Board of School Directors Harrisburg City School District

We have performed the Single Audit of the Harrisburg City School District for the year ended June 30, 2012, and will submit the audit report electronically to the Federal Clearinghouse.

The Single Audit was done to fulfill the requirements of the Office of Management and Budget's (OMB) Circular A-133. The audit included an examination of the systems of control, systems established to ensure compliance with laws and regulations affecting the expenditures of federal funds, financial transactions and accounts and financial statements and report of the District.

A Memorandum of Advisory Comments letter was prepared as a result of this audit and was issued separately.

INDEPENDENT AUDITORS' REPORT

Board of School Directors Harrisburg City School District

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Harrisburg City School District (the District), Harrisburg, Pennsylvania, as of, and for the year ended, June 30, 2012, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Harrisburg City School District as of June 30, 2012, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 21, 2012, on our consideration of Harrisburg City School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

INDEPENDENT AUDITORS' REPORT - continued

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 8 through 20 and 70 through 71 and 76 through 77 be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Harrisburg City School District, Harrisburg, Pennsylvania financial statements as a whole. The combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is also not a required part of the financial statements. The combining and individual nonmajor fund financial statement and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Members of the Board of School Directors Harrisburg School District

This section of the Harrisburg School District's annual financial report provides a discussion and analysis of the District's financial performance during the fiscal year ending June 30, 2012. This discussion and analysis should be read in conjunction with the District's accompanying financial statements, which immediately follow this section.

Background

Based on the volume of the Harrisburg School District's annual expenditures, the District's financial statements are required to meet the GASB 34 Accounting Standards. Where previous standards (pre GASB 34) required modified accrual (no receivables/accruals beyond 60 days), no capital asset depreciation and no reports of combined net assets, GASB 34 requires fixed asset accounting, properly combining of multiple funds and the realization of the depreciation expense as part of the Statement of Net Assets and Statement of Activities.

Financial Highlights

- Total net assets (deficiency) of \$(43,298,654).
- The total fund balance of all governmental funds equaled positive \$19,843,973.
- Unassigned general fund balance equaled positive \$9,501,344.
 - ➤ Total actual general fund revenues were over the final budget by \$3,971,067 or 3.35%.
 - ➤ Total actual general fund expenditures were under the final budget by \$4,923,223 or 4.50%.
- The total governmental activities operating grants and contributions amounted to \$21,569,014 or 17.4% of the governmental activities expenditures.
- The net assets (deficit) of business-type activities Food Services Ëat June 30, 2012, totaled \$(1,360,095) with Revenues of \$5,426,778 and expenditures of \$5,561,731.
- The total capital assets, net of accumulated depreciation, for government activities primarily general fund, capital project funds and capital reserve fund totaled \$196,744,864.

Overview of the Financial Statements

This annual report consists of three parts: management's discussion and analysis (this section), the basic financial statements and required supplementary information. The basic financial statements include two kinds of statements which present different views of the District. The first two statements are District-Wide Financial Statements that provide both short-term and long-term information about the District's overall financial status. The remaining statements are fund financial statements that focus on individual parts of the District, reporting the District's operations in more detail than the District-Wide statements. The governmental funds statements indicate how basic services such as regular and special education were financed in the short-term as well as indicate future spending plans. Proprietary fund statements offer short- and long-term financial information about the activities the District operated like a business, such as the food service operation. Fiduciary funds statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others, such as student activity funds or scholarship funds.

The financial statements also include notes that explain information in the statements as well as provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the District's budget for the year. Figure A-1 shows how the various parts of this annual report are arranged and related to one another.

District-wide Statements

The District-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Assets includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid.

The two District-wide statements report the District's net assets and how they have changed. Net assets - the difference between the District's assets and liabilities - are one way of measuring the District's financial health or position. Over time, increases or decreases in the District's net assets are an indicator of whether its financial position is improving or deteriorating. To assess the District's overall health, consideration needs to be given to additional non-financial factors, such as changes in the District's property tax base and the condition or need for improvements or expansion to existing school facilities.

In the District-wide financial statements, the District's activities are divided into two categories as follows:

- Governmental Activities: Most of the District's basic services are included here, such as regular and special education, maintenance and operation of plant services, transportation services and administrative services. Property taxes, along with state aid formula, finance most of these activities.
- **Business-type Activities:** The District charges fees to cover the cost of certain services such as the Food Service program.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds. These statements focus on the District's most significant or "major" funds - not the District as a whole. Funds are accounting components that the District uses to keep track of specific sources of funding and spending on particular programs. Some funds are required by state law and by bond covenants. The District may establish other funds to control and manage money for particular purposes, such as repaying its long-term debts.

The District has three types of funds as follows:

Governmental Funds: Most of the District's basic services are included in Governmental Funds, which generally focus on (1) how cash and other financial assets can readily be converted into cash inflows and outflows and (2) balances left at year-end that are available for spending. Consequently, the Governmental Funds statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the District-wide statements, additional information at the bottom of the Governmental Funds statements explains the relationship (or differences) between them.

Proprietary Funds: Services for which the District charges a fee are generally reported in Proprietary Funds. Proprietary Funds are reported in the same way as the District-wide financial statements. The District's Enterprise Fund (one type of proprietary fund) is the same as Business-Type Activities but provides more detail and additional information, such as cash flows. The District currently has one Enterprise Fund, the Food Service Fund.

Fiduciary Funds: The District is the trustee, or fiduciary, for assets that belong to others, such as Scholarship Funds or Student Activity Funds. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities for the District-wide financial statements because it cannot use these assets to finance its operations.

The net asset (deficiency) decreased by \$1,839,927 in the fiscal year. Issues that significantly affect the net assets decrease in fiscal year 2011-2012 were the following:

- Net expense for governmental activities was \$99,897,193
- General revenue which includes taxes, grants and subsidies, investment earnings and miscellaneous was \$101,872,073
- Business Type Activities (Food Service) has a total net operating loss of \$(134,953).

The District's total revenues for the fiscal year were \$131,241,288. Property taxes and other taxes levied for general purposes continue to account for most of the District's revenue in the amount of \$48,782,855 or 37% of total revenues. Another 39% or \$50,772,541 came from state formula aid, such as basic education and student transportation subsidies. Approximately 20% or \$26,689,968 came from operating and capital grants and contributions, with the remainder of \$4,995,924 or 4% coming from fees charged for services and other miscellaneous sources.

The cost of all programs and services was \$129,401,361. The District expenses are predominately related to instructing, caring for (instructional support services & operation/maintenance of school facilities) and transporting students, which represents 80% or \$103,784,071 of total expenses. The table also shows each activity's net cost (total cost less fees generated by the activities and governmental aid provided for specific programs). The net cost shows the financial burden placed on the District's taxpayers by each of these functions. The net cost of governmental activities increased by 7.5% to \$99,897,193. The net cost for the District's basic programs increased for the following reasons: a decrease in the charge for services and a decrease in operating grants and contributions.

Financial Analysis of the District

At the end of the fiscal year 2012; governmental funds had total positive fund balance of \$19,843,973. The ending fund balance for the General Fund was \$11,871,297, of which \$9,501,344 is unassigned and \$402,381 is committed for a reserve for athletics and band. The fund balance from the Debt Service fund was \$8,112,782.

The business-type activities produced a loss during the year. In addition to the District-wide financial statement, Food Services are reported in greater detail in the proprietary fund statements.

General Fund Budgetary Highlights

While the District final budget for the general fund anticipated that \$5,688,520 of fund balance would be needed to balance the budget, the actual results for the year reflected a net change in Fund Balance of \$4,025,482, which increased the General Fund balance to positive \$11,871,297.

Capital Asset and Debt Administration

Capital Assets

At June 30, 2012, the District had net investments of \$196,852,619 in a broad range of capital assets, including land, school buildings, administrative offices, athletic facilities, furniture and equipment. (See Figure A-10.) The District placed \$1,339,828 of capital assets into service during the year.

Outstanding Long-Term Debt

At year-end, the District has \$270,568,000 in general obligation bonds and other long-term debt outstanding. The District continued to pay down its debt, retiring \$695,000 of outstanding bonds and other long-term debt. More detailed information about the District's long-term liabilities is presented in Note G to the financial statements.

Factors Impacting on the District's Future

- The Pennsylvania School Employees Retirement System (PSERS) retirement rate will increase 42.9% from 2011-2012 to 2012-2013, from 8.65% to 12.36% of qualified retirement wages. PSERS projections indicate that employer contribution rates will increase to 16.93% of qualified retirement wages in 2013-2014, a 37% increase and continue to rise for several years thereafter. In November 2010, the State Legislature passed Act 120 of 2010, which established rate caps for the employer contributions. Future increases are capped at 4.5% of the prior year's rate plus the premium assistance contribution rate.
- The District expects the historical trend for greater local tax effort to fund instructional programs and services to continue as state and federal funding for public education is expected to decline. The Commonwealth of Pennsylvania provided only 49.9% of total revenue sources to fund cost supporting the District's educational programs during fiscal year 2012. Local sources, primarily property taxes support 41.4% of the cost for educational cost and services in Harrisburg School District. Federal grants and other sources of revenue provide 9% of the funds to support programs and services provided by the District.
- The teachers' contract began in the fiscal year 2007-2008 providing an average increase of 4.5% for the 2007-2008 year. The contract provides for an average increase of 4% for the following years 2008-2009, 2009-2010 and 2010-2011. The Union agreed to a no cost extension to the current collective bargaining agreement for 2011-12 and contract negotiations began in the spring of 2012 for a new agreement.

Factors Impacting on the District's Future - continued

- The classified employees' contract began in the fiscal year 2007-2008 providing for an average increase of 4.5% for the 2007-2008 year. The contract provides for an average increase of 4% for the following years 2008-2009, 2009-2010 and 2010-2011. The Union agreed to a no cost extension to the current collective bargaining agreement for 2011-12 and contract negotiations began in the spring of 2012 for a new agreement.
- In recognition of a continuing decline in State and Federal funding for public education and a limited local tax base, the District has undertaken cost cutting measures to systematically reduce the District's budget including downsizing of staff and the closure of several schools.
- Within the next five years the District's debt service scheduled payment will increase to 15% of the budget. Funding has been secured to enact a District-wide roofing plan to replace and restore roofs that are nearing end of life and to upgrade HVAC systems in all of its schools to enact energy savings. It is not anticipated that the District will need additional borrowing in the foreseeable future.
- Expenditures reductions have also led to an improved cash flow eliminating the need for shortterm borrowing.
- The District has partnered with the Highmark Foundation for providing in-school medical and dental services to underserved children. Hamilton Health is providing the services to students and is helping to make this program self sufficient.

Contacting the District's Financial Management

This financial report is designed to provide the District's citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE (DEFICIT) OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

YEAR ENDED JUNE 30, 2012

TOTAL NET CHANGE IN FUND BALANCES - GOVERNMENTAL FUNDS

\$ 786,164

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of these assets is allocated to expense over their estimated useful lives as depreciation expense.

Depreciation expense	(6,596,088)
Capital outlays	1,288,278
Construction in progress	3,683,059

(1,624,751)

Because some taxes will not be collected for several months after the District's fiscal year ends, they are not considered as "available" revenues in the governmental funds. Deferred tax revenues increased by this amount this year.

1,216,398

Capital leases are recorded as expenditures in the governmental funds but are recorded as long-term liabilities in the statement of net assets.

(367,506)

Repayment of bonds and capital leases is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets.

827,224

Payments on the premium on swap issue is recorded in the governmental funds in 2012, the premium is being amortized and interest expense is being recorded on the premium amount. The SWAP premium decreased this year by this amount.

163,681

Interest on serial bonds is recorded in the governmental funds when paid, but the statement of activities records interest expense as it is incurred. Accrued interest decreased by this amount this year.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements are prepared in accordance with the accounting system and procedures prescribed for school districts by the Commonwealth of Pennsylvania, Department of Education, which conform to generally accepted accounting principles as applicable to governmental units. The following is a summary of the significant policies:

Reporting Entity

The financial statements of the School District include all funds, functions and activities to which the appointed Board of School Directors has oversight responsibility. The financial statements presented do not include agencies which have been formed under applicable state laws or separate and distinct units of government apart from Harrisburg City School District. Financial statements in prior years were issued in the name of The School District of the City of Harrisburg. The District's name of record at the Pennsylvania Department of Education is Harrisburg City School District. Therefore, the name has been changed in the report to reflect, the name of record.

In evaluating how to define the District for financial reporting purposes, management has considered all potential component units. Government Accounting Standards Board Statement No. 14, "The Financial Reporting Entity", establishes the criteria for determining the activities, functions and organizations to be included in the financial statements of the reporting entity. This statement requires that a component unit be included if the District's elected officials are financially accountable for the component unit. The District is financially accountable if it appoints a voting majority of the component unit's governing body and (1) it is able to impose its will on the component unit, or (2) there is a potential for the District to provide specific financial benefits to, or impose specific financial burdens on the component unit. The District may be financially accountable if an organization is fiscally dependent on the District regardless of whether the District has (1) a separately elected governing board, (2) a governing board appointed by a higher level of government, or (3) a jointly appointed board.

The District has evaluated its relationship with Capital Area Intermediate Unit #15 to determine if the financial information of the unit should be included in the financial statements. Based on this evaluation, the Unit has not been included as a component unit of the District's reporting entity because of the limited oversight responsibility and limited accountability for fiscal matters.

Related Organization

Related organizations are not reported as component units in these financial statements, but significant transactions are disclosed in Note Q. The Capital Area Intermediate Unit #15 (CAIU) is a related organization to the District.

The CAIU is a regional education service agency located in central Pennsylvania that has responsibility for providing services in the areas of curriculum development and instructional improvement, educational planning, instructional materials, continuing professional education, pupil personnel, state and federal agency liaison, management services, and special education services. The CAIU serves 24 public school districts, 2 vocational technical schools, and over 60 non-public schools.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Related Organization - continued

The CAIU's Board of Directors consists of 19 members, 7 members from 7 different Cumberland County school districts, 1 member from the Northern York County School District, 8 members from 8 different Dauphin County school districts, and 3 members from Perry County school districts. The CAIU Board Members are school district board members who are elected by the public and who are appointed to the CAIU Board by the member districts' board of directors. The District is responsible for appointing one of these members. The CAIU board members have decision-making authority, the power to designate management, the ability to significantly influence operations, and primary accountability for fiscal matters.

Government-Wide Financial Statements

The Statement of Net Assets (Deficiency) and Statement of Activities display information about the reporting government as a whole. The Statements include the primary government, except for the fiduciary funds of the primary government.

Separate rows and columns are used to distinguish between the governmental and business-type activities of the primary government. Governmental activities generally are financed through taxes, intergovernmental revenues and other nonexchange revenues. These activities are usually reported in Governmental Funds. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services. These activities are usually reported in Enterprise Funds.

Measurement Focus and Basis of Accounting - Government-Wide Financial Statements

The Statement of Net Assets (Deficiency) and Statement of Activities are prepared using the economic measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets and liabilities resulting from nonexchange transactions are recognized in accordance with the requirements of GASB Statement 33.

Reporting for governmental and business-type activities is based on all applicable GASB pronouncements as well as the following pronouncements issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements: Financial Accounting Standards Board (FASB) Statements and Interpretations, Accounting Principles Board (APB) Opinions, and Accounting Research Bulletins (ARB's) of the Committee on Accounting Procedure. In addition, the District applies all applicable FASB Statements and Interpretations issued after November 30, 1989, except those that conflict with or contradict GASB pronouncements, to its business-type activities.

Policy for Eliminating Internal Activity - Government-Wide Financial Statements

In the process of aggregating data for the Statement of Net Assets (Deficiency), some amounts reported as interfund balances in the funds are eliminated or reclassified. Eliminations are made in the Statement of Net Assets (Deficiency) to minimize the "grossing-up" effect on assets and liabilities within the governmental and business-type activities columns of the primary government. As a result, amounts reported in the funds as interfund receivables and payables are eliminated in the governmental and business-type activities columns of the Statement of Net Assets (Deficiency), except for the net residual amounts due between governmental and business-type activities, which are presented as internal balances.

<u>Policy for Capitalizing Assets and Estimating Useful Lives - Government-Wide Financial Statements</u>

The School District reports capital assets at historical cost or estimated historical cost. Capital assets include land, improvements, and easements, buildings, building improvements, vehicles, machinery, equipment, infrastructure and all other tangible or intangible assets that are used in operations and that have useful lives extending beyond a single reporting period. The School District's policy is to capitalize assets, or groups of assets with costs in excess of \$1,500. Estimated depreciation expense is calculated using the straight-line method over the useful lives of capital assets ranging from 3 to 50 years.

Program Revenues - Government-Wide Financial Statements

The Statement of Activities reports three categories of program revenues: (a) charges for services, (b) program specific operating grants and contributions and (c) program specific capital grants and contributions. Program revenues derive directly from the program itself or from parties outside the reporting government's taxpayers or citizenry. As a whole, they reduce the net cost of the function to be financed from the government's general revenues.

Policy for Defining Operating and Nonoperating Revenues of Proprietary Funds

The School District defines proprietary funds operating revenues based on how the individual transaction would be categorized for purposes of preparing the statement of cash flows. Transactions for which cash flows are reported as capital and related financing activities, noncapital finance activities or investing activities would normally not be reported as operating revenues.

Policy Regarding Applying Restricted or Unrestricted Revenues

The School District first applies unrestricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

Fund Accounting

The accounts of the School District are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are summarized by providing a separate set of self-balancing accounts which include its assets, liabilities, fund equity, revenues and expenses or expenditures. The following funds are used by the School District:

Governmental Fund Types

General Fund

The General Fund accounts for all financial resources of the School District except those specifically required by laws to be accounted for in an another fund. This is a budgeted fund, and any fund balances are considered as resources available for use.

Special Revenue Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to expenditures for specified purposes. These are not budgeted funds. Special Revenue Funds include the following:

1. Capital Reserve Fund; authorized by P.L. 145, Act of April 30, 1943, known as Section 1431 of Municipal Code.

Capital Project Funds

The Capital Project Funds account for the proceeds and expenditures relating to bond issues and construction projects. Capital project funds include the following:

- 1. Series 2006 Bond Fund accounts for the costs of making improvements and renovations to school buildings as financed by the Series 2006 school revenue bonds. The Series 2006 Bond Fund was refunded with the Series 2009A Fund.
- Series 2008 Note accounts for the costs of acquiring a piece of property and costs of making improvements and renovations to school buildings as financed by the Series 2008 General Obligation Note. The Series 2008 Note was refunded with the Series 2009A Fund.
- 3. Series 2010 Note accounts for the costs of HVAC and other related renovations to school buildings as financed by the Series 2010 General Obligation Note.

Governmental Fund Types - continued

<u>Debt Service Funds</u>

- 1. Series 2002 QZAB Fund accounts for the sinking fund established by the Series of 2002 General Obligation Qualified Zone Academy Bonds.
- 2. Series 2009A Fund accounts for the refinancing of Series 1999, 2006, and 2008 bond issues.
- 3. Series 2009B Fund accounts for the refinancing of Series 2007, deficit financing, and new money.
- 4. Series 2009C Fund accounts for the refinancing of Series 2002A bond issue.
- 5. Series 2009D Fund accounts for the refinancing of Series 2003 bond issue.
- 6. Series 2010 Fund accounts for the financing of the Series 2010 General Obligation Note.

Proprietary Fund Types

Enterprise Fund

The Enterprise Fund, an unbudgeted fund, is used to account for all revenue and expenses pertaining to cafeteria operations. The Enterprise Fund is utilized to account for operations that are financed and operated similar to private business enterprises where the stated intent is the costs (expenses, including depreciation and indirect costs) of providing goods or services to the students on a continuing basis are financed or recovered through user charges. The District applies all GASB pronouncements as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements.

The District's Enterprise Fund is the Food Service Fund which accounts for the costs of providing meals to students during the school year. Revenue is received from student payments, from state and federal subsidies, and from General Fund contributions when user fees and cost reimbursements are insufficient to meet the costs of providing meals.

Fiduciary Fund Types

Trust and Agency Funds

Fiduciary funds are used to account for assets held by the District in a trustee capacity or as an agent. Trust funds include nonexpendable trust funds and expendable trust funds. Agency funds are custodial in nature and do not involve measurement of results of operations.

The following are the District's trust funds:

- 1. Nonexpendable Trust Fund accounts for monies received through donations from various classes and individuals. The principal amounts of the gifts remain intact; however, investment earnings are used to give awards to students.
- 2. Expendable Trust Fund accounts for contributions from private sources for various programs.

The following are the District's agency funds:

- 1. Student Activity Fund accounts for the Activity Funds established by each elementary and secondary school.
- 2. Agency Fund accounts for high school and middle school club activities.
- 3. SBI Agency Fund accounts for store sale activities.

Measurement Focus/Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements, regardless of the measurement focus.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds of the School District are accounted for using the current financial resources measurement focus. Accordingly, only current assets and current liabilities are included on the balance sheet, and the fund balances reflect spendable or appropriable resources. The operating statements of these funds reflect increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

Measurement Focus/Basis of Accounting - continued

The proprietary funds are accounted for on a flow of economic resources measurement focus. All assets and liabilities (current and noncurrent) associated with the operation of the funds are included on its balance sheet. The proprietary fund operating statement presents increases (e.g., revenues) and decreases (e.g., expenses) in total net assets.

Modified Accrual Basis

The modified accrual basis of accounting is followed for all governmental type funds of the School District. Under the modified accrual basis of accounting, expenditures (other than interest and principal payments on long-term debt which are recorded on their payment dates) are recorded when the fund liability is incurred. Revenues are recognized when they become susceptible to accrual, i.e., measurable and available to finance the School District's operations. Available means collectible within 60 days after fiscal year-end. The modified accrual basis of accounting is used as follows:

Property Taxes

The District has followed the principles recommended by the National Council on Governmental Accounting (NCGA) with respect to recognition of property and other tax revenues. Presuming all property taxes are collectible from a legal point of view, all previously levied but uncollected property taxes were accrued at June 30, 2012. Of this total, the portion collected within 60 days after June 30, 2012, was recognized in current income, and the balance, net of the portion that is estimated to be uncollectible, was recorded as deferred revenue.

For other taxes, the District followed the policy of accruing and recognizing in current income only those taxes which, in addition to being due and unpaid, were reasonably measurable and payment within 60 days after the close of the school year was likely.

The allowance for estimated uncollectible school occupation taxes is based on a historical analysis of collections.

Revenue from State Sources

State subsidies due the District as current fiscal year entitlements are recognized as revenue in the current fiscal year even though such funds may be received in a subsequent fiscal year.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2012

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Modified Accrual Basis - continued

Revenue from Federal Sources

Federal program funds applicable to expenditures for the same program in the current fiscal year but expected to be received in the next fiscal year are accrued as current revenue at the end of the current fiscal year along with the recognition of the federal funds receivable. Likewise, any excess of revenues at the fiscal year end over the program expenditures are recorded as deferred revenue.

Accrual Basis

Under the accrual basis of accounting, revenues are recognized in the accounting period they are earned and become measurable; expenses are recognized in the period incurred. The accrual basis of accounting is used for the Proprietary Fund and Nonexpendable Trust Funds.

Budgets and Budgetary Accounting

The school district follows these procedures in establishing the budgetary data presented in the financial statements:

- a. The official school budget was prepared for adoption for the General Fund only. The budget was formally adopted by the Board of School Directors at a duly advertised public meeting prior to the expenditure of funds. The budget was properly amended by the Board as needed throughout the year. The budget was adopted on a basis consistent with accounting principles generally accepted in the United States of America.
- b. The budget amounts shown in the financial statements are the final authorized amounts as revised during the year.
- c. Unused appropriations for the General Fund lapse at the end of the year.
- d. Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriation, is utilized in the governmental funds. Encumbrances outstanding at year-end are reported as reservations of fund balances and do not constitute expenditures or liabilities because the commitments will be honored during the subsequent year.

Fund Balance Classification

Beginning with fiscal year June 30, 2011, the District implemented GASB Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions." This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balances more transparent. The following classifications describe the relative strength of the spending constraints:

- Nonspendable: This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact.
- Restricted: This classification includes amounts for which constraints have been
 placed on the use of the resources either (a) externally imposed by creditors (such
 as through a debt covenant), grantors, contributors, or laws or regulations of other
 governments, or (b) imposed by law through constitutional provisions or enabling
 legislation. The District has classified the 2002 QZAB and 2010 Debt Service within
 the Debt Service Fund as being restricted because its use is limited by legislation or
 external parties.
- Committed: This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the Board of School Directors. These amounts cannot be used for any other purpose unless the Board of School Directors removes or changes the specified use by taking the same type of action (ordinance or resolution) that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements. The District has classified the 2009 Debt series, Athletics, and Band Reserve as being committed resources.
- Assigned: This classification includes amounts that are constrained by the District's
 intent to be used for a specific purpose but are neither restricted nor committed. This
 intent can be expressed by the Board or through the Board delegating this
 responsibility to the Business Manager through the budgetary process. This
 classification also includes the remaining positive fund balance for all governmental
 funds except for the General Fund. The District has classified the Capital Projects
 and Special Revenue Funds as assigned resources.
- Unassigned: This classification includes the residual fund balance for the General Fund and the amount established for Minimum Funding which represents the portion of the General Fund balance that has been established by a Resolution of the Board of School Directors dated May 2, 2011. The Unassigned classification also includes negative residual fund balance of any other governmental fund that cannot be eliminated by offsetting of Assigned fund balance amounts. The District will strive to maintain a fund balance of not less than 1% and not more than 8% of the annual approved budget.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2012

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Fund Balance Classification - continued

The Board would typically use Unassigned fund balances first, followed by Assigned resources, and then Committed resources, unless otherwise directed by the Board.

Inventory

The Enterprise Fund inventory consists of government donated commodities which were valued at government declared value and purchased commodities and supplies valued at cost.

It is the District's policy to expense supply/janitorial products when purchased for governmental funds.

Revenue Recognition - Property Taxes

Property taxes are levied on July 1. Taxes are collected at discount until August 31, at their face from September 1, until October 31, and include a penalty thereafter. All unpaid taxes levied July 1, become delinquent November 1, of the same year. Property taxes not paid by April 30, of the following year are turned over for collection. Interim taxes are assessed at various times during the year as needed.

Taxes receivable as reported on the combined balance sheet represents unpaid property taxes and occupation taxes outstanding at June 30, 2012. Taxes receivable not deemed available under accounting principles generally accepted in the United States of America are included in deferred revenues.

For other taxes, the District followed the policy of accruing and recognizing in current income only those taxes which, in addition to being due and unpaid, were reasonably measurable and payment within 60 days after the close of the school year was likely.

Cash and Cash Equivalents

For the purposes of the statement of cash flows, the Proprietary and Nonexpendable Trust Funds consider all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Vacation, Sick Leave and Other Compensated Absences

Employees of the District are entitled to certain compensated absences, consisting of vacation and sick leave and early retirement incentive benefits. The accrued liability for vacation and sick leave is calculated based on salary rates in effect at the balance sheet date. Additional amounts are accrued for salary-related payments associated with the payment of compensated absences, using the rates in effect at the balance sheet date.

Employees may carryover up to 40 vacation days. In a termination year, unused vacation leave is paid in full at termination.

Eligible employees may accumulate an unlimited amount of sick leave. At the time of retirement, teachers are entitled to unused sick leave reimbursement at varying rates. Administrative employees are paid 25 percent of their accumulated unused sick leave at their current daily rate. In estimating the sick leave liability, the District determined whether it was probable that employees will, in the future, meet the conditions to receive a cash payment at termination for their sick leave balances.

Early retirement incentive benefits are offered to teachers and administrators of the District, who, after fifteen years of service, retire with superannuation from either the Pennsylvania School Employees Retirement System (PSERS) or from dual or joint combined service with PSERS and the state employees retirement system.

Early retirement incentive benefits include unused sick leave reimbursement and health care. The retiree's eligibility for health care benefits is limited to those persons not covered either directly or through his or her spouse by any other health program or plan of any kind, whether public or private. Coverage discontinues when the retiree becomes eligible for Medicare.

Monthly benefit expense is determined by employee classification, coverage type and amount of PSERS supplementation, if any.

Government-wide and Proprietary Fund Net Assets

Government-wide and proprietary fund net assets are divided into three components:

- Invested in capital assets, net of related debt consist of the historical cost of capital
 assets less accumulated depreciation and less any debt that remains outstanding that
 was used to finance those assets.
- Restricted net assets consist of net assets that are restricted by the District for a specific purpose.
- Unrestricted all other net assets are reported in this category.

Pension Plan

All full-time employees of the District participate in a cost-sharing multiple employer defined benefit pension plan. The District made all required contributions for the year ended June 30, 2012, and has recognized them as expenditures and expenses in the governmental and proprietary funds, respectively.

Investments

The School District invests funds with The Pennsylvania School District Liquid Asset Fund (PSDLAF), Pennsylvania Local Government Investment Trust (PLGIT), and the Pennsylvania Treasurer's INVEST Program for Local Governments (INVEST). PSDLAF, PLGIT, and INVEST operate and are authorized under the Intergovernmental Cooperation Act of 1972. Investments in these funds have daily liquidity and are valued at the current cost which equals market value.

These funds invest in federal securities backed by the full faith and credit of the United States Government, in agencies, instrumentalities and subdivisions of the Commonwealth of Pennsylvania backed by the full faith and credit of the Commonwealth and certificates of deposit which are insured by the Federal Deposit Insurance Corporation or which are collateralized as provided by law of Act 72 of 1971.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Derivative Financial Instruments

The District uses swap contracts that have fixed or variable payments based on the price of an underlying interest rate or index. Hedging derivative instruments are used to reduce financial risks, such as offsetting increases in interest rate costs by offsetting changes in cash flows of the hedged item. These derivative instruments are evaluated to determine if they are effective in significantly reducing the identified financial risk at year end. If the derivative is determined to be an effective hedge, its fair value is an asset or liability with a corresponding debit (credit) to deferred outflows (inflows) on the Statement of Net Assets (Deficiency). Deferred outflows (inflows) constitute changes in fair values of effectively-hedged derivative instruments. If the derivative instruments are determined to be ineffective, they are considered investment derivatives in which their fair values are either assets or liabilities on the Statement of Net Assets (Deficiency) and the changes in fair values are recognized against investment income in the Statement of Activities.

Interfund Transactions

During the course of normal operations, the School District has numerous transactions between funds, including expenditures and transfers of resources to provide services and service debt. Advances between funds which are not expected to be repaid are accounted for as transfers. In those cases where repayment is expected, the advances are accounted for through various due from and due to accounts.

Fixed Assets - Fund Financial Statements

Under the School District's method of accounting, fixed assets are recorded as expenditures at the time of purchase in the governmental funds. Accordingly, no depreciation has been provided on fixed assets in those funds. Proprietary Fund fixed assets are recorded at cost. Depreciation is provided for on a straight-line basis over periods ranging from 5 to 20 years.

Memorandum Only Columns

Total columns on the combined statements are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations, or changes in financial position in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Concentration of Credit Risk

The District places no limit on the amount the District may invest in any one issuer. Excluding investments in various Federal treasury obligations funds, the District carried investments in the Federal National Mortgage Association that exceeded 5% of total investments.

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral security that are in the possession of an outside party. The District has no investments subject to custodial credit risk.

			<u>\$270,568,000</u>

On August 1, 2002, the District issued \$5,104,000 of General Obligation Qualified Zone Academy Bonds. Proceeds of the bonds were used for payment of costs of rehabilitating or repairing Lincoln Elementary School, purchasing and installing equipment therein and to pay the costs of issuance. The District is required to deposit \$305,046 on July 30th of each year to the sinking fund until maturity. As of June 30, 2012, the District has restricted cash and investments of \$2,907,000 in the sinking fund.

On May 1, 2009, the State Public School Building Authority issued \$133,765,000 of fixed rate School Revenue Bonds, Series 2009A. Proceeds of the bonds were used to refund the Series 1999 adjustable rate School Revenue Bonds, Series 2006 adjustable rate School Revenue Bonds, Series 2008 General Obligation Note, to terminate the Interest Rate Management Agreements associated with the Series 1999 and 2006 adjustable rate School Revenue Bonds and to pay the costs of issuance.

On May 1, 2009, the State Public School Building Authority issued \$22,855,000 of fixed rate School Revenue Bonds, Series 2009B. Proceeds of the bond were used to refund the Series 2007 fixed rate General Obligation Note, to fund certain operating expenditures of the District, and to pay the costs of issuance.

NOTE G - BONDS AND NOTES PAYABLE - continued

On May 1, 2009, the State Public School Building Authority issued \$26,620,000 of fixed rate Federally-Taxable School Revenue Bonds, Series 2009C. Proceeds of the bonds were used to refund the Series 2002A "Penncaps" and pay the costs of issuance.

On June 25, 2009, the State Public School Building Authority issued \$74,850,000 of variable rate School Revenue Bonds, Series 2009D. Proceeds of the bonds were used to refund the Series 2003 adjustable rate School Revenue Bonds and pay the costs of issuance. The variable rate is determined by the remarketing agent in accordance with defined interest rate adjustment dates, interest rate determination or reset dates, and interest rate periods. The interest rate on the bond was effectively fixed at 5.25% through the swap arrangements discussed in Note H.

On October 6, 2010, the District obtained a \$9,194,000 note under the Pennsylvania State Public School Building Authority Qualified School Construction Bond Program, Series 2010 QSCB. Proceeds of the note are to be used for HVAC and roofing projects at several of the schools and to pay the costs of issuance. The note carries an interest rate of 5% annually that is partially offset by federal subsidies, with interest payments due March 15 and September 15.

A schedule of the District's debt service requirements, which are financed by the General Fund follows:

Derivative Instrument Types

Hedge effectiveness: As of June 30, 2012, derivative instrument C under governmental activities does not meet the criteria for effectiveness and, thus, is considered to be an investment derivative instrument. The fair market value of the ineffective SWAP was \$441,458 at June 30, 2012. The change in fair market value for the year was \$931,802 and was reported in the Statement of Activities under Investment earnings - derivatives. The other interest rate swaps are considered to be hedging derivative instruments and are identified above as cash flow hedges.

The District used the regression analysis method to evaluate hedge effectiveness for the interest rate swaps. This method evaluates effectiveness by measuring the statistical relationship between the fair value or cash flows of the potential hedging derivative and the hedgeable item. The changes in cash flows or fair values of the potential hedging derivative instrument substantially offset the changes in cash flows or fair values of the hedgeable item if all of the following criteria are met:

- a. The R² of the regression analysis is at least .80.
- b. The F-statistic calculated for the regression model demonstrates that the model is significant using a 95 percent confidence interval.
- c. The regression coefficient for the slope is between -1.25 and -.80.

Fair Values

Fair values for the District's derivative instruments were estimated using the following methods:

Interest rate swaps: Fair values for the interest rate swaps were estimated using the zero-coupon method, which calculates the future net settlement payments, assuming that current forward rates implied by the yield curve correctly anticipate future spot interest rates. The payments are then discounted using the spot rates implied by the current yield curve for hypothetical zero-coupon bonds due on the date of each future net settlement on the swaps.

NOTE H - SWAP TRANSACTIONS - continued

Derivative Instrument Risks

Credit risk: The District is exposed to credit risk on hedging derivative instruments that are in asset positions. To mitigate the potential for credit risk, the District's policy when entering into a swap agreement is to negotiate additional collateralization requirements in the event of a ratings downgrade. Should a counterparty's credit rating fall below Aa as issued by Moody's Investor Services or AA as issued by Standard & Poor's, the counterparty is required to post collateral equal to the net amount of the fair value of derivative instruments in an asset position less the effect of any netting arrangements. The collateral is required to be U.S. Treasury securities and must be held by a third-party custodian. The District has always accessed collateral when required.

It is also the District's policy to negotiate netting arrangements whenever it has entered into more than one derivative instrument transaction with a counterparty. Under the terms of these arrangements, should one party become insolvent or otherwise default on its obligations, the non-defaulting party may accelerate and terminate all outstanding transactions and net their fair values so that a single amount will be owed by (or to) the nondefaulting party. As of June 30, 2012, the District is in a negative position after netting the basis swaps with the interest rate swaps and, therefore, there is no credit risk.

Interest rate risk: The District is exposed to interest rate risk on its swap agreements. On the pay-fixed, receive variable interest rate swaps (Instruments A and B), the District's net payment increases as LIBOR index decreases. On the basis swap, the District's net payment increases as the ISDA swap rate or the SIFMA municipal swap index decreases.

Basis risk: The District is exposed to basis risk on its pay-fixed interest rate swaps hedging derivative instruments (Instruments A and B) because the variable rate payments received on these derivative instruments are based on a rate or index other than interest rates the District pays on its hedged variable-rate debt, which is remarketed every 30 days. As of June 30, 2012, the weighted average interest rate on the District's hedged variable-rate debt is 5.25 percent, while the 63% of LIBOR plus .2% is .35 percent.

The District is exposed to basis risk on its basis swaps hedging derivative instruments (Instrument C) because the variable rate payments received on these derivative instruments are based on a rate or index other than rate or index interest rates the District pays on its hedged variable-rate debt. As of June 30, 2012, the interest rates paid and received under the basis swaps are as follows:

Instrument C

74% of 3 month LIBOR plus .3113% is .49 percent.

SIFMA Municipal swap index rate is .18 percent.

Plan Description

Name of Plan: The Public School Employees' Retirement System (the System).

Type of Plan: Governmental cost sharing multiple-employer defined benefit

plan.

Benefits: Retirement and disability, legislative mandated ad hoc cost-of-

living adjustments, health care insurance premium assistance to

qualifying annuitants.

Authority: The Public School Employees' Retirement Code (Act No. 96 of

October 2, 1975, as amended) (24 Pa. C. S. 8101-8535).

Plan Description - continued

Annual Financial Report:

The System issues a comprehensive annual financial report that includes the financial statements and required supplementary information for the plan. A copy of the report may be obtained by writing to Barbara D. Flurie, Office of Financial Management, Public School Employees' Retirement System, P.O. Box 125, Harrisburg, PA 17108-0125. This report is also available in the publications section of the PSERS website at www.psers.state.pa.us.

Funding Policy Authority:

The contribution policy is established in the Public School Employees' Retirement Code and requires contributions by active members, employers, and the Commonwealth.

Contribution Rates:

Member Contributions: Active members who joined the System prior to July 22, 1983, contribute at 5.25 percent (Membership Class TC) or at 6.50 percent (Membership Class TD) of the member's qualifying compensation. Members who joined the System on or after July 22, 1983, and who were active or inactive as of July 1, 2001, contribute at 6.25 percent (Membership Class TC) or at 7.50 percent (Membership Class TD) of the member's qualifying compensation. Members who joined the System after June 30, 2001, contribute at 7.50 percent (automatic Membership Class T-D). For all new hires and for members who elected Class T-D membership, the higher contribution rates began with service rendered on or after January 1, 2002.

Employer Contributions: Contributions required of employers are based upon an actuarial valuation. For fiscal year ended June 30, 2012, the rate of employer's contribution was 8.65 percent of covered payroll. The 8.65 percent rate is composed of a pension contribution rate of 8.00 percent and a .65 percent rate for health insurance premium assistance.

Contributions Required and Made

The School District's total payroll for the current year was \$51,259,299 while total covered payroll for retirement purposes was \$50,587,671.

Total contributions made during the year ended June 30, 2012, amounted to \$8,100,777 of which \$4,375,834 was made by the School District and \$3,724,943 was made by employees. Included in the District's contribution is a PSERS credit taken in the amount of \$252,662. These contributions represent 8.65 percent (District) and 7.36 percent (employees) of covered payroll.

Net OPEB Obligation

And Annual

OPEB Cost:

The District's annual other post-employment benefit (OPEB) cost is calculated based on the annual required contribution (ARC), and the amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed thirty years. The following table shows the components of the District's annual OPEB cost for the year, the amount contributed to and the changes in the District's net OPEB asset.

Annual Required Contribution (ARC) Interest on net OPEB obligation Adjustment to ARC	\$2,676,058 (137,498) <u>187,582</u>
Annual OPEB cost Contributions	2,726,142 (2,653,508)

Actuarial Methods and Assumptions

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.

The required schedule of funding progress immediately following the notes to the financial statements presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Calculations are based on the types of benefits provided under the terms of the substantive plan at the time of each valuation and on the pattern of sharing of costs between the employer and plan members to that point. Calculations reflect a long-term perspective and consistent with that perspective, actuarial methods and assumptions used included techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

The entry age normal cost method actuarial valuation was used based upon census information provided as of May 2011. The actuarial assumptions included utilized a 4.50% interest rate and salary increases for spreading contributions over future pay. Salary increases are composed of a 3% cost of living adjustment, 1% real wage growth, and for teachers and administrators, a merit increase which varies by age from 3% to 0.25%. The valuation assumes a 7.5% healthcare cost trend for fiscal year 2010, reduced by decrements of .5% per year to an ultimate rate of 5.5% in 2014 and later.

NOTE L - COMPENSATED ABSENCES

A summary of the District's total compensated absence liabilities for the year ended June 30, 2012 is as follows:

	Beginning Balance	Additions	Deletions	Ending Balance
Vacation, sick, and personal days Early retirement	\$ 3,195,982	\$ 207,681	\$ 547,207	\$ 2,856,456
health costs	3,931,080		92,245	3,838,835
Total	<u>\$ 7,127,062</u>	<u>\$ 207,681</u>	<u>\$ 639,452</u>	<u>\$ 6,695,291</u>

Health Care

The District provides post-employment health care benefits for certain retirees as required by the union contracts with teachers and administrative personnel, under the District's Early Retirement Incentive Program (ERIP). The benefits vary depending on whether the retiree was a teacher, an administrative employee or support staff. For teachers and administrators, the District pays 100 percent of the allowable benefits for employees who retire with 15 years or more of total service with the District and who meet the criteria for superannuation from either PSERS or from dual or joint combined service with PSERS and State Employees Retirement System (SERS). The District pays the costs of the benefits in effect at the date of retirement until the recipient reaches the age of 65. The District's contributions will be increased at a maximum of 7 percent per year. Costs in excess of 7 percent each year are reimbursed by the retiree. Expenditures of the District are presented net of this reimbursement.

Support staff receive District paid health insurance for the employee only provided that the employee is not covered under his/her spouse's plan or any other health care insurance and the retiree has reached superannuation defined to be 35 years of credited service or a combination of 30 years of credited service and 60 years of age.

As of June 30, 2012, there were 164 retirees who were receiving the premium-coverage benefit. For the year ended June 30, 2012, the District recognized expenditures of approximately \$1,522,372 for health care benefits for retirees.

NOTE O - RISK MANAGEMENT

The District is exposed to various risks of loss related to theft of, damage to, and destruction of assets; errors and omissions; job-related injuries to employees; and natural disasters. The District has purchased various insurance policies to protect the assets of the District from these risks of loss. The amounts of settlements have not exceeded insurance coverage during the year ended June 30, 2012.

NOTE P - COMMITMENTS AND CONTINGENCIES

Litigation

The School District is involved in several claims and lawsuits incidental to its operation in which the ultimate outcome is not yet determinable. In the opinion of the administration and legal counsel, the estimate of the potential aggregate liability exposure for the District is \$650,000.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2012

NOTE P - COMMITMENTS AND CONTINGENCIES - continued

Litigation - continued

In addition to the above matters the School District accrued \$216,914 as of June 30, 2012 in relation to a liability dealing with monies owed to employees as a result of charges filed against the District by the AFSCME District Council 90 Union. This amount was the result of a method used by the District for employee payroll deductions during their payroll system conversion in the school year ending June 30, 2010. The amounts owed will be paid out to each individual and do not include any interest.

Grants

The School District is party to various grants with Federal and State agencies which are subject to program and compliance audits by the grantors or under the Single Audit Act Amendments of 1996. Findings and questioned costs arising out of such audits are subject to the ultimate disposition by the grantor agency.

The District has accrued a liability of \$83,138 in response to the Department of Labor's determination in the prior year which disallowed \$176,701 in Youth Build expenditures previously claimed by the District.

Commitments

The District had no outstanding commitments on construction contracts as of June 30, 2012.

NOTE Q - RELATED PARTY TRANSACTIONS

The Capital Area Intermediate Unit provides special education services and other workshops to the District. During the year ended June 30, 2012, the District's expenditures relating to those services and workshops were \$772,884.

NOTE R - DEFICITS IN FUND BALANCE OF INDIVIDUAL FUND

At June 30, 2012, the following fund had a deficit fund balance:

Food Service Fund

\$1,360,095

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2012

NOTE S - CORRECTION TO PRIOR YEAR FUND BALANCE CLASSIFICATION

In the prior year, there was an error noted between the restricted and committed fund balance classifications of the debt service funds on the Governmental Funds - Balance Sheet. The classifications, which have been revised on the current year statements, should have been as follows at June 30, 2011:

Restricted - 2002 QZAB	\$ 2,512,525
Restricted - 2010 Debt Service Fund	8,245,868
Committed - 2009 Debt Series	 575,782

Total \$11,334,175

Although the classifications were incorrect as presented in the financial statements, the total fund balance presented for the debt service funds was correct.

NOTE T - HEALTH INSURANCE COVERAGE

For its health insurance, the District uses a self-insured plan with a maximum aggregate eligible claims expense per participant of \$150,000 and a maximum aggregate benefit per policy term of \$2,000,000. Amounts in excess of \$150,000 are covered through a separate stop-loss policy.

The District accrues expenses Incurred but Not Reported (IBNR) through June 30, 2012 through its accounts payable. At June 30, 2012, the amount accrued in accounts payable for IBNR is \$590.038.

NOTE U - SUBSEQUENT EVENTS

The District received a letter from the Pennsylvania Department of Education on August 22, 2012 indicating that in relation to section 621-A of the Public School Code of 1949, 24 P.S. § 6-621-A, they are considered in Financial Recovery Status and the District is subject to the provisions of Article VI-A that apply to Moderate Financial Recovery School Districts as defined in section 651-A, 24 P.S. § 6-651-A.

On December 13, 2012 the Harrisburg City School District was declared in Moderate Financial Recovery and a chief recovery officer has been named to help the District. On December 17, 2012, the Board voted to accept the declaration.

Management has evaluated subsequent events through December 21, 2012, the date the financial statements were available to be issued.

SINGLE AUDIT INFORMATION

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of School Directors Harrisburg City School District

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Harrisburg City School District as of, and for the year ended, June 30, 2012, which collectively comprise Harrisburg City School District's basic financial statements and have issued our report thereon dated December 21, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

Management of Harrisburg City School District, is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered Harrisburg City School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Harrisburg City School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Harrisburg City School District's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify and deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS - continued

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Harrisburg City School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain other matters that we reported to management of Harrisburg City School District in a separate letter dated December 21, 2012.

This report is intended solely for the information and use of management, the Board of School Directors, others within the entity, and federal awarding agencies and pass-through entities and is not intended to be, and should not be, used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Board of School Directors Harrisburg City School District

Compliance

We have audited Harrisburg City School District's compliance of with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that could have a direct and material effect on Harrisburg City School District's major federal programs for the year ended June 30, 2012. Harrisburg City School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Harrisburg City School District's management. Our responsibility is to express an opinion on Harrisburg City School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Harrisburg City School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Harrisburg City School District's compliance with those requirements.

In our opinion, Harrisburg City School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2012. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as items SA 2012-01 through 2012-04.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133 - continued

Internal Control Over Compliance

Management of Harrisburg City School District is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered Harrisburg City School District's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Harrisburg City School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over compliance that we consider to be significant deficiencies as described in the accompanying schedule of findings and questioned costs as items SA 2012-01 through SA 2012-04. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Harrisburg City School District's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit Harrisburg City School District's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of management, the Board of School Directors, others within the District and federal awarding agencies, and pass-through entities and is not intended to be, and should not be, used by anyone other than these specified parties.

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEAR ENDED JUNE 30, 2012

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying schedule of expenditures of federal awards includes the federal grant activity of Harrisburg School District and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of the basic financial statements.

Donated Commodities

Federal donated commodities were valued using the commodity price list (based on actual and average USDA costs of commodities purchased) provided by the Bureau of Government Donated Foods.

Component Units

In evaluating how to define the District for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in U.S. Generally Accepted Accounting Principles, which requires a component unit to be included if the District's elected official's are financially accountable for the component unit. The District is financially accountable if it appoints a voting majority of the component unit's governing body and (1) it is able to impose its will on the component unit, or (2) there is a potential for the District to provide specific financial benefits to, or impose specific financial burdens on the component unit. The District may be financially accountable if an organization is fiscally dependent on the District regardless of whether the District has (1) a separately elected governing board, (2) a governing board appointed by a higher level of government, or (3) a jointly appointed board.

The District has evaluated its relationship with Capital Area Intermediate Unit #15 to determine if the financial information of the unit should be included in the financial statements. Based on this evaluation, the Unit has not been included as a component unit of the District's reporting entity because of the limited oversight responsibility and limited accountability for fiscal matters.

NOTE B - FOOD DISTRIBUTION

Nonmonetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed. At June 30, 2012, the organization had food commodities totaling \$4,083 in inventory.

Noncompliance and Significant Deficiency in Internal Control over the Cash Management Process

Condition:

The District earned in excess of \$100 interest on School Improvement Grant funds that were not remitted.

Criteria:

According to the OMB A-133 Part 4 School Improvement Grant compliance supplement, interest earned on advances by local government grantees and subgrantees is required to be submitted promptly, but at least quarterly, to the Federal agency. Up to \$100 per year may be kept for administrative expenses. Recipients of advanced federal program funds must minimize the time elapsing between the transfer of funds from the State and disbursement in accordance with A-102 Grants Management Common Rule. Federal program receipts and disbursements should be monitored in accordance with these provisions and interest earnings calculated on a quarterly basis.

Cause:

The cash management compliance requirement in regards to interest earnings was not properly followed by the District.

Effect:

The District failed to submit, on a quarterly basis, the excess interest earned on advances of federal funds.

Questioned Costs:

\$259

SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED JUNE 30, 2012

C. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS - continued

Finding SA 2012-01 - continued

Auditors' Recommendation:

We recommend the District develop procedures to track and submit interest earned on advances quarterly to comply with OMB Circular A-133 requirements.

Auditee Response and Corrective Action Plan:

The District has developed procedures to track and submit interest earned on cash advances quarterly. It will revise it procedures to ensure new grant revenues received within the fiscal year are included and will compare interest calculations with funding received through various agencies to eliminate any oversight. The District has remitted the interest to the United States Government for the amount of \$259.14 on November 16, 2012.

Noncompliance and Significant Deficiency in Internal Control over Activities Allowed or Unallowed and Allowable Costs/Cost Principles

Condition:

The District improperly charged an unallowed expenditure to the grant.

Criteria:

The OMB Circular A-133 Part Four Compliance Supplement for the Title I Grant Cluster outlines the appropriate activities and expenditures that are allowed to be charged to the grant.

Cause:

During testing we noted one expenditure charged to the grant for costumes, which was determined to be unallowed.

Effect:

The District charged unallowed expenses to the Federal grant.

Questioned Costs:

\$223

Auditors' Recommendation:

We recommend the District closely monitor the expenditures, and activities for which expenditures are being charged to the grant, are in line with the approved grant budget and guidelines.

Noncompliance and Significant Deficiency in Internal Control over the Activities Allowed or Unallowed and Reporting Compliance Requirements

Condition:

SN selected four months of the year to agree the total meals served on the participation report provided by the District to the total number of meals claimed on the reimbursement request and noted two months that did not agree.

Of the 4 months tested above, SN selected 16 days to recalculate the number of meals claimed on the reimbursement request and noted six days were incorrectly calculated.

Criteria:

According to the OMB Circular A-133 Part Four, Compliance Supplement for the Nutrition Cluster, "When allowability is determined based upon individual transactions, select a sample of transactions and perform procedures to verify that the transaction was for an allowable activity." Reporting Compliance requirements under the same supplement also state, "All claims must be supported by accurate meal counts by category and type taken at the point of service or developed through an approved alternative procedure".

Cause:

The District failed to correctly record the number of meals for reimbursement from the daily sales reports to the Meals Participation Report, which they use to complete the monthly reimbursement request.

Effect:

The District claimed 18 meals less than what was actually served in the four days tested in May. The District claimed 26 meals more than actually served in the four days tested in October, which resulted in the determination that there were 337 more than the amount actually served for the entire month of October. The total net effect of these findings is 319 additional meals claimed than served.

Noncompliance and Significant deficiency in Internal Control over the Eligibility Compliance Requirements

Condition:

We selected a total of 60 student applications for free and reduced price lunches to review for eligibility determination requirements. Applications were reviewed for completeness, accuracy, and authorization. Three exceptions were noted as follows:

- 1. One of the 60 applications tested for eligibility was noncompliant because incorrect determinations were made based on information provided on the application.
- 2. Two of the 60 applications tested for eligibility were either not properly completed per the instructions on the application or not properly reviewed by the determining official.

Criteria:

According to the OMB Circular A-133 Part Six, Internal Control for Eligibility, activities are the policies and procedures to ensure that the managers and directors roles are carried out. As such, the control activities as they relate to the eligibility compliance requirement and the District's procedures are:

1. Procedures to ensure the accuracy and completeness of data used to determine eligibility requirements.

There are also specific eligibility requirements that are released by the Department of Agriculture each year to be used for determination of eligibility for free and reduced lunches. We used these guidelines for our testing of compliance.

Finding SA 2011-01

Federal agency: U.S. Department of Education

Pass-through entity: Capital Area Intermediate Unit 15

ARRA - Special Education - Grants to States (IDEA) - CFDA 84.391A (FYE 2009/2010)

Noncompliance and Significant Deficiency in Internal Control over Activities Allowed or Unallowed and Allowable Costs/Cost Principles

Condition:

The District improperly charged an employee to the grant that was not allowed.

Criteria:

The OMB Circular A-133 Part Four Special Education Compliance Supplement states that IDEA funds may only be used for the excess costs of providing special education and related services to children with disabilities.

Cause:

During testing we noted three expenditures out of the 60 tested included one employee that did not have a position in the Special Education Department, in 2010-2011 fiscal year.

Effect:

The District charged an employee to the grant for the 2010-2011 fiscal year that was not allowed.

Questioned Costs:

\$55.949

Auditors' Recommendation:

We recommend the District closely monitor the salary spreadsheet for the grant to ensure that all employees included are eligible to be paid under the grant.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED JUNE 30, 2012

D. SUMMARY SCHEDULE OF PRIOR YEAR FINDINGS - continued

Finding SA 2011-01 - continued

Auditee Response and Corrective Action Plan:

Once the District became aware that an employee did not have a position in the Special Education Department, but was assigned to a Biology teaching position, the questioned costs of \$55,949 were removed from the grant expenditures. The District has replaced the questioned costs with allowable compliant charges to the grant.

The District will review closely the assigned positions within the grants each year.

Auditee's Update:

The District developed procedures to review closely the assigned positions within the grants each year. As part of its review, grant paid personnel are reviewed to ensure that their position assignment aligns with the approved grant budget and guidelines.

Current Status:

This grant was tested in the current year and no similar findings were noted.

Title I Grants to Local Educational Agencies - CFDA 84.010 (FYE 2009/2010) Contract No. 013-100184

Noncompliance and significant deficiency in Internal Control over the cash management process

Condition:

The District earned in excess of \$100 interest on Title I grant funds that were not remitted.

Criteria:

According to the OMB A-133 Part 4 Title I compliance supplement, interest earned on advances by local government grantees and subgrantees is required to be submitted promptly, but at least quarterly, to the federal agency. Up to \$100 per year may be kept for administrative expenses. Recipients of advanced federal program funds must minimize the time elapsing between the transfer of funds from the state and disbursement in accordance with A-102 Grants Management Common Rule. Federal program receipts and disbursements should be monitored in accordance with these provisions and interest earnings calculated on a quarterly basis.

Cause:

The cash management compliance requirement in regards to interest earnings was not properly followed by the District.

Effect:

The District failed to submit, on a quarterly basis, the excess interest earned on advances of federal funds.

Questioned Costs:

\$1,073

SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED JUNE 30, 2012

D. SUMMARY SCHEDULE OF PRIOR YEAR FINDINGS - continued

Finding SA 2011-02 - continued

Auditors' Recommendation:

We recommend the District develop procedures to track and submit interest earned on advances quarterly to comply with OMB Circular A-133 requirements.

Auditee Response and Corrective Action Plan:

The District will develop procedures to track and submit interest earned on cash advances quarterly. The District will remit the interest to the United States Government for the amount of \$1,073, less the overpayment of \$194.01 resulting from an error in the calculation of finding SA 2010-01.

Auditee's Update:

The District has developed procedures to track and submit interest earned on cash advances quarterly. The District is working to improve its procedures to ensure new grant revenues received within the fiscal year are included and will compare interest calculations with funding received through various agencies to eliminate any oversight.

Current Status:

Although there was no similar finding for this grant in the current year, there was a similar finding for another grant in the current year, please see finding SA2012-01.

Improving Teacher Quality State Grants (Title II) - CFDA 84.367 (FYE 2010/2011) Contract No. 020-110184

Significant Deficiency in Internal Control over Activities Allowed or Unallowed, Allowable Costs/Cost Principles, Cash Management and Period of Availability

Condition:

The District is not properly approving journal entries, which are being used to charge expenditures to federal grants.

Criteria:

As implied in OMB Circular A-133 Part 6 Internal Control for Activities Allowed or Unallowed, Allowable Costs/Cost Principles, Cash Management and Period of Availability, accountability for authorization is fixed in an individual who is knowledgeable of the requirements for grant expenditures.

Cause:

The District uses journal entries to transfer or correct costs between federal grants that have not been properly authorized as expenditures for those grants.

Effect:

The potential exists for improper and incorrect expenditures to be recorded for federal grants.

Questioned Costs:

\$16.138

SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED JUNE 30, 2012

D. SUMMARY SCHEDULE OF PRIOR YEAR FINDINGS - continued

Finding SA 2011-03 - continued

Auditors' Recommendation:

We recommend the District ensures that all journal entries are properly authorized, according to the District's policy.

Auditee Response and Corrective Action Plan:

The District will observe its established journal entry approval system to ensure all journal entries are properly authorized. The \$16,138 potential questioned costs were reviewed and were compliant costs to the grants.

Auditee's Update:

The District is observing its established journal entry approval system to ensure all journal entries are properly authorized.

Current Status:

There was no similar finding noted in the current year.

Noncompliance and Significant deficiency in Internal Control over Reporting

Condition:

The District did not submit the required final report to the pass-through entity in a timely manner.

Criteria:

According to the OMB Circular A-133 Part Four, Department of Education Cross-Cutting Section under the Reporting compliance requirement for financial reporting, "LEAs and other subrecipients are generally required to report financial information to the pass-through entity. These reports should be tested during audits of LEAs."

According to the language on the required final report, "Final Expenditure Reports are due August 1, 2011, or as soon as funds are liquidated, whichever comes first".

Cause:

The District failed to submit their required final report in a timely manner.

Effect:

The District is not in compliance with reporting compliance requirements and could be penalized.

Questioned Costs:

Unknown

Noncompliance and Significant Deficiency in Internal Control over Activities Allowed or Unallowed and Allowable Costs/Cost Principles

Condition:

The District improperly charged an expenditure to the grant that was not allowed.

Criteria:

The OMB Circular A-133 Part Four Compliance Supplement for the Title I Grant Cluster outlines the appropriate activities and expenditures that are allowed to be charged to the grant.

Cause:

During testing we noted one expenditure that was charged to that grant, which was determined to be unallowed.

Effect:

The District charged unallowed expenses to the federal grant.

Questioned Costs:

\$175

Auditors' Recommendation:

We recommend the District closely monitor the expenditures, and activities for which expenditures are being charged to the grant, are in line with the approved grant budget and guidelines.

Noncompliance and Significant deficiency in Internal Control over the Activities Allowed or Unallowed and Reporting Compliance Requirements

Condition:

SN selected 16 days to recalculate the number of meals claimed on the reimbursement request and noted one day that was incorrectly calculated.

Criteria:

According to the OMB Circular A-133 Part Four, Compliance Supplement for the Nutrition Cluster, "When allowability is determined based upon individual transactions, select a sample of transactions and perform procedures to verify that the transaction was for an allowable activity." Reporting Compliance requirements under the same supplement also states, "All claims must be supported by accurate meal counts by category and type taken at the point of service or developed through an approved alternative procedure".

Cause:

The District failed to correctly record the number of meals for reimbursement from their daily sales reports to their Meals Participation Report, which they use to fill out their monthly reimbursement request.

Effect:

The District claimed 92 additional free meals for reimbursement.

Questioned Costs:

\$248

Noncompliance and Significant deficiency in Internal Control over the Eligibility Compliance Requirements

Condition:

We selected a total of 60 student applications for free and reduced price lunches to review for eligibility determination requirements. Applications were reviewed for completeness, accuracy, and authorization. Eighteen exceptions were noted as follows:

- 1. Four of the 60 applications tested for eligibility were noncompliant because incorrect determinations were made based on information provided on the applications.
- 2. Sixteen of the 60 applications tested for eligibility were either not properly completed per the instructions on the application or not properly reviewed by the determining official.

Criteria:

According to the OMB Circular A-133 Part Six, Internal Control for Eligibility, activities are the policies and procedures to ensure that the manager's and director's roles are carried out. As such, the control activities as they relate to the eligibility compliance requirement and the District's procedures are:

Procedures to ensure the accuracy and completeness of data used to determine eligibility requirements.

There are also specific eligibility requirements that are released by the Department of Agriculture each year to be used for determination of eligibility for free and reduced lunches. We used these guidelines for our testing of compliance.
