**Regular practice stimulates the brain's neural networks and has been shown to enhance cognitive abilities like memory, attention, and problem-solving skills. Studies have revealed that children who learn to play musical instruments tend to perform better in subjects like mathematics and language arts.**

**The process of learning an instrument is closely linked to the development of various cognitive skills. In turn, these cognitive skills translate into better grades and overall academic success.**

SOME MIGHT SAY  
THE VIOLINISTS IN  
AN ORCHESTRA  
DON'T DO MUCH.

~ They just fiddle around!

Music is my life  
and my life is music.

~ Wolfgang Amadeus Mozart

I hate it when  
I'm singing a  
song and the  
artist gets the  
words wrong.

The only  
thing better  
than singing  
is more  
singing.

Ella  
Fitzgerald

WHAT DO YOU CALL  
A FUNGUS THAT  
MAKES MUSIC?

~ A Decomposer
