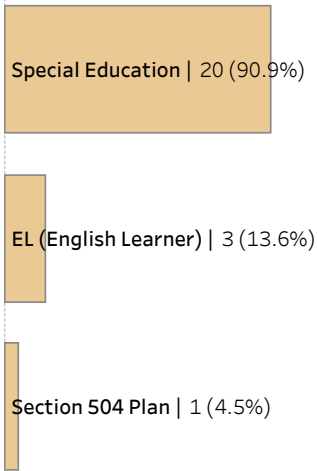

Note

The Characteristics, “Focused Professional Development” and “Curriculum, Instruction, and Assessment” are professional activities conducted amongst the adult school community and are rarely viewed by parents. Thus questions regarding these Characteristics are not a part of the survey and does not appear in this report.

CEE’s primary concern is that this report be useful and informative in stimulating conversation. If you require any additional assistance in using your report, please contact us at info@effectiveness.org.
