Dear Seaford Families, Faculty and Staff,

We hope that you and your families are well. Throughout the pandemic, the District has provided the community with COVID case data. Instead of providing summative COVID information, daily data will be available on our new COVID Data Dashboard. Each day, the information will be posted reflecting the number of positive COVID cases from the prior day. All future COVID cases will be communicated through this Data Dashboard, which can be found here: [COVID Data Dashboard](#)

You will also find other COVID related information on this page as well, such as letters from the District, reopening plans and information from Nassau and Suffolk County Departments of Health. Please take a moment to become familiar with this webpage.

We are hopeful that the decrease in COVID cases will continue to decline. Thank you for your continued support.

Very truly yours,

Adele V. Pecora
