

Section: Narratives - Needs Assessment

Introduction

The findings of a recent study showed that there is a significant benefit to students who participate in out-of-school-time (OST) programs. In fact, the [Return on Investment of Afterschool Programs in Pennsylvania](#) study determined that for every dollar invested in after-school programming for students there was a return of \$6.69 in potential benefits to students, including reduced rates for drop-outs, teen pregnancy, substance abuse, crime and delinquency ([Link to PSAYDN.org](#)).

In accordance with the American Rescue Plan (ARP) Act and Pennsylvania Act 24 of 2021 (Act 24), the Pennsylvania Department of Education (PDE) will award approximately \$50,000,000 or one percent (1%) of Pennsylvania's ARP Elementary and Secondary School Education Relief (ESSER) State Reserve funds to support school districts, charter schools and cyber charter schools (collectively, LEAs) in the development and implementation of comprehensive after-school programs to address learning loss in response to the academic, social, emotional and mental health needs of students and subgroups of students impacted by COVID-19 public health emergency that supplement school programs and activities.

Act 24 requires that, when available, existing personnel shall be utilized by school districts, charter schools and cyber charter schools to staff programs and activities established with these grant funds.

Within 90 days of receipt of these allocations, school districts, charter schools and cyber charter schools must submit a three-part plan to PDE, that outlines the proposed use of the grant money, itemized by program and activity. This plan is part of a consolidated application that includes after-school programming, summer programming, and a comprehensive plan to address learning loss. The plan shall include:

- 1) A description of each program and activity
- 2) A narrative outlining the expected benefit of each program and activity
- 3) A budget for each program and activity detailing personnel and operating costs

PDE has developed the Accelerated Learning Toolkit, a significant cadre of resources and trainings, to support LEAs in the development of their plans. The Accelerated Learning Toolkit can be found [Link to Accelerated Learning Toolkit](#).

Needs Assessment: In this section, LEAs are asked to describe the impact of the pandemic on their students, examine disproportionate impacts on specific student groups, and highlight the LEA's promising practices in supporting students' needs since March 2020.

Indicators of Impact

1. Describe how the LEA identified students for inclusion in after-school programming. Include a brief description of the indicators used in the decision-making process.

The LEA intends to use quarterly, mid-year, and final grades at the elementary and secondary levels as well as an intention to perform a comparative analysis to identify potential gaps in learning. Additionally, data analysis will be completed (when available) on cohort assessment data including PSSA, Keystone, EasyCBM, diagnostic and benchmark curriculum data. Separately, parental input will be gathered to collect anecdotal narratives about perceived learning losses. It is common practice for our school counselors to engage students in one-on-one conversations regarding their learning struggles and successes. These conversations provide qualitative data that can be used to guide and inform decisions.

Section: Narratives - After-school Program

After-school Program Questions: In this section, LEAs are asked to describe the activities they have designed to provide after- school programming for their students.

- Identify the target student-group for the summer school program. Will the focus be on academic growth, social and emotional wellness, or some other factor to support student growth? For each group, provide specific strategies that were used or will be used to identify and measure impacts.

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
Children from Low-Income Families	Academic Growth	100	School tutoring for our students in the areas of Math and ELA. Continue analysis of data.
Children with Disabilities	Academic Growth	100	School tutoring for our students in the areas of Math and ELA. Continue analysis of data.

- Describe the evidence-based resources that will be used to support student growth during the after- school program.

The district is working with the bargaining unit to determine how we will be utilizing the teachers to provide the educational program for the learning gaps. We continue to work with the special education department to provide after-school opportunities for our students with disabilities that lost time during remote settings. Our intent is to utilize our own staff when possible to allow for these programs to take place. If at anytime the LEA is not able to use their own staff, they will work with the Intermediate Unit on research-based tutoring and hotline services.

- Describe the staff that will provide the after- school program (i.e., Internal staff or outside resources).

Number of Staff Members	Internal/Outside Provider	Role
5	Internal	Serve as the tutor

a. The LEA assures it understands it is responsible to offer the work to its internal employees prior to engaging outside entities.

b. The LEA assures it understands it is responsible to ensure that all after-school program staff hold the appropriate certifications for the program that is being delivered.

5. How will the LEA assess the success of the after-school program? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
State Assessments	1 time per year	Goal: Increase in student achievement
Elementary/Middle School Level - EasyCBM	3 times per year	Increased questions answered correctly on standards from previous years.

6. How will the LEA engage families in the after-school program?

The LEA will provide communication to families in multiple forms: social media, website, calls/emails home and counselors/principals reaching out to families in need.

Section: Budget - Instruction Expenditures

Instruction Expenditures

Budget
 \$16,127.00
Allocation
 \$16,127.00

Budget Over(Under) Allocation
 \$0.00

Budget Overview

Function	Object	Amount	Description
1000 - Instruction	100 - Salaries	\$16,127.00	Members of our teacher's bargaining unit will provide after-school programs for our students who are identified as most at-risk pertaining to gaps in learning.
		\$16,127.00	

Section: Budget - Support and Non-Instructional Expenditures

Support and Non-Instructional Expenditures

Budget
\$16,127.00
Allocation
\$16,127.00

Budget Over(Under) Allocation
\$0.00
