Aware Safety & Wellness Ecosystem

Identify
Aware draws data from multiple sources to determine student wellness levels.

Analyze
You can use Securly Aware to **see** this holistic view of student wellness on an individual student level, **receive alerts**, or **investigate** broader trends.

Take Action
Once you know what students need your help, you can go further and investigate cases with Respond, or let us manage alerts for you with On-Call.

Subscription Summary

Total Students: **2,747**

Renewal: **3/14/2024**

 filter **2,700**

Deliver a safer, more educational web anywhere and on any device.

 visitor **0**

Streamline guest check-in, validate identities, and keep your campus safe.

e-hallpass **0**

Know where students are with simplified hall pass management.

Wellness

 aware **2,700**

Know which students need help now and intervene earlier.

 respond **0**

Quickly identify high-risk students and manage cases to resolution.

3.12 million

Pagescan scans daily with **185,000** of those never seen before. Average processing time: **6.96 seconds**

Constantly Innovating

A cloud-based **digital hall pass system** that helps districts and schools:

- Simplifying the hall pass request process for front desk staff, teachers, and students
- Improve safety by always knowing who has a pass and who doesn't
- Increase student engagement by reducing the use of discretionary hall passes during class
- Limit passes by student, location, and even set building-wide limits
- Quickly pull custom reports for pass takers, pass granters, and more

[LEARN MORE](#)

A **class/activity scheduling tool** that gives teachers and counselors the ability to:

- Customize class periods to support remediation, intervention, enrichment, peer tutoring, accelerated learning, and extracurriculars
- Support personalized learning by giving students "voice and choice"
- Require students to attend activities like remediation or intervention using rostering
- Integrate with SIS to track attendance

[LEARN MORE](#)

Preventative Tools: Rhithm

Rhithm

- Mitigate wellness risks by cultivating “protective factors” and support the development of healthy habits
- Teach essential wellness skills in just minutes each day that help students self-regulate and be available to learn
- Identify and address students who need support using self-reported wellness data
- Use data to inform Tier 2 and 3 MTSS interventions

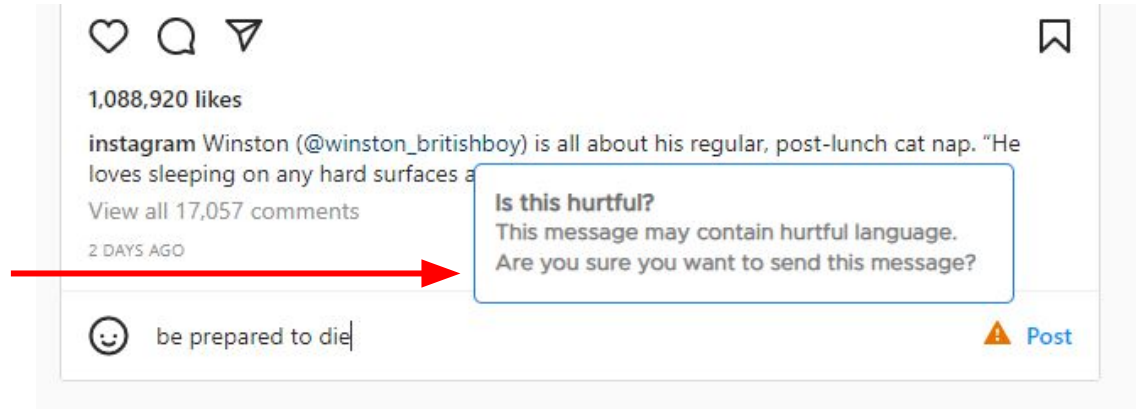

Preventative Tools: Think Twice

Think Twice Cyberbullying Detection

- Detect language that is hurtful in posts and threads as it's typed
- Automatically flag the content and prompt the student to reconsider before sending
- Stop cyberbullying before it happens

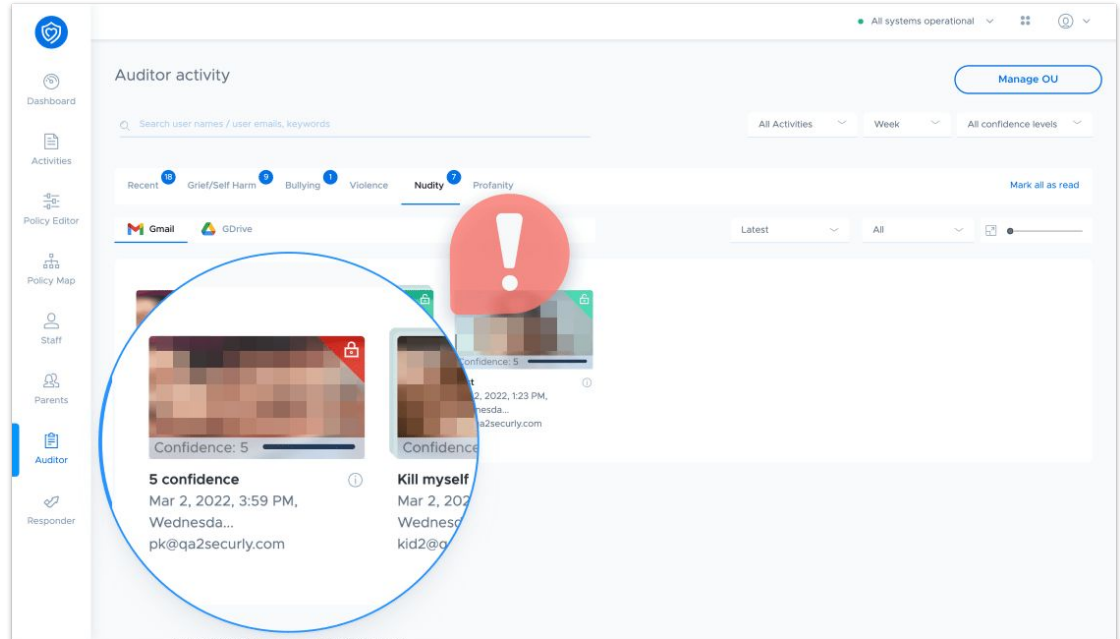

Preventative Tools: Email Recall

Recall Emails / Quarantine Images

- Automatically recall emails containing violence, bullying, or nudity
- Quarantine nude images so they don't fall into the wrong hands

Fastest Notification in Critical Situations

- On-Call expert analysts quickly and efficiently investigate Aware alerts and identify extreme student risks
- Designated personnel are notified by phone or text in an average of **5 minutes** in extreme risk situations
- Fast notifications allow you to intervene quickly—and save student lives

“When a student is in crisis, every minute matters.”

Wellness Levels

Wellness Levels

- Know how your district's or school's student wellness is trending at a glance
- Quickly identify the students who are trending negatively
- Drill down into individual student wellness levels and gain insight into contributing online activities (with Filter)
- Provide support and intervention before things get worse

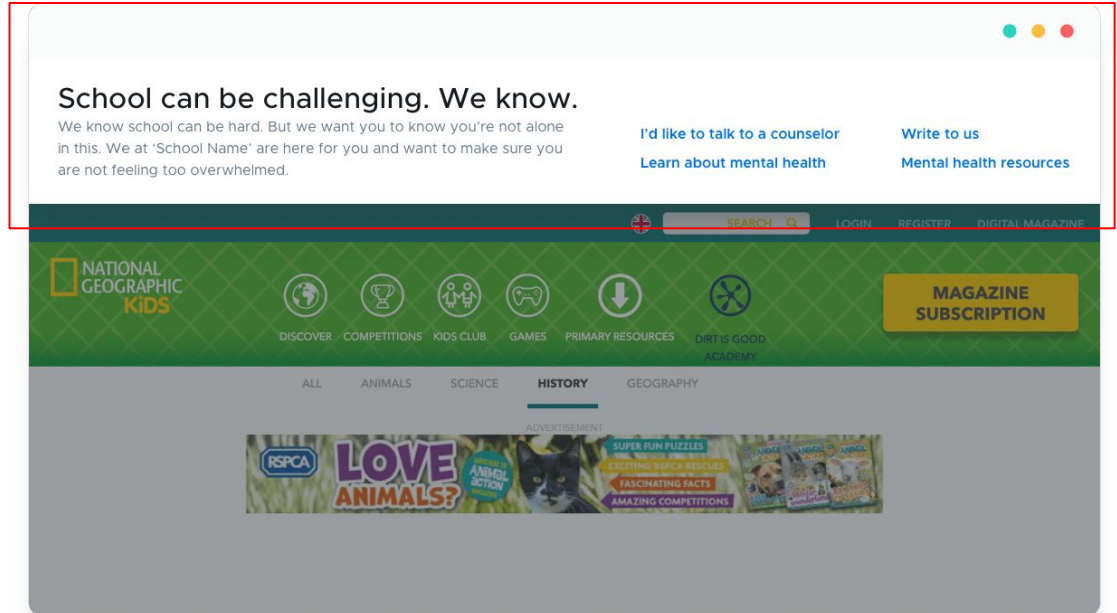

The screenshot displays the Securly Aware dashboard. At the top, it shows the Securly Aware logo and a status indicator 'All systems operational'. The main navigation sidebar includes 'Dashboard', 'Activities', 'OU Management', and 'Staff'. The 'Dashboard' section is active, showing a 'Student wellness overview' with three horizontal bars representing risk levels: Critical (6), High Risk (15), and Concerning (33). A callout box titled 'Students in Critical band' shows 'Total 6' and 'Last 7 days 6' with a 'View all' link. Below this, a filter for 'Susan Garcia' is selected, and the date range is 'Last 7 Days' (Feb 1, 2023 - Feb 7, 2023). The main content area is divided into three panels: 1. Student profile for Susan Garcia (sgarcia2024@example.com, Students-2024) with a 'Wellness status' of 'Critical'. 2. 'URLs with highest risk level' listing: 1. suicide.com, 2. gunzzz.com, 3. 365poker.com, 4. 24x7poker.com, 5. pornhub.com. 3. 'Searches/keywords with highest risk level' listing: 1. suicide by pills, 2. shootout, 3. how to die, 4. online poker, 5. porno.

Wellness Pathways Widget

Wellness Pathways Widget

- Preventatively offer resources when a student's Wellness Level worsens
- Automatically present the student with a browser message containing a customizable supportive message
- Provide the student with customizable resources to get information or help

Identify Risks in Spanish

- Aware is the **only** student safety/wellness solution able to **detect emotional sentiment in Spanish**
- Districts can now extend safeguards against self-harm, suicide, depression, violence, and bullying to Spanish EL learners
- Provide equitable safety and wellness supports for all students

Spanish-speaking students account for **7.9%** of all students enrolled in U.S. public schools, and **75.7%** of all English language learners.

**Ayudando a las escuelas a
ayudar a sus estudiantes.**

Setting the Bar on Privacy and Security

- Helping districts and schools cultivate cultures of trust and safety by:
 - Meeting or exceeding data privacy regulations
 - Encrypting all analyzed student data
 - Protecting privacy through AI analysis and quarantining of nudity (not human review)
 - Proactively investing in vulnerability identification and mitigation
- Only K-12 student safety and wellness technology provider to attain [SOC 2 Type 2 Certification](#) for its suite of solutions

Recap on how we're continuously innovating to support your student safety and wellness initiatives

Securly provides the only suite of tools that:	How this helps you:
Give you a complete and holistic picture of student wellness	Measure school climate, identify wellness trends, and proactively support students in need
Move beyond reactive tools to preventative ones	Get in front of potential problems before they become bigger issues; use automated tools to augment your student services team
Provide reliable alerts and notifies you of critical situations in <5 minutes	Streamline management for your student services staff and have peace of mind that a student who needs help will get it
Identify student safety and wellness risks in Spanish	Extend critical safeguards to your Spanish EL students and provide equitable supports
Prioritize student privacy and data security	Ensure your students' privacy is protected and personal data is secure to cultivate a culture of trust and safety

Thank you!

The background of the page is a repeating pattern of light blue line-art icons. The icons include school buildings with flags, school buses, and stylized trees, all set against a backdrop of rolling hills and clouds. The word "Appendix" is centered in a dark grey, sans-serif font.

Product

classroom

Cloud-based classroom management tool for teachers to guide, monitor, and communicate with students during class.

- Device Management Tools
 - Push resources to get students started quickly
 - Monitor students to help keep them on task
- Monitoring Tools
 - View thumbnails / full screen / tab lists
 - Close tabs
- Communication Tools
 - Communicate discreetly with students with hand raise and 2-way chat features
 - Get students' attention with classwide announcements

Get started!

Classroom Core

- View screens and tabs: thumbnail, tab, detail views
- Close tabs
- Site lock
- Screen lock
- Push URL
- Announce
- Sync with sources except Clever
- History for 14 days (sessions, students)
- Single sign-on (SSO)
- Class email summary
- Web links and collections
- Basic Windows/Mac Chrome support

Add on: Data Space
Add on: Home

Classroom Premium

Premium for Teachers:

- Teacher screen share
- Student screen share* (*coming Q1 2022*)
- Audit logging* (*coming Q1 2022*)
- Google Classroom coursework (*coming soon*)
- Hand raise
- Schedule classes
- Limit max tabs on student device
- Enhanced Windows support (*full desktop view*)
- Chat
- Multiple custom block lists

Premium for Admins:

- History for 12 months
- Lost mode
- Sync with Clever

Add on: Data Space
Add on: Home

Product

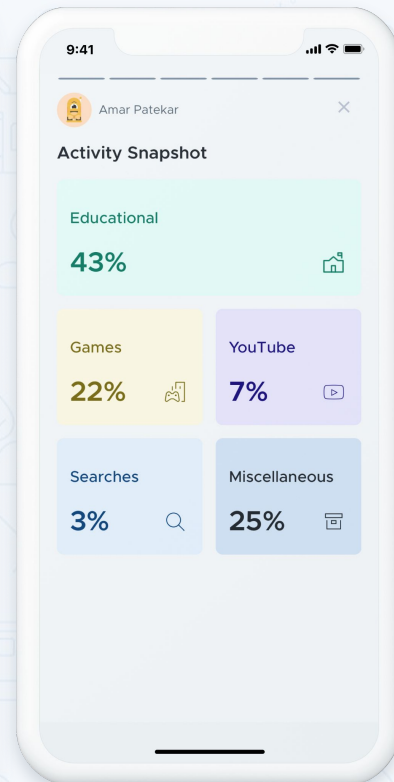

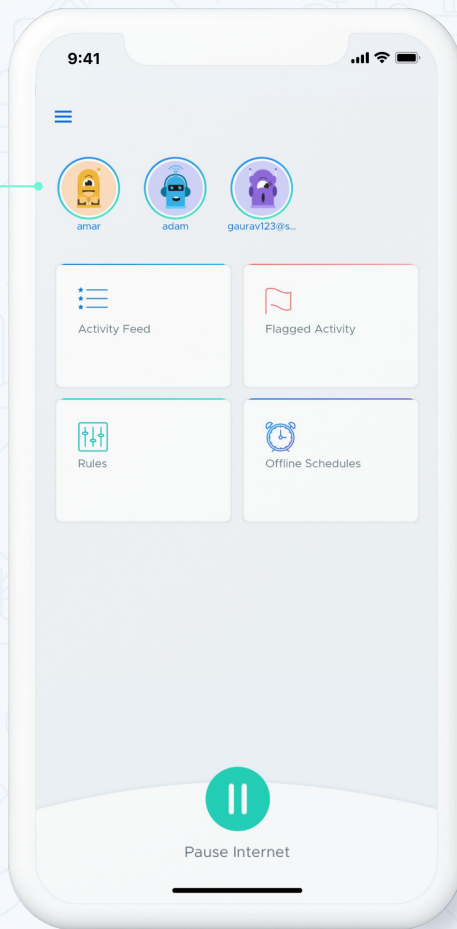

Empower and engage parents.

Home lets you customize parents' control over their child's school device so they can enforce screen time and activity limits.

- Ability to pause the internet and schedule offline times
- Real-time reporting and push notifications
- Ability to customize rules for individual children
- Weekly email reports

Product

24/7 AI scanning and human analysis of flagged notifications.

24 uses a sophisticated AI-powered sentiment engine to identify signs of self-harm, violence and bullying. Web traffic and searches are scanned, as well as emails and social media posts.

Flagged results are sent to Securly's highly trained analysts for review in context of the student's complete digital engagement to determine severity, then alert district staff based on your policy.

Get started!

Product

visitor

Instant identity checks for on-campus visitors.

Visitor lets you instantly know every person that visits, and alerts authorities when a visitor is flagged during an identity check.

- Visitor sign in and identity checks
- Visitor transparency
- Health screening questionnaires
- Badges and reports
- Alerting
