

Internationally Acclaimed Author **Robert Whiting** to visit **HIS**

HIS is very pleased to welcome best-selling author and journalist Robert Whiting to speak with our community about his recent work. Mr. Whiting grew up in the United States but has been based in Japan for much of his adult life and is one of the most prominent international writers living in the country. His writing typically focuses on topics related to Japanese culture, and he is an expert on this history of Japanese baseball. He will be visiting HIS as part of a broader tour (special thanks to Eric Johnston of the Japan Times for arranging this visit), and we warmly invite all members of the HIS community to come join us for his talk. Please RSVP using this link.
