Colorado Association for Gifted & Talented in collaboration with our affiliates Boulder Valley Gifted & Talented and Adams 12 GT Parent Group are thrilled to relaunch Family Institute with our special guest presenter, Emily Kircher-Morris!

If only raising gifted kids were as easy as everyone thinks! Parents of high-ability kids know that finding ways to coach their child to become an independent, confident, and successful young adult is harder than most people realize. This presentation focuses on helping parents find neurodiversity-affirming strategies to support their gifted sons and daughters.

Emily Kircher-Morris, LFC, is the host of The Neurodiversity Podcast which explores the psychological, educational, and social needs for enriching the lives of neurodivergent people. She is the author of several books for parents and educators related to the development of talent and how adults are neurodivergent and cognitively gifted, including *Being Your Exceptional Children: A Handbook for Parents of Neurodivergent Gifted Kids*, *A Parent's Guide to Gifted Children: A Handbook for Gifted and Talented*. She started her career in education and now works as a mental health counselor in private practice outside of CO, Utah, Missouri, specializing in supporting neurodivergent, neurodivergent, and gifted students of all ages.

## When to Keep Your Student Home

The flu season (and other nasty viruses) is upon us. Here is a quick refresher for when to keep your student home. Remember, the Colorado Department of Health is still recommending for confirmed Covid cases the student remain home for 5 days of isolation and then wear a mask for 5 days after returning to school.

BVSD is not enforcing this or following up on any reports of cases, this is just best practice. For any other illness, the policy is the same as it has always been. [Click here](#) for information on when to keep your student home.
