

**Shawnee Mission School District
Bid 24-013 – Food Service Equipment – Dishwashers
May 3, 2024**

Addendum No. 3

The following response addresses question(s) submitted by vendor(s) on May 2, 2024; responses to the questions are indicated in **bold**. If you feel that a question has not been addressed, please contact Reed Beebe at purchasing@smsd.org as soon as possible.

1. Does the District have a warehouse that would be able to receive all the machines in one shipment to then be delivered to each location? Or is delivery preferred to each individual school?

As listed in the ITB, delivery of the dishwasher to its respective school is required. Although the District does have a warehouse, current staffing, storage capacity, and workflow make delivery to a single warehouse impractical.

CLARIFICATION OF HOBART INSTALLATION REQUIREMENT:

The ITB and Addendum No. 2 listed a desire that Hobart brand dishwashers be installed by Hobart. Upon further consideration, the District will allow vendors to submit bids that do not utilize Hobart for installation services. However, vendors' pricing should reflect the cost to make any needed adjustments and final connections to the venting/existing hoods and to existing tables – especially where dish machines are being downsized; the vendor is responsible for determining such adjustments and related costs. If Hobart is not being used for installation, vendors should note this, and provide information regarding the proposed installation process (which firm would do the installation, etc.) for the District's consideration. If the District determines that a vendor's bid did not adequately address needed installation work and related costs, the District, at its sole discretion, may reject the bid.

End of Addendum No. 3
