## Our Learning Focus

In math, students have begun a unit focusing on equal groups. In this unit, students develop an understanding of equal groups as the foundation for multiplication and division in grade 3 and beyond. This understanding builds on students' experiences with skip counting and finding the sums of equal addends.

During our literacy block students will continue reading stories that focus on different animal habitats and the animals that live there. We will focus on summarizing, text structure, figurative language, poetry, as well as asking and answering questions. Students will then begin reading stories that focus on world cultures.
