WHAT IS A BUDGET?

A budget is a plan for financial operation embodying both an estimate of proposed expenditures for a fiscal year and the means of financing such expenditures. A properly designed budget will be "balanced" in a sense that proposed expenditures should not exceed estimated revenues plus any fund balance (if used).

The budget document then presents a financial program for the fiscal year. The care with which this program is planned and carried out influences directly the efficiency and economy of the school system. Effective budgeting is indispensable to both sound financing and intelligent operation of the school's financial program and thus directly affects the primary function of the school, i.e. education.

To summarize, this budget or plan is designed as a planning and control system. It does not stop with the passage of the budget, but continues all year long as a method to monitor the efficiency of our operations. Our goal is to safeguard your assets, run this school system as efficiently and effectively as possible, and direct as much of our resources into the classroom as possible for the benefit of our students and staff.

F U N

General Fund

The General Fund accounts for all cash and other resources except those required to be accounted for in other funds. This would include the ordinary operations of the school district, including all programs of instruction for students, maintenance of plant and facilities, administration of the District, food services, and pupil transportation. The General Fund cannot be used for those purposes for which special funds have been established except under special rules which apply to Associated Student Body expenditures and to expenditures in the Capital Projects Fund.

Transportation Vehicle Fund

The Transportation Vehicle Fund is provided to account for the reimbursement to the school district for approved transportation equipment purchases and the expenditures for pupil transportation equipment or for major repairs to the transportation equipment.

Capital Projects Fund

The Capital Projects Fund includes all monies and resources set aside for construction projects, the acquisition of land or existing buildings, construction of buildings, certain purchases of new equipment, conducting energy audits, remodeling of buildings, and the technology program. The replacement of roofs, carpets, and service systems are also included in the Capital Projects Fund. The Capital Projects Fund is usually financed form the proceeds for the sale of bonds, state matching funds, special levies, impact fees, and investment earnings of the Capital Projects Funds.

Debt Service Fund

The law provides that a fund be established in the county treasury for the redemption of outstanding bonds and the payment of interest. Disbursements are made by the County Treasurer. Provision must be made annually for the making of levy sufficient to meet payments of principal and interest. Collected levy monies are held by the County Treasurer in authorized interest earnings accounts and/or securities until bond maturity or interest payment dates.

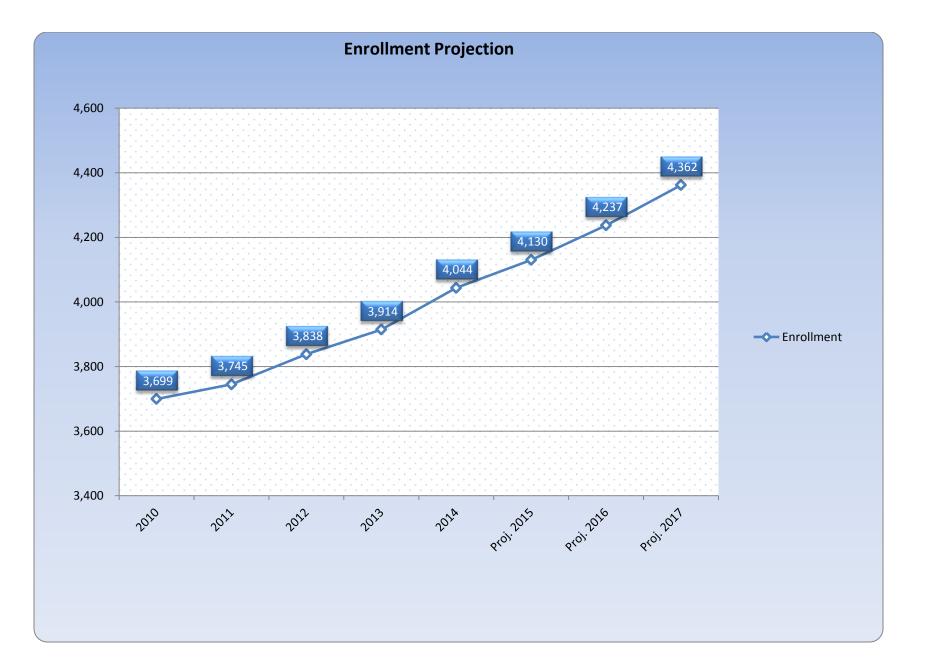

Associated Student Body Fund

The Associated Student Body Fund is financed by student body fees, activity gate receipts, and other approved student body fund-raising activities. The Board of Directors of the District review, revises, and approves a budget for the Associated Student Body.

GENERAL FUND BUDGET -- REVENUES AND OTHER FINANCING SOURCES

EXPENDITURE FORECASTING

PROGRAM/ACTIVITY/OBJECT/REVENUE SUMMARY EXPENDITURES BY PROGRAM EXPENDITURES BY ACTIVITY EXPENDITURES BY OBJECT

GENERAL FUND SUMMARY

General Fund expenditures are categorized in several ways in the Budget. These categories are defined by the State through a state accounting system to maintain consistency among the many school districts throughout the State of Washington. The school district prepares an expenditure budget on a program basis. Program budgeting allows the district to estimate the costs of instructional programs on an individual basis. The major General Fund Programs are defined below.

BASIC EDUCATION

This program covers the direct cost of basic education as defined in RCW 28A.58.750. Program expenditures include the salary and benefit costs of basic education teachers including extracurricular activities. It also includes direct costs of instruction such as library and textbooks, supplies and materials, classroom equipment and instructional materials, etc. Teaching activities include a comprehensive range of subjects that include such areas as art, music, physical education, math, and social studies. Also included here are the expenditures for principals, counselors, librarians, nurses, and building secretaries.

SPECIAL EDUCATION

This program reflects the direct costs of educating children with special needs. These costs, which are considered to be in excess of basic instruction needs, include teachers, certificated support staff (psychologists, speech therapists, etc.) and classified support staff (educational assistants, secretaries, etc.).

VOCATIONAL (CTE) INSTRUCTION

This program reflects the expenditures for career and technical education programs that are approved by the Superintendent of Public Instruction. Many programs such as business, industrial arts, agriculture, and home and family are a part of CTE education.

COMPENSATORY EDUCATION

Title I, Disadvantaged

Provides remedial assistance to educationally deprived children in the areas of reading, language arts, ESL, and mathematics.

Title II, School Improvement

Provides funding for improving student achievement through preparing, training, and recruiting high quality teachers and principals.

Learning Assistance Program (LAP)

Provides additional learning assistance to supplement those children who may not be eligible for other compensatory programs.

Transitional Bilingual (ESL)

Recorded in this program are the direct costs for the special education programs provided students who speak English as a second language.

Student Achievement

This voter approved initiative allows for reduced class sizes, professional development opportunities for staff, fulltime kindergarten, and extended learning programs for students.

OTHER INSTRUCTIONAL PROGRAMS

Highly Capable (Gifted)

This program supports those students in the highly gifted educational program.

SUPPORT SERVICES

General District Support Services

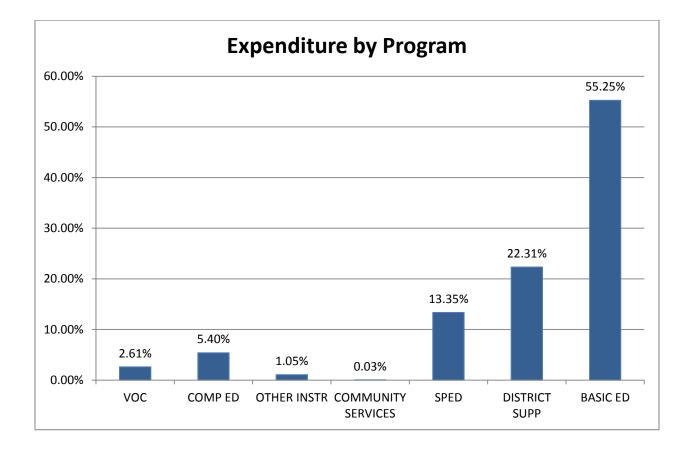

This program records expenditures to provide support for all programs of the district both instructional and noninstructional. Included within this program are expenditures for the Superintendent's office, Board, maintenance, accounting, utilities, data processing, and insurance.

Nutritional Program

This is where the costs of operating the district lunch and breakfast meal programs are recorded. It is the intent of the district that the costs of this program do not exceed the revenues generated by local sales and federal support.

Transportation

This program reflects the costs of operating and maintaining the district's pupil transportation program.
