SCHOOL BUS SAFETY PROGRAM

The following is to be used as the evaluation procedure regarding student transportation.

1. Several administrators (at random) periodically will ride certain bus runs and report their findings to the Director of Administration.
2. Spot checks of all buses are to be made throughout the year by the bus contractor, director of safety, and manager of business affairs.
3. All school administrators will report immediately to the Director of Administration any school bus violations observed by them.
