

HOME USE OF LAPTOP COMPUTERS AND OTHER SCHOOL-OWNED TECHNOLOGY

The Cohasset School Committee believes in the power of technology and the positive impact it can have on teaching and learning. In keeping with this philosophy, the Cohasset School Committee allows and encourages faculty and administrators to use technology to enhance the educational experience. To facilitate teacher and administrator use of technology, Cohasset Public Schools may allow faculty and administrators to borrow district-issued laptop computers and other school-owned technology as applicable for home use related to educational purposes.

In order to protect Cohasset Public Schools' investment in information technologies, the Superintendent of Schools is directed to develop regulations governing the Home Use of Laptop Computers and Other School-Owned Technology. Those regulations may be amended periodically as development in technology occurs and the implementation of this policy may warrant.

All other conditions of the Cohasset Public Schools Internet Acceptable Use Policy (EDCA-C) apply to the use of staff assigned computers and technology.

The purpose of this policy is to protect the investment the District has made in information technologies while helping to ensure a reliable and safe computing environment for all.

Adopted: June 2016
