### SALMON!

How lucky are we to be able to partner with such incredible people?! Colette Nelson not only spent her own time and money to bring us Salmon Day but she also got local fisherman to DONATE fresh Coho Salmon for our K5 students (and staff) to have on May 15<sup>th</sup>. She taught a lesson to our K5 classes the week prior about the Salmon Life Cycle and brought in volunteers during lunch to talk about Local Fish!

The Salmon was so popular that it even beat out our Pizza Day in terms of how many students bought lunch. What a delicious meal and fun event!

In this issue:

**Salmon Day!**

**Lunch Hero Day**

**Farm Produce Final Count**

**Discovery Kitchen and Mood Boost**

# Lunch Hero Day

I have had the incredible honor of working with these amazing people this last year. Patti, Shawna, Michelle, Allison and Rob are here early in the morning to prep and serve our students and on May 3<sup>rd</sup> we honored them. Thank you for all your dedication to our kids and the district.

## Farm Produce

What a fabulous year for fresh farm produce! We were lucky enough to get over 500 lbs of produce from our very own School Garden including Lettuce, Carrots, Turnips, Beets, Radishes, Potatoes, Cucumbers, Zucchini, Basil, Garlic, Mint, Rosemary, Chard, Spinach, Peppers, Tomatoes, Kale, Scallions and Bok Choy!

We look forward to beating this total next year!

## Discovery KITCHEN

This month's theme is Summer Fun. Both Campus' will have Cheeseburgers and Hot Dogs offered this month as well as Watermelon and Potato Salad made from scratch. Bring on the Sun!

# MOOD BOOST
