June 7, 2023

Dear Seaford Families:

Today has certainly been an interesting day. Please know that we continue to monitor the atmospheric conditions. Currently, forecasts indicate that the air quality will remain poor tomorrow. We anticipate that schools will be opened. For students with respiratory concerns, families should make individual decisions in consultation with their health professionals. As we implemented today, there will be no outdoor activities until the air quality improves.

This situation is extremely unique for Long Island. Please be assured that the safety of our children, faculty and staff is of the utmost importance. We will continue to assess the environmental conditions and we will consult with health environmental authorities.

Sincerely,
Adele Pecora Ed.D
Superintendent
