

8 May 2024

Dear OIS Community,

As previously communicated, starting Monday 13 May, the bus road at OIS will be closed until November 2024, necessitating a change in the OIS bus drop-off and pick-up locations to Nadderudhallen. Staff have been coordinating these changes, and younger students have already practiced walking to and from the new route to better ensure a smooth transition next week.

Due to the closure, the road around OIS has been converted to a two-lane road. A new traffic circle near the skate park will be operational beginning Monday, following the long weekend, facilitating safer and more convenient turnarounds.

When driving to school for drop-off or pick-up, please note the following essential details to ensure safety and efficiency:

- Always keep to the right side of the road to adjust to the new two-way traffic setup.
- Drop off children only after using the traffic circle to turn your car around. The drop-zone will be marked with mobile poster boards (cars must not be left unattended here).
- Yield to pedestrians at crosswalks and be extra cautious during the busy drop-off and pick-up times, as the area may be crowded.
- If you need to park your car to drop off children, please use a marked parking space or the newly created OIS parking lot.

Changes like these require patience and ongoing evaluation. Consider allowing a few extra minutes on Monday morning to accommodate the adjustments. We will continue to monitor and refine these protocols, prioritizing safety and efficiency at all times.
