LOCATION: Online Self-Paced

- Δ Do your students have what it takes to reach their postsecondary goals?
- Δ Do you really know what skills your students need to reach their postsecondary goals?
- Δ Are you confident the plan will support the attainment of their postsecondary goals?
- Δ Are you ready to transform your transition-focused Individualized Education Programs (IEPs)?

The EDSE 513: Developing Aligned Purposeful Transition-Focused IEPs course guides educators through the development of quality transition-focused IEPs that align with the student's plans for their postsecondary life, meet legislative requirements, and verify educational benefit. This course incorporates a variety of tools and resources to assist educators.
