

# Summer Assignments

For rising PreK 3 Students  
Episcopal Collegiate School

**Required:** Read [Hello School](#) by Priscilla Burris

## Recommended :

- Practice some personal care tasks to help your student prepare to do these things on their own. This includes blowing your nose, washing your hands, using the restroom independently.
- Practice an “unpacking” and “packing up” routine that includes putting on and taking off jackets & backpacks, opening backpacks & lunch containers, putting on and taking off shoes.
- Play school! Help your student learn that the teacher will help him know when it’s time to run or when it’s time to sit; when it’s time to be loud or when it’s time to be quiet. This will also help them learn that the teacher is there to keep them safe and help them learn.
- Enjoy meal times together. Model for your child how to sit and eat a meal without walking around. Encourage your child to use forks and spoons when appropriate and how to wipe their faces with a napkin. Practice opening lunch boxes and packaged foods.
