

ANNUAL BUDGET

The annual budget is the financial expression of the educational program of the school department, and it mirrors the problems and difficulties that confront the school system.

The budget then is more than just a financial instrument and requires on the part of the Committee, the staff, and the community orderly and cooperative effort to ensure sound fiscal practices for achieving the educational goals and objectives of the school system.

Public school budgeting is regulated and controlled by legislation, state regulations, and local School Committee requirements. The operating budget for the school system will be prepared and presented in line with state policy and will be developed and refined in accordance with these same requirements.

The Superintendent will serve as budget officer but he/she may delegate portions of this responsibility to members of his/her staff as he/she deems appropriate. The three general areas of responsibility for the Superintendent as budget officer will be budget preparation, budget presentation, and budget administration.

The Superintendent will provide such enrollment projections and other key information to enable the School Committee to make comparisons with past budgets, estimate future budgets and establish priorities.

The budget will contain an estimate of the revenue anticipated (by source) for the budget period and a computation of the appropriation required to fund the budget.
