## Student Learning Objectives

---

The students will:

Ask and answer questions in a whole class and small group setting regarding calendar vocabulary including the date, classes, and month.

Recall and list the days of the week, months of the year, and seasons using a song or chant.

Interpret a foreign language calendar to answer oral and written questions about yesterday, today, and tomorrow.

Demonstrate comprehension of oral and written directions by pointing to the correct day or month on a foreign

language calendar.

Identify weather expressions and describe the weather.

Describe the weather in different months throughout the world orally or in writing.

Describe and compare/contrast the current weather in various parts of the world using online resources.

Create and present a 5-day weather forecast for the upcoming week for any part of the world in cooperative groups.

## **Instructional Activities**

---

Recall vocabulary of calendar topics including days of the week, months of the year, seasons, and the concepts of today/yesterday/tomorrow through charts, calendar displays, graphs, felt boards, and other realia.

Identify weather expressions through TPR, flashcards, google images pictures, smart board matching activities, etc.

After reviewing seasonal differences in the hemispheres, have students describe the weather in different months in different areas of the world using a teacher created worksheet, a whole-class sorting activity (smart board or paper), or illustrations.

Have students ask and answer simple questions about calendar and weather related topics in pairs/popcorn activity/round-robin, etc. such as ¿Qué día es hoy? ¿Si hoy es lunes, qué día es mañana? ¿Qué tiempo hace hoy? ¿Qué tiempo hace en México?, etc.

Review days of the week/months of the year/season songs to memorize correct order.

Visit online websites to view current conditions around the world and describe what you see using unit vocabulary in a whole-class or small group activity.

Create, illustrate, label, and present a 5-day weather forecast for the upcoming week in a city around the world as a cooperative activity.

## **Interdisciplinary Connections**

---

Math: Measurement of time around the world, Reading and interpreting a chart

Geography: Season changes in different hemispheres

## **Texts and Resources**
