Concern	Suggestions for Success
School policies discourage parent involvement/ parents coming for lunch	-We would love to hear suggestions that align to the safety and security protocols that we need to follow to increase parent involvement.
More Stem options	-We are adding a Stem class for 3-5 where they will be able to do robotics in our Robotic lab. -K-2 will continue to have STREAM.
More Information on how things work.	-We have been adding videos to our parent messages so let us know how we can help.
Parents wanting Services for Scholars	-If you are struggling to get resources for your child, please do not hesitate to call administration. We will ensure that you get in contact with the individuals that can best support you.
Would like 6th grade back into the elementary school and cheaper afterschool programs.	-We will provide the district these concerns so they can look at possible options.
Dreams program and Enrichment	-Our scholars are doing a lot of enrichment activities. We will work to showcase these activities in our Friday updates.
