

A Regular Meeting of the Board of Education, Seaford Union Free School District, was held on Thursday, September 10, 2009, in the All Purpose Room of the Seaford Manor School, 1590 Washington Avenue, Seaford, New York.

PRESENT: Mr. Michael D. Sapraine - President  
Mr. Brian W. Fagan – Vice President  
Mr. John DelGiudice - Trustee  
Mr. Richard G. DiBlasio – Trustee  
Ms. Linda Hurley – Trustee

Mr. Thomas J. Markle  
Mr. Brian L. Conboy  
Mr. Kenney W. Aldrich  
Ms. Mary Anne Sadowski - Attorney

The Regular Meeting convened at 6:46 p.m. As the first order of business, Mr. Sapraine led the audience in the Pledge of Allegiance.

**OPEN MEETING**

Mr. Sapraine announced that there would be a presentation by BBS the district's architects on the Middle School's windows

**OPENING REMARKS**

Areas covered in BBS Architect's presentation on the Middle School's windows included:

**PRESENTATIONS AND/OR  
RECOGNITIONS**

- History and Packet of design process for the Middle School windows
- June 5th public board meeting discussion of color scheme for Middle school windows (terra cotta w/green tinted windows)
- Room ventilators and air conditioners factors in design; pattern created  
Window air conditioners needed to remain; accommodations would need to be made to enable air conditioners to be moved from classroom to classroom as needed
- Asked to make a change to building; glass to reflect environment
- Removal of "pigeon coop" off the Middle School library
- Correspondence between BBS and District
- OAT meeting where air conditioners were discussed and need for flexible solution
- June 2008 photo of south side of easterly façade with 5 air conditioners; September 2009 photo as exists today with 9 air conditions
- Shop drawing approval process in February – samples were submitted to the district; the district asked for additional information including seeing pictures of other buildings with terra cotta coloration, samples of window panels, framing and glass  
February 10 sent photos of terra cotta Centerport building; Triton obtained samples of windows and were reviewed by district  
March 27 meeting minutes indicating determination to move ahead with window scheme  
Question concerning timeline  
Larry Salvesson of BBS addressed concerns expressed over the color and in particular the air conditioning and ventilation panels and the request what potentially could be done  
Possible solutions including removal of everything and replacement with a different color which would be equal in cost to what has just been spent  
Cost estimates for other solution - Painting the entire system \$300,000 to over one million dollars

---

MIDDLE SCHOOL WINDOWS DISCUSSION (cont'd)

Do not have cost estimates for painting panels or replacing with a lighter color  
Removal of air conditioning panels and replace with half panel and half glass would cost \$102,000  
Air conditioners are a necessity - cost based on replacing every air conditioner  
Cost and need of air conditioners for June and September  
Possibility of painting air conditioners terra cotta so they would “disappear” into the panel  
Construction contingency a little over \$100,000  
Possible locations for signage on building; recommendation to place signage on stone just under the overhang

Questions raised by the Board concerned:

Ms. Hurley asked if there were air conditioners in every room  
Mr. DiGiudice asked if Mr. Salvesson was happy with the way the building turned out; color appears more orange; were windows done according to specifications  
What would it take to central air condition the front wing and library  
Mr. Fagan asked if ventilator panels be replaced with mock glass panels with a slot for the grills  
Grills on artist renderings are aluminum not terra cotta  
Mr. DiBlasio asked if the ventilator solid panels could be replaced with smoked glass with a cut-out for the grills.  
Not satisfied with the color; there are more solid panels than were indicated on the architectural drawings. Totally different look than pictured and would like to get rid of as many solid panels as possible in the front of the building. Would like a price of replacing air conditioning and ventilating panels with glass.  
Mr. Sapricono asked if there was anyone who didn't have a problem with the building  
Ms. Hurley stated it was new and different and to consider spending money on something that is brand new when the money could be spent on some things that are needed is premature.  
Wait and see how the community adjusts to building; add landscaping, outdoor improvements  
Mr. Sapricono stated everyone was pleased with the inside of the windows. People weren't happy with the Harbor in the beginning  
The High School windows have brushed aluminum trim.  
It was decided that the Board was not prepared to make any decision at this time. This matter would be discussed further at the next workshop where a decision could be made that the Board is satisfied with the way the Middle School looks or to move forward with investigating options for a change. Having BBS get estimates will cost money; perhaps a decision to request from the contractor the cost of 2 or 3 schemes  
It would be helpful to the discussion to have BBS at the meeting

Board President Michael Sapricono presented certificates to teachers who received tenure during the 2008/2009 school year. Assistant Superintendent Kenney Aldrich presented Mr. Alex Rabkevich who recently retired as a Security Aide, with a plaque. Mr. Sapricono introduced the new Assistant Principal at the Middle School, Mr. Scott Bersin.

**PRESENTATIONS AND/OR  
RECOGNITIONS**

The audience was then asked to join the Board for some refreshments and the meeting recessed.

**RECESS FOR  
REFRESHMENTS**
