Fun, new experiences, and broader fields of knowledge are essentially a part of University High School. We hope we have captured glimpses of all these things in your Colonel Clan this year.

Remember the first day of school - the last time 7th graders would come to UHS - parades - the pep bus - the bonfire and snake dance - homecoming with all its excitement - the football banquet - the feature review when the "Who's Who" results were announced - drawing off pages for the annual - reading about the Senior Hall of Fame - freezing to death during the polio drive - feeling like a Barrymore in the plays - Youth Congress - the bus going to Jackson with the band - dancing on a cloud at the Sweetheart Ball - having laryngitis and a lark at the choral festivals - National Honor Society - speed test in typing -

# *Spirit, Mind, and Body*

meeting a deadline for the new paper - Student Council - labs of all types - bloodshot eyes during six week test - etc.

Seniors, this has been your last year at University High School. In only a few more days you will be given a diploma and the key to a door that opens into a mature world with unknown freedoms and responsibilities. New ideas and old traditions of UHS will be carried on by other generations, soon in a new school. High school will be only a memory. We join together in hoping other students of years to come will cherish the memory of these past six years of tears, joys, and dreams as much as you always will. This will be your last edition of the Colonel Clan, we hope you will cherish it -- it's yours.

Here is your annual! We, the annual staff, have had it for almost a year and now it is yours.

This record of the smiles, sorrows, and dreams of 1960-1961 is a memorial that we will treasure all of our lives.

The annual staff would like to express their sincere appreciation for the co-operation given us by each faculty member and each student.

We hope you will enjoy the 1961 Colonel Clan as much as we have enjoyed publishing it.

## *Director's Message*

In America today there are over 23,000 types of occupations. This gives each one of us great opportunities - opportunities that should challenge all of us. With this number of occupations it also makes us realize that there is a very important place for each one of us to fill. We in America have a country established on a principle that each individual is important - that each individual has an equal opportunity. This is true. However, you are the only person that can be sure that you take advantage of the heritage that we have.

After you have decided which one of these 23,000 occupations you will choose, give only your best toward reaching your goal.

I am very happy that of these 23,000 occupations mine is that of a teacher. You have helped to make my occupation, in my opinion, the best. I hope that this year has been one of University High School's better years. You are one of the finest groups in America (of course, I realize I am prejudiced).
