BOARD MEMBER AUTHORITY

As members of an instrumentality created by the state, county and City Board members are officers of the state, but they have local jurisdiction. The Board is the agency through which the city acts in regard to school matters. Board Members have authority only when functioning as a body or group in a legally called regular or special meeting. The powers of the Board are delegated only to the Board as a body. No authority is granted to members acting as individuals.

The School District derives its legal status from the State Legislature which, in turn, is subject to the Constitution of both the State of Alabama and the United States. Authority of the State Legislature is specified in Amendment III to the Alabama Constitution of 1901 which states, "...The Legislature may by law provide for or authorize the establishment and operation of schools by such persons, agencies or municipalities, at such places, and upon such conditions as it may prescribe..."

The School District is under the exclusive control and management of the Board of Education, a body duly authorized by the State Legislature. School Districts must operate in accordance with all applicable constitutional and statutory provisions and requirements of the State of Alabama and the United States. The School District is subject to legislative action and acts of the State.

The powers and duties vested in the Board may only be exercised by action of the Board as a whole at duly called and organized meetings. In this respect, no motion or resolution shall be declared adopted without the recommendation of the Superintendent and concurrence of the majority of the whole Board.

OPT-IN FOR MENTAL HEALTH SERVICES BY PARENT OR LEGAL GUARDIAN

All students enrolled at Oxford City Schools will be supported through the guidance departments at their school. Programs will be aligned with the state approved course of study. Services outside of the scope of the state approved course of study will require parent permission for a student to participate if they are under the age of fourteen. Mental health services may be used in the instance of imminent threat (see below for definition) to the health of the student or others, without parent permission.

For purposes of this policy, “mental health services” includes services, treatment, surveys, or assessments relating to mental health; however, it does not include instructional activities designed to educate students regarding topics related to mental health (1) contained in the school system’s approved curriculum or (2) otherwise required to be taught by law (e.g., Erin’s Law; Jason Flatt Act).

This policy is not applicable to any school counseling services or “mental health services” contained in a student’s PST, IEP, or §504 plan. Consent for those services will be obtained in accordance with the specific procedures required by federal and/or state law, and information regarding any mental health services will be provided in the pertinent plan.

The notification will include the purpose and general description of each of the services available; information regarding ways parents may review materials to be used in guidance and counseling programs available to students; and information regarding ways parents may allow, limit, or prevent their student’s participation in the programs.

The written notification may be provided electronically, including through the school system’s online enrollment portal or by such other means and methods as are customarily used for such purposes.

B. Opt-In To Participate in Mental Health Services

1. *General Requirement* – For a student under the age of fourteen to participate in mental health services, written permission by the student’s parent or legal guardian is required annually. The written permission must be specific as to any treatment and not broad in nature. Parents and legal guardians may be provided the opportunity to opt-in electronically during online enrollment or by such other means and methods as are customarily used for such purposes.
2. *Rescinding Permission* – A parent or guardian may rescind permission for a student to participate in mental health services at any time by providing written notice to school administration.

3. *Requests for Opt-In and Referrals Authorized* – If a parent or legal guardian does not initially opt-in to mental health services, school officials may contact the parent or legal guardian to (1) attempt to obtain permission for the student to participate in mental health services if the school official believes that the student would benefit from services or if circumstance arise for which services could be beneficial; and/or (2) provide a parent or legal guardian with a referral or information regarding mental health services that may be available to a student through other agencies or providers.
 4. *Exception for Imminent Threat* – If a parent or legal guardian has not opted-in to mental health services, a student may be provided mental health services if there is an imminent threat to the health of the student or others. School employees may determine in their discretion whether such an imminent threat exists and provide any mental health services they deem necessary under the circumstances.
- C. **Information for Parents/Legal Guardians** – If a student’s parent or legal guardian elects to opt-in to mental health services, the counselor providing services shall keep the parent fully informed regarding any diagnosis and any recommendations for additional counseling or treatments beyond the services for which the parent or legal guardian has already opted in. TUITION-BASED NON-RESIDENT ENROLLMENT

A “tuition-based non-resident student” is a student who is not a bona fide resident of the City of Oxford, but who applies and is accepted for admission to Oxford City Schools based on criteria established by the Oxford City Board of Education (“Board”) and/or the Superintendent.

Each year, the Superintendent will determine which program(s) (e.g., Global Scholars Academy [IB Candidacy]), school(s), or grade(s) are accepting applications for enrollment of tuition-based non-resident students based on space availability, available resources, or other similar criteria designed to serve the best interests of Oxford City Schools.

1. *Criteria for Admission and Continued Enrollment:* To be admitted and remain enrolled as a tuition-based non-resident student, applicants must meet these requirements:
 - a. Meet all eligibility criteria for admission and the program in question;
 - b. Complete all applications and provide all required paperwork as established by the Superintendent or the program in question;
 - c. Be in good standing academically and behaviorally with regular and prompt attendance from their previous school/schools;
 - d. Reside with their parent(s) or legal guardian who has the legal primary/physical custody or control of the student. Such residence must be within a reasonable commuting distance of Oxford City Schools;
 - e. Agree to be responsible for transportation to and from school as transportation services are not provided out-of-district;
 - f. Meet all tuition payment requirements and deadlines;
 - g. Maintain good academic standing, a good disciplinary record, be in regular and prompt attendance, and continue to meet any requirements for the program in question during the student’s period of admission to Oxford City Schools as determined by the Superintendent or his/her designee;
 - h. Comply with the Oxford City Board of Education’s Code of Student Conduct and any other applicable standards for students generally.

Admission of a tuition-based non-resident student is also subject to space availability in the school, grade, and/or program in question and a determination that the student's enrollment will not materially affect the quality of education afforded to children who are bona fide residents of the City of Oxford.

Tuition-based non-resident students must reapply for admission each school year. Admission is not guaranteed in subsequent school years.

- II. *Admission Determination:* The Superintendent or his/her designee will determine whether applicants meet the above criteria for admission. The Superintendent or his/her designee may also deny admission to an applicant if, in his/her judgment, the student's admission would result in overcrowding, would require services or resources that exceed the capacity of the system, or would compromise the system's ability to serve resident students.

If accepted, the school assignment of the tuition-based non-resident student will be determined by the Superintendent or his/her designee, and this decision will be final.

- III. *Tuition:* Tuition amounts and payment terms will be set yearly by the Superintendent and Board. Failure to pay tuition in a timely manner may result in a student's acceptance, admission, or enrollment being revoked.
- IV. *Review and Revocation or Admission:* A tuition-based non-resident student's admission and enrollment is subject to review and possible revocation at the end of each grading period or at any time the Superintendent or his/her designee deems appropriate. The Superintendent may revoke the enrollment of a non-resident student if, in his/her judgment, the student no longer meets the criteria for admission (e.g., disciplinary or attendance issues; failure to pay tuition; failure to remain in good academic standing, etc.). There is no appeal process; the decision of the Superintendent is final.
- V. *Grandfathering of Admitted Students:* If the Board stops accepting tuition-based non-resident students, such students who are currently enrolled shall be deemed to be "grandfathered" in for purposes of enrollment, but must continue to apply for admission and pay tuition year to year under such terms and conditions established by the Superintendent or his/her designee. The decision whether to approve the student's admission shall be made by the Superintendent or his/her designee, whose decision shall be final.
- VI. *Procedures:* The Superintendent may develop and implement any procedures he or she considers necessary to implement this policy, including a procedure for making admissions determinations if the number of qualified applicants exceeds available space.

SEARCHES AND INTERVIEWS

Search of Property

Desks, lockers, and other equipment at any school belong to the System. Any school property may be entered and searched by school officials whenever there is reasonable suspicion that some substance or material is contained therein which is illegal, harmful to the safety of students, or significantly disruptive to the overall discipline of the school. Law enforcement agencies are allowed to make periodic visits, unannounced to anyone except the local Superintendent and building principal, to any local school for the purpose of detecting the presence of illegal drugs. Further, school property may be examined by the school officials for other justifiable reasons. In addition, student's property such as knapsacks, handbags, automobiles, etc., may be entered and searched by school officials whenever there is reasonable suspicion that some substance or material which is illegal, harmful to the safety of students, or significantly disruptive to the overall discipline of the school is contained therein. Any items which are specifically prohibited by law or by Board policy may be impounded by school officials. Such prohibited items shall include, but not be limited to, the following: (1) knives of any size or type, including pocket knives, (2) other weapons, (3) tobacco, (4) drugs or drug paraphernalia of any sort, (5) alcoholic beverages, (6) pornographic material, (7) banned electronic devices, and (8) property that is alleged to belong to another party.

Search of a Student's Person

It is not considered a search of a student's person when school personnel check coats, jackets, and other outerwear, shirt and pants pockets, purses and wallets, shoes, caps and hats, and other such items. An appropriate law enforcement officer may be called to conduct the search of a student's person when an administrator has reasonable suspicion that the student is in possession of contraband or other items harmful to the health and safety of students and staff. The search shall be conducted in private by the police officer and in the presence of a school administrator or by a school administrator with another school employee present. Should items which are illegal or contrary to Board policy be found, the Board's discipline process will be followed.

Interviews of Students by Law Enforcement Officials

It shall be the policy of the Board to fully cooperate with law enforcement agencies in the interest of the welfare of all citizens. At the same time, schools have the responsibility to parents for the welfare of the students while they are in the care of the school. A student in school may be interviewed by a law enforcement authority under the following guidelines:

1. Only with the knowledge of an appropriate school official and in a private location;
2. If the interview involves a school-related issue, the principal or principal's designee may allow the interview to proceed without first notifying the parent or legal guardian. Such a decision is to be based on the facts surrounding the situation.
3. If the interview is in regard to a nonschool-related issue, the principal or principal's designee is to first determine from the law enforcement authority the necessity of said interview to take place at school.
4. If it is determined that there is indeed a compelling reason for such an interview, the school official is to attempt to contact the parent/legal guardian to see if they wish to be present for the interview.
5. If the parent cannot be reached or cannot come to the interview in a reasonable length of time, the school official may allow the interview to proceed if the student agrees to be interviewed. In the latter case the school official will sit in the interview with the student and law enforcement authority.
6. If, in the judgment of the law enforcement authority and school official, a delay in the interview represents a grave and imminent threat to the life, safety, and welfare of an individual(s) or property, the interview may be allowed prior to parent/legal guardian contact.
7. In cases that fit above items 2. and 6., parents will be notified of the interview as soon as practicable after the interview.
8. A parent or legal guardian will not be contacted and will not be present if the interview is conducted in connection with suspected child abuse or child neglect involving the parent or legal guardian. A school official may be present in such interviews if requested by the student or the law enforcement or DHR official.
9. A student may not be released into the custody of persons other than parent or legal guardian, unless placed under arrest or officially taken into custody by legal authority.
10. If a student is removed from the school by legal authority, parents shall be notified of this action by school officials as soon as possible unless directed not to notify parents by the legal authority.

OXFORD CITY SCHOOLS SERVICE ANIMALS IN THE SCHOOL DISTRICT

PURPOSE

The purpose of this policy is to establish procedures for the use of service animals in the Oxford City School System, including school buildings, vehicles and other property.

GENERAL STATEMENT OF POLICY

Oxford City Schools will comply with all state and federal laws, regulations and rules regarding the use of service animals by disabled staff or students under appropriate circumstances.

DEFINITION OF SERVICE ANIMAL

This policy applies to any dog that is individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability. Other species of animals, whether wild or domestic, trained or untrained, are not service animals for the purposes of this definition. The work or tasks performed by a service animal must be directly related to the handler's disability. Examples of work or tasks include, but are not limited to, assisting individuals who are blind or have low vision with navigation and other tasks, alerting individuals who are deaf or hard of hearing to the presence of people or sounds, providing non-violent protection or rescue work, pulling a wheelchair, assisting an individual during a seizure, alerting individuals to the presence of allergens, retrieving items such as medicine or the telephone, providing physical support and assistance with balance and stability to individuals with mobility disabilities, and helping persons with psychiatric and neurological disabilities by preventing or interrupting impulsive or destructive behaviors. The crime deterrent effect of an animal's presence and the provision of emotional support, well-being, comfort, or companionship do not constitute work or tasks for purposes of this definition.

Additional options, qualifications, modifications, and requirements may be reviewed in the A.D.A. Title II regulations at 28 §35.136(i).

Service animals do not include wild animals (including nonhuman primates born in captivity), reptiles, rabbits, farm animals (including any breed of pig or goat), ferrets, amphibians and rodents. Animals whose sole function is to provide emotional support, comfort, therapy, companionship or therapeutic benefits or to promote emotional well-being are not service animals.

PROCEDURES/REQUIREMENTS

Use of service animals by employees or students with a disability is subject to the following procedures and requirements:

- 1, Individuals must submit a request in writing that the Oxford City Schools allow a service animal to accompany him/her to school or work. Such request must identify whether the animal is required because of a disability and what work or task the animal has been trained to perform that is directly related to the individual's disability.
2. Requests for the use of service animals on Oxford City Schools property must, whenever possible, be made no less than three (3) weeks prior to the proposed use of the service animal. Under no circumstances may a service animal be on Oxford City Schools property without prior approval by the Superintendent or his/her designee.
3. As part of Oxford City Schools' consideration of a request to allow an individual with a disability to bring a service animal, Oxford City Schools will require certain documentation to be provided by the staff person or student making the request to bring the service animal, including, at a minimum:
 - a. Current certification of proper and up-to-date vaccinations and good health verified by a veterinarian;
 - b. Adequate documentation to support that the requesting individual has a disability; and
 - c. Documentation adequate liability insurance to cover any damage done by the service animal while on school property.
4. The Oxford City Schools' determination with respect to a request to allow a student with a disability to bring a service animal to school will be made by the student's IEP or 504 Team. In such cases, the Team will conduct a case-specific inquiry as to whether the service animal meets the definition of "service animal" and whether the service animal performs a task that is directly related to the student's disability. In addition, the Team will determine whether the presence of the service animal will pose a direct threat to the health or safety of others that cannot be reasonably mitigated and whether its presence will result in a fundamental alteration of the school's program or activity. Also relevant to the Team's decision will be whether the service animal is under the handler's control and is housebroken.

If it is determined that the student will not be allowed to bring the animal to school because, for example, it does not meet the definition of “service animal” or its presence will pose a direct threat to the health or safety of others that cannot be reasonably mitigated, but the parent/guardian of the student argues that the student needs the service animal in order to receive a free appropriate public education (FAPE), the IEP/504 Team will determine whether the animal’s presence is necessary for the student to receive FAPE or to equally access the educational environment.

5. The use of a service animal on Oxford City Schools property may be subject to a plan which introduces the service animal to the school environment, any appropriate training for staff and students regarding interaction with the service animal, and other activities or conditions deemed necessary by Oxford City Schools. The approval of the use of a service animal on Oxford City Schools property is subject to periodic review, revision or revocation by Oxford City Schools administration.
6. Service animals must wear proper identification and always be on a leash or other form of restraint mechanism. It is the responsibility of the employee or student (parent) who uses a service animal pursuant to this Policy to be the certified handler, providing proper handling of the service animal. In the case that the certified handler will not be with the service animal at school, identified staff must be trained to give commands to the service animal. Any cost incurred to handle the service animal will be the responsibility of the employee or parent of the student who uses the service animal.
7. Service animals are not allowed in school district transportation vehicles.
8. Oxford City Schools retains discretion to exclude or remove a service animal from its property if:
 - a. the animal is out of control and/or the animal’s handler does not effectively control the animal’s behavior;
 - b. the animal is not housebroken or the animal’s presence or behavior fundamentally interferes in the functions of Oxford City Schools; or
 - c. the animal poses a direct threat to the health or safety of others that cannot be eliminated by reasonable modifications.
9. The employee or student/parent is liable for any damage to Oxford City Schools personal property and any injuries to individuals caused by their service animal. The employee or student/parent who uses a service animal on school property will hold Oxford City Schools harmless and indemnify the System from any such damages. Further, the employee, student/parent will be required to submit a certificate of liability insurance covering the service

animal and identifying Oxford City Schools as an additional insured. The amount of required insurance coverage shall be determined by Oxford City Schools.

COMMUNICABLE DISEASES

The current Regulations for the Control of Communicable Disease in the public schools as recommended by the Board of Health will be observed. The School System will work cooperatively with local and State health agencies to enforce and comply with applicable health codes for the prevention, control and containment of communicable disease in schools.

1. It is the intent of the Oxford City Board of Education, in cooperation with County and State agencies, to carry out laws and regulations designed to protect and promote the health, safety, and general welfare of school children and Board employees.
2. Regarding communicable/infectious diseases or conditions, students and/or employees having communicable diseases, including students wishing to enroll or potential employees, will be dealt with on an individual basis. Administrators and supervisors shall observe current Regulations for the Control of Communicable Diseases in the schools of the District as required by the State Board of Health. The Health Services Nurse will maintain liaison with the State Board of Health and support the processing of cases.
3. The Superintendent will direct the preparation of procedures for processing cases. The following procedures will incorporate considerations of confidentiality:
 - a. Communicable disease cases will be reported to the Board of Health, as required by State law.
 - b. Students are excluded from school based on the Regulations for the Control of Communicable Disease, SS Guide 1. Students excluded from school for communicable conditions shall be admitted back to school through the principal with the required medical statement.
 - c. In keeping with the law, and as approved by the Board of Health, principals shall report immediately by telephone to the Health Services Department the following diseases:
 - Hepatitis
 - Measles (Rubella)
 - Meningitis, Meningococci
 - Rubella (German Measles)
 - Salmonellosis
 - Whooping Cough (Pertussis)

4. Certification of Immunization

A certificate of immunization against diseases designated by the State health officer shall be required before a student can be enrolled initially in the schools of the Oxford City School System. This requirement also applies to any new student transferring into the school system (Alabama Code of 1975, Section 16-30-4).

5. Authority to Alter the Educational Placement of Students

The Superintendent shall have the authority to alter educational placement of any student with a communicable disease* or parasite considered to be a health threat to the school population. The educational placement of such a student may be changed for a period of time as prescribed by the local health department, school nurse or a physician. The standards in *School Board of Nassau County, Florida vs. Arline (1987)* will be considered. In all cases, a statement of clearance from the Department of Health or a physician shall be required before the student may re-enter school. The IEP can change placement of Special Education students. The Evaluating Committee for 504 students can change placement for 504 students. The Superintendent can change placement of regular students using proper procedures. Re-evaluation of students may be requested at any time as may expedite evaluation.

A student with common communicable or contagious diseases, i.e., mumps, measles, or other like diseases, shall be ineligible to attend school in the School System for a period of time as may be prescribed by the local Health Department or a physician. When necessary, a statement of clearance from the Department of Health or physician shall be required before the student may re-enter a school of the School System.

The authority to suspend students is in,

“The county or city board of education, upon receipt of a report from the medical officer, may suspend said child from attendance of any public school if said medical examiner is of the opinion that said communicable or contagious disease or any other disease will endanger the health of the child attending said school.

The ruling of said city or county board is subject to review before the state board and a three-man panel of medical examiners appointed by said board.

Said child may be suspended for so long as said contagious or communicable disease or diseases enumerated above exist, or

endanger the pupils attending said school, within the discretion of the examining authorities and boards before mentioned. (School Code 1927, Section 619; Code 1940, T. 52, Section 553; Acts 1965, 3rd Ex. Sess., No. 53, p. 264)." (Alabama Code of 1975, Section 16-29-1)

Students with chronic contagious disease may or may not be eligible under the IDEA. Such a student will be eligible for services as "other health impaired" (34 C.F.R. Sec. 3000.7(b)(8)). Only if the disease limits the student's strength, vitality or alertness and adversely affects his or her educational performance. However, when a progressive disease is at issue, a student who was ineligible at one point may become eligible at a later point. However, a student with a chronic contagious disease generally will be eligible for the anti-discrimination protection and entitlement to accommodations provided under Section 504 or ADA. Both these laws cover students who have, have a record of having, or are regarded as having a condition, infectious or not, that substantially limits one or more major life activities.

6. Due Process for Students

When reliable evidence or information from a qualified source confirms that a student has been identified as having a communicable disease* or infection, the decision as to whether the affected student will remain in the regular school setting will be addressed on a case-by-case basis.

If the above individual is a student who has been determined to be disabled pursuant to the administrative rules for special education, or is suspected of being physically disabled or otherwise health impaired, the regulations for special education and other disabled students will be followed. The IEP and 504 Placement Plan will apply where appropriate.

7. Procedures for Handling Blood and Body Fluids

Irrespective of the disease presence, routine procedures shall be used and adequate sanitation facilities will be available for handling blood and body fluids within the school setting. School personnel will be trained in the proper procedures for handling blood and body fluids and these procedures will be strictly adhered to by all school personnel. (Routine and Standard Procedures for Sanitation and Hygiene Handling Body Fluids 7 GAMMA-R2.)

8. Confidential Information

All persons privileged with any medical information that pertains to students shall be required to treat all proceedings, discussions, and documents as

confidential information, except as such information may be necessary to assist with the review panel process. Breach of confidentiality by a staff member may be considered as other good and just cause for dismissal. Before any medical information is shared with anyone in the community or school setting, a "Need to Know" determination shall be made as part of the review panel process. Any information to be released, as determined by the "Need to Know" review, will come from the Superintendent or designee.

9. Instructions Regarding Communicable Diseases

Instruction on the principal modes by which communicable diseases, including but not limited to Acquired Immunodeficiency Syndrome (AIDS), are spread and the best methods for restriction and prevention of these diseases shall be taught to students.

LEGAL REF.: *Alabama Code of 1975*, Section 16-29-1; 16-30-1 to 16-30-5.

HIV INFECTION – ACQUIRED IMMUNE DEFICIENCY SYNDROME (AIDS)

The school system shall strive to protect the safety and health of children and youth in our care, as well as their families, our employees, and the general public. Staff members shall cooperate with public health authorities to promote these goals.

The Board authorizes the Superintendent to establish procedures to enforce and comply with applicable health codes for the prevention, control and containment of communicable disease in schools.

The evidence is overwhelming that the risk of transmitting human immunodeficiency virus (HIV) is extremely low in school settings when current guidelines are followed. The presence of a person living with HIV infection or diagnosed with Acquired Immune Deficiency Syndrome (AIDS) poses no significant risk to others in school, day care, or school athletic settings.

1. School Attendance

A student with HIV infection has the same right to attend school and receive services as any other student, and will be subject to the same rules and policies. HIV infection shall not factor into decisions concerning class assignments, privileges, or participation in any school-sponsored activity.

School authorities will determine the educational placement of a student known to be infected with HIV on a case-by-case basis by following established policies and procedures for students with chronic health problems or students with disabilities. Decision-makers must consult with the student's physician and /or parent or guardian, respect the student's and family's privacy rights and reassess the placement if there is a change in the student's need for accommodations or services.

School staff members will always strive to maintain a respectful school climate and not allow physical or verbal harassment of any individual or group by another individual or group. This includes taunts directed against a person living with HIV infection, a person perceived as having HIV infection, or a person associated with someone with HIV infection.

2. Privacy

Pupils or staff members are not required to disclose HIV infection status to anyone in the education system. HIV antibody testing is not required for any purpose.

Every employee has a duty to treat as highly confidential any knowledge or speculation concerning the HIV status of a student or other staff member. Violation of medical privacy is cause for disciplinary action, criminal prosecution, and/or personal liability for a civil suit.

No information regarding a person's HIV status will be divulged to any individual or organization without a court order or the informed, written, signed, and dated consent of the person with HIV infection (or the parent or guardian of a legal minor). The written consent must specify the name of the recipient of the information and the purpose for disclosure.

All health records, notes, and other documents that reference a person's HIV status will be kept strictly confidential. Access to these confidential records is limited to those named in written permission from the person (or parent or guardian) and to emergency medical personnel. Information regarding HIV status will not be added to a student's permanent educational or health record without written consent.

3. Infection Control

All employees are required to consistently follow infection control guidelines in all settings and at all times, including playgrounds and school buses. Schools will operate according to the standards promulgated by the U.S. Occupational Health and Safety Administration for the prevention of blood-borne infections. Equipment and supplies needed to apply the infection control guidelines will be maintained and kept reasonably accessible.

4. HIV and Athletics

The privilege of participating in physical education classes, athletic programs, competitive sports, and recess is not conditional on a person's HIV status. School authorities will make reasonable accommodations to allow students living with HIV infection to participate in school-sponsored physical activities.

All employees must consistently adhere to infection control guidelines in locker rooms and all play and athletic settings. Rule books will reflect these guidelines. First aid kits must be on hand at every athletic event.

All physical education teachers and athletic program staff will complete an approved first aid and injury prevention course that includes implementation of infection control guidelines. Student orientation about safety on the playing field will include guidelines for avoiding HIV infection.

5. HIV Prevention Education

The goals of HIV prevention education are to promote healthful living and discourage the behaviors that put people at risk of acquiring HIV. The educational program will:

- be taught at every level, Kindergarten through grade twelve;
- use methods demonstrated by sound research to be effective;
- be consistent with community standards;
- follow content guidelines prepared by the Centers for Disease Control and Prevention (CDC);
- be appropriate to students' developmental levels, behaviors, and cultural backgrounds;
- build knowledge and skills from year to year;
- stress the benefits of abstinence from sexual activity, alcohol, and other drug use;
- include accurate information on reducing risk of HIV infection;
- address students' own concerns;
- include means for evaluation;
- be an integral part of a coordinated school health program;
- be taught by well-prepared instructors with adequate support; and
- involve parents and families as partners in education.

Parents and guardians will have convenient opportunities to preview all HIV prevention curricula and materials. School staff members shall assist parents or guardians who ask for help in discussing HIV infection with their children. If a parent or guardian submits a written request to a Principal that a child not receive instruction in specific HIV prevention topics at school, and assures that the topics will be discussed at home or elsewhere, the child shall be excused without penalty.

The school system will cooperate with HIV prevention efforts in the community that address out-of-school youth and youth in situations that put them at high risk of acquiring HIV.

6. Related Services

Students will have access to voluntary, confidential, age and developmentally appropriate counseling about matters related to HIV infection. School administrators will maintain confidential linkage and referral mechanisms to facilitate voluntary student access to appropriate HIV counseling and testing programs, and to other HIV-related services as needed. Public information about resources in the community will be kept available for voluntary student use.

7. General Provisions

School administrators will notify students, their family members, and school personnel about current policies concerning HIV infection, and provide convenient opportunities to discuss them. Information will be provided in major primary languages of students' families.

This policy is effective immediately upon adoption. In accordance with the established policy review process, or at least every three years, designate shall report on the accuracy, relevance, and effectiveness of this policy and, when appropriate, provide recommendations for improving and/or updating the policy.

AUTOMATED EXTERNAL DEFIBRILLATOR (AED) USE

In order to maintain the health and safety of all Oxford City School's students and employees, the following policy is adopted with appropriate training and procedures to be delivered to school system personnel.

An automated external defibrillator (AED) is used to treat victims who experience sudden cardiac arrest (SCA). It is only applied to victims who are unconscious, not breathing and showing no signs of circulation, such as normal breathing, coughing, or movement. The AED will analyze the heart rhythm and advise the operator if a shock-able rhythm is detected. If a shock-able rhythm is detected, the AED will charge to the appropriate energy level and advise the operator to deliver a shock.

1. An AED will be maintained on the premises of each school in the Oxford City School System. The AED shall be used in emergency situations warranting its use by individuals specifically trained in the use of the device. The lead school nurse will be responsible for coordinating the AED program, communicating with appropriate local physicians and/or emergency service providers, and for advising the Superintendent in developing, implementing, and publishing procedures and guidelines for AED use in school system facilities.
2. Authorized personnel who have successfully completed appropriate training and/or any volunteer responder who has successfully completed and approved CPR+AED training programs and has a current course completion card are authorized AED users. Signage and/or publications in school buildings shall identify the location of AEDs and the names/locations of AED/CPR trained staff members.
3. School system office personnel are responsible for receiving emergency medical calls from internal locations, contacting the EMS (911) if required, and deploying the school nurse and/or AED/CPR – trained staff members to the location of the emergency.
4. Initial training in first aid/CPR/AED use will be conducted through the American Red Cross or American Heart Association. Designated staff members will renew CPR/AED training annually.

ACCEPTABLE AND RESPONSIBLE USE OF TECHNOLOGY FOR STAFF AND STUDENTS

The board provides its students and staff access to a variety of technological resources, including laptop computers. These resources provide opportunities to enhance learning and improve communication within the school community and with the larger global community. Through the school district's technological resources, users can observe events as they occur around the world, interact with others on a variety of subjects, and acquire access to current and in-depth information. The board intends that students and employees benefit from board owned and/or provided resources while remaining within the bounds of safe, legal and responsible use. Accordingly, the board establishes this policy to govern student and employee use of school district technological resources. This policy applies regardless of whether such use occurs on or off school district property, and it applies to all school district technological resources, including but not limited to computer networks and connections, the resources, tools and learning environments made available by or on the networks and all devices that connect to those networks.

A. EXPECTATIONS FOR USE OF SCHOOL TECHNOLOGICAL RESOURCES

School district technological resources may only be used by students, staff and others expressly authorized by the Superintendent or designee. The use of school district technological resources, including access to the Internet, is a privilege, not a right.

Individual users of the school district's technological resources are responsible for their behavior and communications when using those resources. Responsible use of school district technological resources is use that is ethical, respectful, academically honest and supportive of student learning. Each user has the responsibility to respect others in the school community and on the Internet. Users are expected to abide by the generally accepted rules of network etiquette. General student and employee behavior standards, including those prescribed in applicable board policies, the Student Code of Conduct and other regulations and school rules, apply to use of the Internet and other school technological resources.

In addition, anyone who uses school district computers or electronic devices or who accesses the school network or the Internet using school district resources must comply with the additional rules for responsible use listed in Section B, below. These rules are intended to clarify expectations for conduct but should not be construed as all-inclusive. Furthermore, all students must adhere to the Technology Use Guidelines as set forth in the Student Code of Conduct. All students will be trained about appropriate on-line behavior as provided in policy, Internet Safety.

Before using school district technological resources, students and employees must sign a statement indicating that they understand and will strictly comply with these requirements. Failure to adhere to these requirements will result in disciplinary action, including revocation of user privileges. Willful misuse may result in disciplinary action and/or criminal prosecution under applicable state and federal law.

B. RULES FOR USE OF SCHOOL TECHNOLOGICAL RESOURCES

1. School district technological resources are provided for school-related purposes only. Acceptable uses of such technological resources are limited to responsible, efficient and legal activities that support learning and teaching. Use of school district technological resources for political purposes or for commercial gain or profit is prohibited. Student personal use of school district technological resources for amusement or entertainment is also prohibited. Because some incidental and occasional personal use by employees is inevitable, the board permits infrequent and brief personal use by employees so long as it occurs on personal time, does not interfere with school district business and is not otherwise prohibited by board policy or procedure.
2. School district technological resources are installed and maintained by members of the Technology Department. Students and employees shall not attempt to perform any installation or maintenance without the permission of the Superintendent or designee.
3. Under no circumstance may software purchased by the school district be copied for personal use.
4. Students and employees must comply with all applicable laws, including those relating to copyrights and trademarks, confidential information, and public records. Any use that violates state or federal law is strictly prohibited. Plagiarism of Internet resources will be treated in the same manner as any other incidents of plagiarism, as stated in the Student Code of Conduct.
5. No user of technological resources, including a person sending or receiving electronic communications, may engage in creating, intentionally viewing, accessing, downloading, storing, printing or transmitting images, graphics (including still or moving pictures), sound files, text files, documents, messages or other material that is obscene, defamatory, profane, pornographic, harassing, abusive or considered to be harmful to minors.
6. The use of anonymous proxies to circumvent content filtering is prohibited.
7. Users may not install or use any Internet-based file sharing program designed to facilitate sharing of copyrighted material.
8. Users of technological resources may not send electronic communications fraudulently (i.e., by misrepresenting the identity of the sender).
9. Users must respect the privacy of others. When using e-mail, chat rooms, blogs or other forms of electronic communication, students must not reveal personal identifying information, or information that is private or confidential, such as the home address or telephone number, credit or checking account

- information or social security number of themselves or fellow students. In addition, school employees must not disclose on school district websites or web pages or elsewhere on the Internet any personally identifiable, private or confidential information concerning students (including names, addresses or pictures) without the written permission of a parent or guardian or an eligible student, except as otherwise permitted by the Family Educational Rights and Privacy Act (FERPA). Users also may not forward or post personal communications without the author's prior consent.
10. Users may not intentionally or negligently damage computers, computer systems, electronic devices, software, computer networks or data of any user connected to school district technological resources. Users may not knowingly or negligently transmit computer viruses or self-replicating messages or deliberately try to degrade or disrupt system performance. Users must scan any downloaded files for viruses.
 11. Users may not create or introduce games, network communications programs or any foreign program or software onto any school district computer, electronic device or network without the express permission of the technology director or designee.
 12. Users are prohibited from engaging in unauthorized or unlawful activities, such as "hacking" or using the computer network to gain or attempt to gain unauthorized or unlawful access to other computers, computer systems or accounts.
 13. Users are prohibited from using another individual's ID or password for any technological resource without permission from the individual. Students must also have permission from the teacher or other school official.
 14. Users may not read, alter, change, block, execute or delete files or communications belonging to another user without the owner's express prior permission.
 15. Employees shall not use passwords or user IDs for any data system for an unauthorized or improper purpose.
 16. If a student user identifies a security problem on a technological resource, he or she must immediately notify an administrator. Users must not demonstrate the problem to other users.
 17. Teachers shall make reasonable efforts to supervise students' use of the Internet during instructional time, to ensure that such use is appropriate for the student's age and the circumstances and purpose of the use.
 18. Views may be expressed on the Internet or other technological resources as representing the view of the school district or part of the school district only with prior approval by the superintendent or designee.
 19. Without permission by the Superintendent or designee, users may not connect any personal technologies such as laptops and workstations, wireless access points and routers, etc. to a district owned and maintained local, wide or metro area network. Connection of personal devices such as iPods, smartphones, PDAs and printers is permitted but not supported by Oxford City School technical staff. The School System is not responsible for

- the content accessed by users who connect to the Internet via their personal mobile telephone technology.
20. Users must back up data and other important files regularly.
 21. Those who use district owned and maintained technologies to access the Internet at home are responsible for both the cost and configuration of such use.
 22. Students and Staff who are issued district owned and maintained laptops must also follow these guidelines:
 - a. Keep the laptop secure and damage free.
 - b. Use the provided protective book bag style case at all times.
 - c. Do not loan out the laptop, charger or cords.
 - d. Do not leave the laptop in your vehicle.
 - e. Do not leave the laptop unattended.
 - f. Do not eat or drink while using the laptop or have food or drinks in close proximity to the laptop.
 - g. Do not allow pets near the laptop.
 - h. Do not place the laptop on the floor or on a sitting area such as a chair or couch.
 - i. Do not leave the laptop near table or desk edges.
 - j. Do not stack objects on top of the laptop.
 - k. Do not leave the laptop outside.
 - l. Do not use the laptop near water such as a pool.
 - m. Do not check the laptop as luggage at the airport.
 - n. Back up data and other important files regularly. Oxford City Schools Technology Department will at times perform maintenance on the laptops by imaging. All files not backed up to storage devices will be deleted during this process.

C. RESTRICTED MATERIAL ON THE INTERNET

The Internet and electronic communications offer fluid environments in which students may access or be exposed to materials and information from diverse and rapidly changing sources, including some that may be harmful to students. The board recognizes that it is impossible to predict with certainty what information on the Internet students may access or obtain. Nevertheless school district personnel shall take reasonable precautions to prevent students from accessing material and information that is obscene, pornographic or otherwise harmful to minors, including violence, nudity, or graphic language. The superintendent or designee shall ensure that technology protection measures are used as provided in policy Internet Safety, and are disabled or minimized only when permitted by law and board policy. The board is not responsible for the content accessed by users who connect to the Internet via their personal mobile telephone technology.

D. PARENTAL CONSENT

The board recognizes that parents of minors are responsible for setting and conveying the standards their children should follow when using media and information sources. Accordingly, before a student may independently access the Internet, the student's parent must be made aware of the possibility that the student could obtain access to inappropriate material while engaged in independent use of the Internet. The parent and student must consent to the student's independent access to the Internet and to monitoring of the student's e-mail communication by school personnel. In addition, in accordance with the board's goals and visions for technology, students may require accounts in third party systems for school related projects designed to assist students in mastering effective and proper online communications or to meet other educational goals. Parental permission will be obtained when necessary to create and manage such third party accounts.

E. PRIVACY

No right of privacy exists in the use of technological resources. F. SECURITY/CARE OF PROPERTY

Security on any computer system is a high priority, especially when the system involves many users. Employees are responsible for reporting information security violations to appropriate personnel. Employees should not demonstrate the suspected security violation to other users. Unauthorized attempts to log onto any school system computer on the board's network as a system administrator may result in cancellation of user privileges and/or additional disciplinary action. Any user identified as a security risk or having a history of problems with other systems may be denied access. Users of school district technology resources are expected to respect school district property and be responsible in using the equipment. Users are to follow all instructions regarding maintenance or care of the equipment. Users may be held responsible for any loss or damage caused by intentional or negligent

INTERNET SAFETY POLICY

Introduction

This policy has been adopted in compliance with the Children's Internet Protection Act, as codified at 47 U.S.C. § 254(h) and (l).

It is the policy of the Oxford City School System (System) to provide technology resources, including Internet access, to its students and employees in order to more fully support the system's mission statement and to meet educational and instructional goals set by the system and the state. It is the intention of the Board that all technology resources will be used in accordance with any and all school/system policies and procedures as well as local, state, and federal laws and/or guidelines governing the usage of technology and its component parts. This policy applies to all technology resources, regardless of purchase date, location, or funding source.

All users, in the process of logging onto the system's network, will agree to abide by all school and system policies. Students and staff must have the appropriate Acceptable Use Policy on file with the system prior to use. Visitors to the system must have the permission of school staff in order to access the Internet. Such permission may not be shared or transferred.

This Internet Safety Policy will be displayed in each school media center and computer lab. A copy of the policy will also be available in each school's office. Any questions about this policy, its interpretation, or specific circumstances shall be directed to the System Technology Coordinator before proceeding. Violators of this policy will be handled in a manner consistent with comparable situations requiring disciplinary and/or legal action. The administrators of each school will be responsible for establishing specific practices to enforce this policy at individual schools.

Technology Protection Measures

Filtering and Blocking

The System will make a reasonable effort to filter and block access to "visual depictions" that are obscene, contain child pornography, are harmful to minors, or that the Board determines is "inappropriate for minors." The software will filter all incoming Internet sites based on both URL (web site name) and IP address. URLs and IP addresses may be added to the filtered list in cases where the filtering system may not have accurately identified inappropriate sites as defined above.

All users are required to report any sites that contain inappropriate materials or materials harmful to minors. Students must report this information to their teacher. Teachers or staff members must report the information to the System Technology Coordinator. This includes any text, audio segment, picture, image, graphic image file, or other visual depiction that:

- taken as a whole, appeals to an interest in nudity, sex, or excretion,
- depicts, describes, or represents, in a patently offensive way with respect to what is suitable for minors, an actual or simulated sexual act or sexual contact, actual or simulated normal or perverted sexual acts, or a lewd exhibition of the genitals and
- taken as a whole lacks serious literary, artistic, political, or scientific value as to minors.

Adult staff members may request a review of filtered sites. Adults, who are engaged in bona fide research or need access to blocked sites for other lawful purposes, may request a temporary release of specific sites at specific workstations to complete their work. Such requests should be directed to the System Technology Coordinator.

Monitoring

It is the responsibility of all teachers and employees to properly inform students/staff under their charge of this policy and to see that the policy is strictly enforced. Students using the Internet and World Wide Web will be under the direct supervision of the instructor. In addition, the system may use software to monitor Internet activity, as needed. Teachers will be provided a list of students and their current status regarding use of the Internet. Teachers who will be presenting Internet sites to students as part of the instructional process, must preview the sites they plan to incorporate to ensure their safety and suitability. If students are to independently access the Internet on a computer, the teacher must ensure that they have a signed Acceptable Use Policy on file. In addition, any student under the age of 18 must also have a signed Parent Permission Form on file. Finally, teachers must give students specific permission to independently access the Internet and monitor their activity while they are online.

Communicating Electronically

The System permits students to engage in electronic communications on a limited basis for educational purposes under the direct supervision of their teacher. All such communications are subject to school rules, the Student Acceptable Use Policy, any applicable laws, and the following safety and security measures.

Online Behavior Education

All students will receive education about appropriate online behavior, including cyberbullying awareness and response and interacting with other individuals on social networking sites and in chat rooms. This education will be provided through the implementation of the Technology Course of Study, through Internet Safety awareness and education programs at each school, and through additional efforts made by the Student Services and other departments. In addition, educational materials and links regarding cyberbullying as well as safe and appropriate behavior will be placed on the System's website for access by parents and students.

Downloading from the Internet

Students may not download files of any type without the specific permission of their supervising teacher. SUPERVISION OF LOW-RISK JUVENILE SEX OFFENDERS

Pursuant to Annalyn's Law, the Superintendent shall be notified by local law enforcement when a low-risk juvenile sex offender is enrolled or attending school within the Board's jurisdiction for the purpose of appropriate supervision during the school day and during school activities.

Section 1. Definitions

In this policy, these terms shall have the following meanings:

- a. "Plan" refers to the "individualized student safety plan" developed following the Student's adjudication and/or enrollment in the school to serve as a behavior contract between the Student and the School.
- b. "School" refers to "all school property and school-sponsored functions including, but not limited to, classroom instructional time, assemblies, athletic events, extracurricular activities, and school bus transportation" related to the Student's current school of record.
- c. "Student" refers to "the low risk juvenile sex offender" designated by a juvenile court judge as having a low risk of re-offense.
- d. "Teachers and staff with supervision over the student" or "Supervision-team" refers to school officials or staff who have a specific responsibility for the Student, including the school principal, the Student's assigned teachers and/or coaches, the Student's counselor, and if applicable, the Student's bus driver, during the subject school year and who will be privy to information regarding the Student's status. **Teachers and staff with only passing and/or general contact with the Student shall not be privy to information regarding the Student's status.**
- e. "Victim" refers to the victim, if known by and attending the same school as the Student, of the offense for which the Student was adjudicated delinquent.

Section 2. Notification

- a. Current Students
In the event a currently enrolled Student is adjudicated delinquent and designated "low risk" by the juvenile court, local law enforcement is expected to notify the local Superintendent and principal of the Student's school in writing.

b. Newly Enrolled Students

In the event a Student seeks to enroll in the district as a new student, and that Student has been previously designated as a low-risk juvenile sex offender, local law enforcement is expected to notify the local Superintendent and principal of the Student's school in writing.

c. Students That Change Schools Within the District

In the event a currently enrolled Student transfers to another school in the district or is promoted to another school in the district, the principal of the original school should notify designated law enforcement of the change as soon as practicable.

Following that notification, the principal of the original school should orally, and in writing brief the principal of the new school regarding the original Plan and the transferring Student's status and circumstances. Regardless, the principal of the prior school must provide the Student's records and Safety Plan to the principal of the new school as soon as practicable.

The new principal should review the Plan and meet with the Student, the Student's parent or guardian, and the anticipated new Supervision Team to determine whether the current terms are sufficient or should be adjusted based on the Student's circumstances.

d. School Staff Changes

In the event the principal or a member of the Supervision Team leaves his position or is no longer responsible for supervising the Student, a replacement team member should be named, if necessary and appropriate, and briefed by the principal or the most senior member of the Supervision Team regarding the Student's status and Plan.

The Student, his parent or guardian, and other members of the Supervision Team should be notified of changes to the Supervision Team within a reasonable timeframe.

Section 3. Plan Development and Maintenance

Upon proper notification from law enforcement, the Student's principal or designee will call together the anticipated Supervision Team to meet with the Student and/or the Student's parent or guardian to develop an appropriate Plan. **This meeting should take place within ten (10) school days or as soon as practicable.** In the event the Student's parent or guardian is unable or unwilling to meet, the principal or designee and the Supervision Team should meet with the Student within a reasonable timeframe to develop an appropriate Plan. In the event the Victim attends the same school as the Student, the plan should include measures to reduce the likelihood of Victim and Student interaction.

The terms of the Plan, along with any updates to it must be memorialized in writing and approved by the principal or designee before being distributed to the Student and the Student's parent or guardian, as well as the Supervision Team.

The principal or designee should meet with the Student, the Student's parent or guardian, and the Supervision Team at least annually, but as often as deemed necessary by the principal or designee to assess the Student's status and to determine whether adjustments should be made to the Plan.

Section 4. Supervision

The Student will be subject to the general Student Code of Conduct and any other conditions deemed necessary by the principal or designee as incorporated in the Student's Plan. Members of the Supervision Team should report any suspected violations of the Plan to the principal or designee.

The school officials and staff responsible for supervising the Student on a daily basis should do so in a manner that is discreet and unobtrusive.

Section 5. Students with Disabilities

Discipline of Students with disabilities will be subject to applicable limitations and requirements imposed by the Individuals with Disabilities Education Act and/or Section 504 of the Rehabilitation Act and implementing regulations.

Section 6. Violations of the Plan

In the event the Student violates the Student Code of Conduct or the Plan, the Student may be subject to discipline pursuant to board policy and/or reassessment of the Plan's conditions.

Section 7. Challenges to the Plan

In the event the Student and/or his parent or guardian object to conditions of the Plan or the application of a sanction, a challenge must be submitted in writing to the Superintendent or his designee to consider whether adjustment of the Plan or response modification is warranted. The Superintendent's decision shall be final. A response that constitutes disciplinary action will adhere to the applicable School disciplinary policies and procedures and the Student will be afforded process due thereunder.

Section 8. Confidentiality

Information received by school officials or staff related to the Student's delinquent status must be treated as confidential from other students, staff members, officials and stakeholders. Any document identifying the Student's status should be

safeguarded from unintentional disclosure by the members of the Supervision Team. Any school official or school employee who improperly discloses the Student's status to any other person may be subject to school discipline and/or criminal charges as provided by law.

Section 9. Retaliation

Members of the Supervision Team should make every effort to treat the Student with the same respect and courtesy to which every student is entitled. The Team is reminded that the Student has been deemed by the juvenile court as not likely to reoffend and should be encouraged to fully integrate into the student body as a successful student.

Section 10. Procedures

The Superintendent shall have the authority to develop appropriate training and additional procedures for staff members in furtherance of this policy.

GRIEVANCES

The Oxford City Board of Education recognizes that harmonious relations with all employees can be maintained and improved through effective communications. The interest of all parties can best be served by sincere efforts of all concerned to promote understanding and cooperation. The Board, therefore, has adopted the following Grievance Policy as a means to examine and resolve possible problems which relate to the administration of personnel policies of the Oxford City Schools.

Purpose

The purposes of this policy shall be to settle equitably, at the lowest possible administrative level, all grievances as defined below. These proceedings shall be kept as informal and confidential as may be appropriate at all levels of procedure.

Definition

- A. "Grievance" is a claim or dispute concerning the interpretation, application, or claimed violation of the personnel policies of Oxford City Schools. Matters addressed by statute or administrative procedure are not grievable matters. Grievances also do not include matters involving the Board's right to establish policy and prescribe rules and regulations for the conduct and management of the schools and departments under its direction. Grievances also do not include questions or disputes regarding the meaning of any term or phrase used in this or any other paragraph of this policy.
- B. "Immediate supervisor" is the employee closest in hierarchy to and possessing administrative authority to direct the activities of the employee.
- C. "Days" are defined as working days.

To be in compliance with this policy, employees must comply with the chain of command listed in the procedures below:

Step One

The employee must first discuss within ten (10) working days of the last occurrence the problem with his/her immediate supervisor with the objective of resolving the matter informally. The employee and the employee's immediate supervisor shall confer on the problem with a view toward arriving at a mutually satisfactory resolution. If no resolution can be reached through informal discussion, the employee must submit the grievance in writing to the same immediate supervisor within the ten (10) days. The immediate supervisor shall communicate a written

decision to the employee within five (5) working days of receipt of the written grievance. If the matter is not resolved to the satisfaction of the employee, then within five (5) working days of the written response from the supervisor, the employee may appeal in writing to the next higher level of authority. The written grievance at all levels must include the following:

- A. Nature of the grievance including specific policy violated
- B. Remedy or resolution sought

The appeals process must follow this hierarchy if the employee continues to appeal:

- Appropriate coordinator, director, supervisor to;
- Superintendent or designee

A written response will follow within five (5) working days for each successive appeal.

Step Two

In the event the employee is not satisfied with the decision at Step One, the employee may submit a written appeal to the Board. A hearing before the Board will be conducted within fifteen (15) working days of the date the grievance was received by the Board Chairman. The employee may be accompanied by his/her representative at the hearing at the expense of the employee. The Board shall render a decision in writing within five (5) working days of the last day of the hearing. This decision shall represent final and binding action by the Board of Education.

Miscellaneous Provisions

1. A grievance may be withdrawn at any time and at any level by the employee. The issue will be considered dropped and cannot be resubmitted.
2. Failure on the part of the employee to appeal from one level to the next within five (5) working days shall be deemed an acceptance of the decision rendered at the previous level, and the decision rendered at the previous level becomes final and binding. Failure on the part of the Board to respond within five (5) working days shall be acceptance of the decision rendered.
3. If, at any given time, it becomes impossible for the employee or the appropriate administrator or supervisor to comply with a time deadline at a given level, a request for an extension of time shall be submitted in writing to the Superintendent, with a copy sent to the employee or the appropriate supervisor, depending on who is requesting the extension. The Superintendent, in his/her sole discretion, may grant or deny the request for extension. The Superintendent's decision shall be provided to the employee and to the appropriate supervisor or administrator.

4. Whenever possible, the grievance procedure shall not be the cause of any interruption of usual work/school activities or functions.
5. The grievance procedure is available to any employee. No reprisal or retaliation of any kind will be taken against any person because of his/her participation in the grievance procedure in accordance with the terms of this policy.
6. No cost shall be assessed by Oxford City Schools against the employee in connection with the Step Two hearing. If employee uses an attorney it will be at his/her expense.
7. The employee has the right to decide whether a Step Two hearing is open or closed to the public.

ACCEPTABLE AND RESPONSIBLE USE OF TECHNOLOGY FOR STAFF AND STUDENTS

The board provides its students and staff access to a variety of technological resources, including laptop computers. These resources provide opportunities to enhance learning and improve communication within the school community and with the larger global community. Through the school district's technological resources, users can observe events as they occur around the world, interact with others on a variety of subjects, and acquire access to current and in-depth information. The board intends that students and employees benefit from board owned and/or provided resources while remaining within the bounds of safe, legal and responsible use. Accordingly, the board establishes this policy to govern student and employee use of school district technological resources. This policy applies regardless of whether such use occurs on or off school district property, and it applies to all school district technological resources, including but not limited to computer networks and connections, the resources, tools and learning environments made available by or on the networks and all devices that connect to those networks.

A. EXPECTATIONS FOR USE OF SCHOOL TECHNOLOGICAL RESOURCES

School district technological resources may only be used by students, staff and others expressly authorized by the Superintendent or designee. The use of school district technological resources, including access to the Internet, is a privilege, not a right.

Individual users of the school district's technological resources are responsible for their behavior and communications when using those resources. Responsible use of school district technological resources is use that is ethical, respectful, academically honest and supportive of student learning. Each user has the responsibility to respect others in the school community and on the Internet. Users are expected to abide by the generally accepted rules of network etiquette. General student and employee behavior standards, including those prescribed in applicable board policies, the Student Code of Conduct and other regulations and school rules, apply to use of the Internet and other school technological resources.

In addition, anyone who uses school district computers or electronic devices or who accesses the school network or the Internet using school district resources must comply with the additional rules for responsible use listed in Section B, below. These rules are intended to clarify expectations for conduct but should not be construed as all-inclusive. Furthermore, all students must adhere to the Technology Use Guidelines as set forth in the Student Code of Conduct. All students will be trained about appropriate on-line behavior as provided in policy, Internet Safety.

Before using school district technological resources, students and employees must sign a statement indicating that they understand and will strictly comply with these requirements. Failure to adhere to these requirements will result in disciplinary action, including revocation of user privileges. Willful misuse may result in disciplinary action and/or criminal prosecution under applicable state and federal law.

B. RULES FOR USE OF SCHOOL TECHNOLOGICAL RESOURCES

1. School district technological resources are provided for school-related purposes only. Acceptable uses of such technological resources are limited to responsible, efficient and legal activities that support learning and teaching. Use of school district technological resources for political purposes or for commercial gain or profit is prohibited. Student personal use of school district technological resources for amusement or entertainment is also prohibited. Because some incidental and occasional personal use by employees is inevitable, the board permits infrequent and brief personal use by employees so long as it occurs on personal time, does not interfere with school district business and is not otherwise prohibited by board policy or procedure.
2. School district technological resources are installed and maintained by members of the Technology Department. Students and employees shall not attempt to perform any installation or maintenance without the permission of the Superintendent or designee.
3. Under no circumstance may software purchased by the school district be copied for personal use.
4. Students and employees must comply with all applicable laws, including those relating to copyrights and trademarks, confidential information, and public records. Any use that violates state or federal law is strictly prohibited. Plagiarism of Internet resources will be treated in the same manner as any other incidents of plagiarism, as stated in the Student Code of Conduct.
5. No user of technological resources, including a person sending or receiving electronic communications, may engage in creating, intentionally viewing, accessing, downloading, storing, printing or transmitting images, graphics (including still or moving pictures), sound files, text files, documents, messages or other material that is obscene, defamatory, profane, pornographic, harassing, abusive or considered to be harmful to minors.
6. The use of anonymous proxies to circumvent content filtering is prohibited.
7. Users may not install or use any Internet-based file sharing program designed to facilitate sharing of copyrighted material.
8. Users of technological resources may not send electronic communications fraudulently (i.e., by misrepresenting the identity of the sender).
9. Users must respect the privacy of others. When using e-mail, chat rooms, blogs or other forms of electronic communication, students must not reveal personal identifying information, or information that is private or confidential, such as the home address or telephone number, credit or checking account

- information or social security number of themselves or fellow students. In addition, school employees must not disclose on school district websites or web pages or elsewhere on the Internet any personally identifiable, private or confidential information concerning students (including names, addresses or pictures) without the written permission of a parent or guardian or an eligible student, except as otherwise permitted by the Family Educational Rights and Privacy Act (FERPA). Users also may not forward or post personal communications without the author's prior consent.
10. Users may not intentionally or negligently damage computers, computer systems, electronic devices, software, computer networks or data of any user connected to school district technological resources. Users may not knowingly or negligently transmit computer viruses or self-replicating messages or deliberately try to degrade or disrupt system performance. Users must scan any downloaded files for viruses.
 11. Users may not create or introduce games, network communications programs or any foreign program or software onto any school district computer, electronic device or network without the express permission of the technology director or designee.
 12. Users are prohibited from engaging in unauthorized or unlawful activities, such as "hacking" or using the computer network to gain or attempt to gain unauthorized or unlawful access to other computers, computer systems or accounts.
 13. Users are prohibited from using another individual's ID or password for any technological resource without permission from the individual. Students must also have permission from the teacher or other school official.
 14. Users may not read, alter, change, block, execute or delete files or communications belonging to another user without the owner's express prior permission.
 15. Employees shall not use passwords or user IDs for any data system for an unauthorized or improper purpose.
 16. If a student user identifies a security problem on a technological resource, he or she must immediately notify an administrator. Users must not demonstrate the problem to other users.
 17. Teachers shall make reasonable efforts to supervise students' use of the Internet during instructional time, to ensure that such use is appropriate for the student's age and the circumstances and purpose of the use.
 18. Views may be expressed on the Internet or other technological resources as representing the view of the school district or part of the school district only with prior approval by the superintendent or designee.
 19. Without permission by the Superintendent or designee, users may not connect any personal technologies such as laptops and workstations, wireless access points and routers, etc. to a district owned and maintained local, wide or metro area network. Connection of personal devices such as iPods, smartphones, PDAs and printers is permitted but not supported by Oxford City School technical staff. The School System is not responsible for

- the content accessed by users who connect to the Internet via their personal mobile telephone technology.
20. Users must back up data and other important files regularly.
 21. Those who use district owned and maintained technologies to access the Internet at home are responsible for both the cost and configuration of such use.
 22. Students and Staff who are issued district owned and maintained laptops must also follow these guidelines:
 - a. Keep the laptop secure and damage free.
 - b. Use the provided protective book bag style case at all times.
 - c. Do not loan out the laptop, charger or cords.
 - d. Do not leave the laptop in your vehicle.
 - e. Do not leave the laptop unattended.
 - f. Do not eat or drink while using the laptop or have food or drinks in close proximity to the laptop.
 - g. Do not allow pets near the laptop.
 - h. Do not place the laptop on the floor or on a sitting area such as a chair or couch.
 - i. Do not leave the laptop near table or desk edges.
 - j. Do not stack objects on top of the laptop.
 - k. Do not leave the laptop outside.
 - l. Do not use the laptop near water such as a pool.
 - m. Do not check the laptop as luggage at the airport.
 - n. Back up data and other important files regularly. Oxford City Schools Technology Department will at times perform maintenance on the laptops by imaging. All files not backed up to storage devices will be deleted during this process.

C. RESTRICTED MATERIAL ON THE INTERNET

The Internet and electronic communications offer fluid environments in which students may access or be exposed to materials and information from diverse and rapidly changing sources, including some that may be harmful to students. The board recognizes that it is impossible to predict with certainty what information on the Internet students may access or obtain. Nevertheless school district personnel shall take reasonable precautions to prevent students from accessing material and information that is obscene, pornographic or otherwise harmful to minors, including violence, nudity, or graphic language. The superintendent or designee shall ensure that technology protection measures are used as provided in policy Internet Safety, and are disabled or minimized only when permitted by law and board policy. The board is not responsible for the content accessed by users who connect to the Internet via their personal mobile telephone technology.

D. PARENTAL CONSENT

The board recognizes that parents of minors are responsible for setting and conveying the standards their children should follow when using media and information sources. Accordingly, before a student may independently access the Internet, the student's parent must be made aware of the possibility that the student could obtain access to inappropriate material while engaged in independent use of the Internet. The parent and student must consent to the student's independent access to the Internet and to monitoring of the student's e-mail communication by school personnel. In addition, in accordance with the board's goals and visions for technology, students may require accounts in third party systems for school related projects designed to assist students in mastering effective and proper online communications or to meet other educational goals. Parental permission will be obtained when necessary to create and manage such third party accounts.

E. PRIVACY

No right of privacy exists in the use of technological resources. Users should not assume that files or communications accessed, downloaded, created or transmitted using school district technological resources or stored on services or hard drives of individual computers will be private. School district administrators or individuals designated by the superintendent may review files, monitor all communication and intercept e-mail messages to maintain system integrity and to ensure compliance with board policy and applicable laws and regulations. School district personnel shall monitor on-line activities of individuals who access the Internet via a school-owned computer.

Under certain circumstances, the board may be required to disclose such electronic information to law enforcement or other third parties, for example, as a response to a document production request in a lawsuit against the board, as a response to a public records request or as evidence of illegal activity in a criminal investigation.

F. SECURITY/CARE OF PROPERTY

Security on any computer system is a high priority, especially when the system involves many users. Employees are responsible for reporting information security violations to appropriate personnel. Employees should not demonstrate the suspected security violation to other users. Unauthorized attempts to log onto any school system computer on the board's network as a system administrator may result in cancellation of user privileges and/or additional disciplinary action. Any user identified as a security risk or having a history of problems with other systems may be denied access. Users of school district technology resources are expected to respect school district property and be responsible in using the equipment. Users are to follow all instructions regarding maintenance or care of the equipment. Users may be held responsible for any loss or damage caused by intentional or negligent

acts in caring for computers while under their control. The school district is responsible for any routine maintenance or standard repairs to school system computers.

G. PERSONAL WEBSITES

The superintendent or designee may use any means available to request the removal of personal websites that substantially disrupt the school environment or that utilize school district or individual school names, logos or trademarks without permission.

H. DISCLAIMER

The board makes no warranties of any kind, whether express or implied, for the service it is providing. The board will not be responsible for any damages suffered by any user. Such damages include, but are not limited to, loss of data resulting from delays, non-deliveries or service interruptions, whether caused by the school district's or the user's negligence, errors or omissions. Use of any information obtained via the Internet is at the user's own risk. The school district specifically disclaims any responsibility for the accuracy or quality of information obtained through its Internet services.

PERSONAL USE OF ELECTRONIC COMMUNICATION DEVICES (ECDs)

The use of personal cell telephone/electronic communication devices during the regularly scheduled school day when students are present is obstructive to instructional time and safe supervision of students. Therefore, employees are prohibited from using cell phones/ECDs while engaged in any setting where students are present or they are assigned responsibilities involving student supervision. Personal ECDs should be silenced or powered "off" during these times.

This excludes cell phones/ECDs purchased and issued by the System or local schools for the purpose of conducting the business of the System.

PERSONNEL RECORDS

Information about faculty and staff is required for the daily administration of the Oxford City School System, for implementing salary and other personnel policies, for budget and financial planning, for responding to appropriate inquiries about employees, and for meeting the Board, State, and Federal educational reporting requirements. The Oxford City Board of Education authorizes and directs the Superintendent to develop and implement procedures necessary to establish a comprehensive and efficient system of personnel records maintenance and control which meet the requirements of State, Federal, local laws and under the guidelines which follow.

1. A personnel file will be accurately maintained in the Central Office for each present and former employee. These files will contain applications for employment, references, and records relative to compensation, payroll deductions, evaluations, educational records and certificates, and other such records as may be considered pertinent to the purposes of this policy as cited above.
2. The Director of Human Resources will have the overall responsibility for maintaining and preserving the confidentiality of the files. The Director of Human Resources may designate a records manager for personnel files to perform the duties of records management and granting or denying access to records on the basis of these guidelines and procedures established by the Superintendent.
3. A staff member may have access to his/her own personnel file at all reasonable times (i.e., during regular office hours), except that access will not be granted to confidential information provided as basis for hiring and promotions. The right of access includes the right to make written objections to any information contained in the file. Any written objection must be signed by the employee, and by providing a copy to the appropriate executive authority the objection will become part of the employee's file.

 - B. The Superintendent or employee's supervisor or other school official has provided a copy of the complaint, commendation, suggestion, or evaluation to the employee.

FAIR LABOR STANDARDS ACT

The Board recognizes the requirements of the Fair Labor Standards Act of 1938 and its amendments. The Board expresses its intent to comply with the Act and authorizes the Superintendent to take the necessary steps to ensure that the Board is in compliance with the Act.

Applicable Provisions

As authorized by the Board, the Superintendent shall determine the need for overtime work, discuss with supervisors and employees the amount and timing of overtime work, and compensate the employees for that overtime work according to the provisions of the Fair Labor Standards Act. All approved for overtime shall be compensated according to the School District Compensatory Time procedures.

Support Personnel

The term “support personnel” is defined as all persons employed full-time by the Board as bus drivers, Child Nutrition Program employees, custodians, maintenance personnel, instructional assistants, secretaries, clerical supervisors, and all other personnel not otherwise certified by the State Board of Education.

Full-time personnel include:

1. Bus drivers
2. Other personnel whose duties require twenty (20) or more hours in each working week.

Eligibility

In accordance with Title 29, Part 541 of The Code of Federal Regulations, revised June, 1983, certain employment categories/positions are defined as being “exempt.” Exempt positions are not entitled to compensatory release time. As outlined in The Code, exempt employees are those that meet one or more of the following criteria:

1. Executive, administrative, and professional (certified) employees including teachers and registered nurses.
2. Support employees (a) whose primary duties consist of the management of the enterprise in which they are employed, (b) who customarily direct the work of two or more employees, (c) who have the authority to hire or fire or whose suggestions and recommendations as to the hiring, firing, or other change of status decision for other employees will have given particular

weight and (d) who customarily and regularly exercise discretionary power.

Employees not meeting one of the above criteria are defined as “non-exempt” and subject to the provisions of the FLSA and as such are eligible for compensatory time for work performed in excess of forty (40) hours per week.

Approval to Work Overtime

All work requiring overtime by employees must be approved in advance by the Superintendent or designee.

COMPENSATORY TIME

The Fair Labor Standards Act authorizes public education agencies to provide compensatory time (comp time) off in lieu of monetary overtime compensation, at a rate of not less than one and one-half hours of compensatory time for each hour of overtime worked. Overtime is defined as hours worked above 40 in a work week. Hours on paid leave or holidays are not included when counting hours worked.

The time-and-a-half rate of compensatory time will be applied to any time worked beyond 40 hours in a week.

The agreement or understanding to earn/use compensatory time must be agreed upon before the work is performed and must be approved by the Superintendent or the Superintendent's designee unless in extreme emergency.

An employee who has accrued compensatory time and requests use of the time, must be permitted to use the time off within a "reasonable period" after making the request if it does not "unduly disrupt" the operations of Oxford City Schools.

In the event an employee leaves employment in Oxford City Schools payment for the balance of compensatory time must be made to the employee at the current rate of pay. The Oxford City Board of Education will require employees to use the balance of compensatory time in advance of separation to the extent possible in the given time frame. Employees who plan to resign or retire should discuss plans to use compensatory time in advance of separation with the immediate supervisor.

HEALTH EXAMINATIONS FOR PERSONNEL

The Board authorizes the Superintendent to require employees of the school district, at any time and at the Board's expense, to submit to a physical or mental examination by a physician(s) to be designated by the Superintendent. In all cases, such requirement by the Superintendent shall be based on reasonable cause. The Board may terminate the employment of any person whose condition of health as determined by such examination makes further retention of such employee detrimental to the best interest of the school district. Refusal to submit to such examinations shall constitute grounds for dismissal.

The Board requires a tuberculin examination of all prospective employees. The Board, in accordance with State statutes, shall not employ any certificated or support persons who have tuberculosis in an infectious stage. The types and frequency of tests required shall be as established by the rule of the State Board of Health. Such examinations shall be made by the county health department or by any licensed physician of the employee's choosing.

DRUG FREE WORKPLACE POLICY

Drug abuse and use at the workplace are subjects of immediate concern in our society. These problems are extremely complex and ones for which there are no easy solutions. From a safety perspective, the users of drugs may impair the well-being of all employees, the public at large, and result in damage to school district property. Therefore, it is the policy of this school district that the unlawful manufacture, distribution, dispensation, possession or use of controlled substance in the school district's workplace is prohibited. Any employee violating this policy will be subject to discipline up to and including termination. The specifics of this policy are as follows:

1. This school district does not differentiate between drug users and drug pushers or sellers. Any employee who gives or in any way transfers a controlled substance to another person or sells or manufactures a controlled substance while on the job or on school premises will be subject to discipline up to and including termination.
2. The term "controlled substance" means any drug listed in 21 U.S.C.S. 812 and other Federal regulations. Generally, these are drugs which have a high potential for abuse. Such drugs include, but are not limited to Heroin, Marijuana, Cocaine, PCP, and "Crack." They also include "legal drugs" which are not prescribed by a licensed physician.
3. Each employee is required by law to inform the Superintendent of School within five (5) days after he or she is convicted for violation of any federal or state criminal drug statute where such violation occurred on the school district's premises. A conviction means a finding of guilt (including a plea of nolo contendere) or the imposition of a sentence by a judge or jury in any Federal, or State or local court.
4. The Superintendent of Schools must notify the U.S. Government Agency with which the contract was made within ten (10) days after receiving notice from the employee or otherwise receives actual notice of such a conviction.
5. If any employee is convicted of violating any criminal drug statute while on the workplace, he or she will be subject to discipline up to and including termination. Alternatively, the school district may require the employee to successfully finish a drug abuse program sponsored by an approved private or governmental institution.
6. As a condition of further employment on any Federal government contract, the law requires all employees to abide by this policy.

DRUG TESTING OF DESIGNATED EMPLOYEES

The Board recognizes that our employees are our greatest asset. Our employees are the indispensable key to our goal of providing the best possible education program for our students. To achieve our goal, and to maximize the skills and talents of our employees, it is important that every employee of our School System understand the dangers of drug and alcohol abuse and be aware of the new Federal requirements concerning substance abuse. This policy statement should clarify our position on employee drug and alcohol use. This policy and procedure should not be construed as a contract of employment. The Board reserves the right to depart from these policies and procedures where it deems it is appropriate. Except where specifically prohibited by law, the guidelines contained within this document may be changed by the Board at any time. Employees covered by this policy and procedures will be informed of changes.

Policy Objectives

1. To create and maintain a safe, drug-free working environment of all employees.
2. To encourage any employee with a dependence on, or addiction to, alcohol or other drugs to seek help in overcoming the problem.
3. To reduce problems of absenteeism, tardiness, carelessness and/or other unsatisfactory matters related to job performance.
4. To reduce the likelihood of incidents of accidental personal injury and/or damage to pupil transportation, students, or property.
5. To meet the requirements of 49 C.F.R. Part 40 and the Omnibus Transportation Employee Testing Act of 1991, as amended.
6. To minimize the likelihood that school property will be used for illicit drug activities.
7. To protect the reputation of the School System and its employees within the community.

The Board requires that all employees report to work without any alcohol or illegal or mind altering substances in their systems. No employee shall report to work or remain on duty requiring the operation of a motor vehicle, other hazardous equipment or performing job duties in a hazardous environment when the employee has consumed or is affected by alcohol or any controlled substance, except when

the use is pursuant to the instructions of a physician who has advised the employee that the substance does not adversely affect the employee's ability to perform in a safe manner. No employee shall use alcohol while on duty. No employee shall perform any job-related duties within four (4) hours after using alcohol. Further, outside conduct of a substance abuse-related nature which affects an employee's work, the School System's relationship with the government or reflects badly on the School System, is prohibited.

Employees must inform their supervisor when they are legitimately taking medication which may affect their ability to work, in order to avoid creating safety problems and violating the Drug and Alcohol Policy.

Enforcement

In order to enforce these rules, the Board reserves the right to require all employees (defined as all employees subject to the Omnibus Transportation Employee Testing Act of 1991 and any employee who operates a system vehicle) to submit, at any time an employee is on duty, to drug tests to determine the presence of prohibited substances. Data collected by the drug testing facility is reported to and maintained by the Federal Motor Carrier Safety Administration Drug and Alcohol Clearinghouse and subject to query. The School Board is required to develop, implement and enforce a drug and alcohol policy for their employees as a condition of compliance with the Omnibus Transportation Employee Testing Act of 1991.

Pursuant to Board policy and regulations, applicant testing may be required. All current employees may be required to undergo testing at scheduled physical examinations, and/or where the Board has reasonable suspicion to believe an employee has violated its Alcohol and Drug Policy, and/or on a random basis without advance notice. Employees are also required to report all injury or damage related accidents involving Board property or personnel or during Board-related activities and may be required to submit to alcohol screening within two (2) hours and to drug screening within thirty-two hours of a reportable accident. Employees who return to work following rehabilitation will be required to undergo return to duty/follow-up testing in addition to the general Board requirements.

To further comply with the Omnibus Transportation Employee Testing Act of 1991 and amendments, applicants and employees operating a vehicle requiring a Commercial Driver's License (e.g. school bus) must consent to an annual partial and/or full query through the Federal Motor Carrier Safety Administration Drug and Alcohol Clearinghouse. Employees subject to this policy shall be given a written explanation of this section of the Act.

Violation of these rules, including testing positive, will subject the employee to discipline, including discharge. Refusal to cooperate with the Board in any test investigation will result in discipline, including discharge.

All information, interviews, reports, statements, memoranda and test results, written or otherwise, received by the Board through its drug and alcohol testing program are confidential communications and may not be used or received in evidence, obtained in discovery, or disclosed in any public or private proceedings except in the following:

1. As directed by the specific, written consent of the employee authorizing release of the information to an identified person.
2. To a subsequent employer upon receipt of a written request from a covered employee as expressly authorized by the terms of the employee's written request.
3. To a covered employee decision maker in a lawsuit, grievance, or other proceeding initiated by or on behalf of the individual.
4. To the Secretary of Transportation, any DOT agency with regulatory authority, State agency with authority over the employer and other agencies including, but not limited to, a worker's compensation, unemployment compensation, or other proceeding relating to a benefit sought by the employee.

Any questions should be directed to the persons assigned as the Board's Drug Program Coordinator.

LEAVE

The Board authorizes the Superintendent to establish guidelines for the various types of leave that may be needed by employees, including:

- Sick leave
- Personal leave
- Professional leave
- Military leave
- Jury leave
- Maternity leave
- Annual leave for 240-day personnel

Sick Leave

Full-time employees earn one day of sick leave per month of employment. Sick leave is defined as absence of the employee due to:

1. Personal illness
2. Bodily injury which incapacitates an employee
3. Attendance upon an ill member of the immediate family (husband, wife, father, mother, son, daughter, brother, sister) of the employee, or a person standing in loco parentis.
4. Death in the immediate family of the employee (husband, wife, father, mother, son, daughter, brother, sister, father-in-law, mother-in-law, son-in-law, daughter-in-law, brother-in-law, sister-in-law, nephew, niece, aunt, uncle, granddaughter, grandson, grandfather, grandmother). Where unusually strong personal ties exist, due to an employee having been supported or educated by a person of some relationship may be recognized for leave purpose. In each such case, the employee concerned shall file with the immediate supervisor a written statement of the circumstances which justify an exception to the general rule. The exception must be approved by the appropriate executive-level administrator.
5. Preventive health care visits to the doctor, dentist, optometrist, or other health care professionals providing that supervisors are given notice well in advance (at least two (2) weeks) of the scheduled visit.

Sick leave is an earned right and should not be abused. A doctor's statement or other proof of illness may be required when abuse is suspected.

Employees who transfer to Oxford City Schools from other public agencies of the State of Alabama will be allowed to transfer accumulated sick leave upon receipt of written notice from the previous employer, certifying the amount of unused leave.

Sick leave may be accumulated with no maximum limit. However, employees will not be paid for unused sick leave upon termination or retirement.

Accrued sick leave may only be applied toward retirement by employees designated and deemed eligible by the Code of Alabama.

Personal Leave

The Board will grant five (5) days per year of personal leave with pay to all full-time employees. The employee, whenever possible, should request personal leave two (2) weeks in advance. Personal leave is non-cumulative and must be taken in half-day increments. Personal leave not taken by the end of the scholastic year will be converted to sick leave. Unused personal leave may be paid to certified teachers at the current daily rate of pay for substitutes instead of converting to sick leave. Certified teachers must request in writing to receive pay rather than sick leave.

Professional Leave

Full-time employees may be granted professional leave to attend workshops, conferences, seminars, etc. if the leave does not interfere with the daily operation of the employee's current assignment. Leave, for other purposes related to professional growth, may be granted, without pay, for a period not to exceed one year, subject to the same conditions and with approval of the Superintendent.

Travel Expenses

Personnel shall be reimbursed for travel expenses incurred while performing duties related to their jobs, when such travel is at the request of or pre-approved by the Superintendent.

In-System Travel

1. Travel to the Central Office is not reimbursable.
2. Travel for the purpose of procuring a meal is not reimbursable.
3. Travel within Calhoun County or limits of the School System is not reimbursable.

In-State and Out-of-State Travel

Request for Travel

All requests for travel must be submitted to the principal, if applicable, and then to the Superintendent on the School System's **Professional/Travel Leave Request Form**. Such request must show estimated travel costs to include: (1) Registration, (2) Travel costs, (3) Lodging, (4) Per Diem, and (5) Other. Further, the source of funds to support the estimated travel costs must be shown on the form.

Approval for Travel

All travel must be approved in advance by the Superintendent and, if applicable, the principal before any travel expenses can be incurred by the School System. All travel approvals shall be based on a signed copy of the **Professional/Travel Leave Request Form** showing the principal's recommendation, if applicable, and the Superintendent's signature of approval.

The tenure status of persons on extended professional leave will not be affected.

Military Leave

Employees who volunteer, are drafted, or are ordered to extended active duty with any component of the U.S. Armed Forces shall be entitled to reinstatement to their former positions or comparable positions if the right is exercised in a timely manner as noted below.

Military Leave for Training or Short Term Duty

Employees who are required to attend annual training or special active duty for training shall not suffer any loss of salary during the first twenty-one (21) days of such absence in any calendar year. Such employees who are ordered for such duty shall provide one copy of their orders to the Superintendent. Such leave will be without loss of benefits. Such arrangements shall apply to any "military call-ups."

Reinstatement to Positions After Extended Duty

Employees who volunteer, are drafted, or are called to active duty for extended periods will be placed on "Military Leave of Absence" upon written application by such employees and be entitled to reinstatement to their former or similar positions upon their return under the conditions that follow:

1. They must not have remained on active duty beyond their first opportunity for honorable or general release; and
2. They must report to claim reinstatement within ninety (90) days after completion of such service (31 days in case of individuals who undergo only six (6) months' active training or less).

Jury Leave

An employee will be given time off without loss of pay, annual leave if applicable, personal leave, or sick leave when:

1. Performing jury duty.
2. Summoned to appear as a witness before a court, grand jury, or other public body or commission, provided that for purposes of this subsection, a plaintiff or defendant shall not be considered a witness.

Maternity Leave

A full-time employee will be granted up to a maximum of one (1) year of maternity leave without pay. Persons on maternity leave will be paid for earned sick leave/or annual leave if applicable upon request. A person who resigns instead of taking maternity leave cannot be paid for unused sick leave. The tenure status of persons on maternity leave will not be affected. An employee returning from leave is entitled to a position similar to the one she held before maternity leave.

Annual Leave

One and one-fourth (1 ¼) days of annual leave are earned per month by 240-day employees; these may be taken at the employee's request upon approval of the appropriate coordinator/supervisor and by the Superintendent.

Annual leave accumulates to a maximum of twenty (20) days per year. Upon retirement, termination, or resignation, an employee will be paid for accumulated annual leave. A maximum of twenty (20) days of annual leave may be carried over into the next scholastic year. As of August 1, any days accumulated above twenty (20) will be forfeited.

Leave of Absence

Personnel may be granted leaves of absence at the discretion of the Board as recommended by the Superintendent. If leave is granted, certain employment rights of the employee continue as if he/she were in regular employment. The employee is entitled, upon completion of leave, to return to a position comparable to the one occupied in the School System when leave was granted unless transferred by the Board under the provisions of **The Code of Alabama**. Leaves of absence shall be without pay except in cases where sick or military leave can be used. Leave time will not count for retirement purposes. A leave of absence does not impair the tenure status of an employee. The causes for which leaves of absence may be granted are:

1. Study
2. Illness
3. Maternity
4. Teaching abroad
5. Military service
6. Other good and just causes

Leaves of absence normally are granted for a period of time not to exceed one (1) year; however, if in the opinion of the Board there is valid reason, such leave may be extended for one (1) additional year.

Employees on an approved leave without pay will not earn any leave days (sick, vacation, personal, etc.) while on such leave.

Employees on an approved leave without pay will not receive a yearly experience credit for placement on the salary schedule unless they work half (½) or more of their respective contract days during that year.

REDUCTION IN FORCE OF CERTIFIED PERSONNEL

In the event it becomes necessary to reduce the number of certified staff employed by the School System due to a decrease in student enrollment, financial exigency, changes in curriculum, consolidation or reorganization, the following procedure shall be followed to determine staff members to be affected:

Procedure

1. Attrition by resignation, retirement or voluntary leaves of absence shall be the first method used to reduce the force.
2. Based on the philosophy of maintaining the best educational program possible, the Board, upon recommendation of the Superintendent, shall identify the grade level(s) and discipline area(s) from which staff members are to be reduced in force at respective times. For the purpose of reduction in force, the following items are defined:
 - a. Grade Level - Elementary grades K-6, Middle School grades 7-8, High School grades 9-12, administration and supervision, special education, counseling and guidance, Career Technical programs, and Federal programs.
 - b. Discipline Area - Certificate endorsement area(s) and current major teaching or administration/supervisory assignment(s) within the School System.
3. Following the identification of the grade level(s) and discipline area(s), the number of staff to be reduced from each area(s) will be determined by the Board, based on a recommendation by the Superintendent. All staff members within the identified area(s) will be rank ordered from the greatest amount of service time to least amount of service time within the School System. The staff member(s) with the least amount of continuous service time (seniority), based on actual date of employment as reflected in the Board minutes, shall be the first to be reduced in force. In the event two or more staff members have the same amount of continuous service time within the School System based on Board minutes, the following additional criteria will be used to determine the order of reduction in force:
 - a. Degree(s) held by the staff member (the staff member with the lower degree to be reduced first).

Procedure

1. Attrition by resignation, retirement or voluntary leaves of absence shall be the first method to reduce the force.
2. Based on the philosophy of maintaining the best educational program possible, the Board, upon recommendation of the Superintendent, shall identify the work area(s) and work site(s) from which staff members are to be reduced in force at respective times. For the purpose of reduction in force, the following items are defined:
 - a. **Work Areas**

Child Nutrition personnel, custodians, bus drivers, secretaries/bookkeepers, maintenance, and teacher aides.
 - b. **Work Sites**

Central Office to include: Child Nutrition personnel, bus drivers, secretaries/bookkeepers, and maintenance.

Local schools to include: Child Nutrition personnel, custodians, secretaries/bookkeepers, teacher aides.
3. Following the identification of the work area(s) and work site(s), the number of staff to be reduced from each area(s) and site(s) will be determined by the Board, based on a recommendation by the Superintendent. All staff members within the identified work area(s) and site(s) will be rank ordered from greatest amount of service time to least amount of service time within the School System. The staff member(s) with the least amount of continuous service time (seniority), based on actual date of employment as reflected in the Board minutes, shall be the first to be reduced in force. In the event two or more staff members have the same amount of continuous service time within the School System based on Board minutes, the following additional criteria will be used to determine the order of reduction in force:

- a. Formal education attained by the staff member (the staff member with the least amount of formal education to be reduced first).
 - b. Total years of work related experience (the staff member with the least number of years experience to be reduced first).
4. In order for a staff member selected to be reduced in force by these procedures to displace a staff member in the same work area at another work site with less service time, said staff member must be capable of handling the entire position of the employee they seek to displace and must submit a written request for such transfer within five (5) days after receipt of the notice of reduction in force.
5. The names of permanent personnel reduced in force shall be placed in a School System employment pool. Said personnel shall be given the opportunity in reverse order of their lay-offs to fill the first comparable employment vacancies for which they are qualified. Non-certified personnel reduced in force may re-apply for any position for which they are qualified.
6. Provided personnel in the employment pool are recalled, they shall be issued a letter of reappointment by registered mail at least fifteen (15) working days prior to the date of re-employment. Said personnel must accept or reject the offer of re-employment in writing by registered letter within five (5) days of receipt of the offer.

WORTHLESS CHECKS

The face value of a check returned for insufficient funds (NSF) may not be absorbed as a cost by State, Federal, or public local funds. An uncollected check is considered a bad debt. Bad debts are not an allowable expenditure for any State, Federal or public local funds. Therefore, the following policy must be implemented and enforced in each local school:

1. The local principal or other school administrator must exercise due diligence in the acceptance of checks and in the collection of NSF checks. A list of individuals who have submitted bad checks should be maintained in order to prevent the receipt of any further checks from those individuals. Uncollected NSF checks may not be simply written off. The local school or School System must take necessary actions to collect the check amount and must document those actions and procedures.
2. A NSF check fee shall be charged to the check writer for all returned checks whether collected or not. The fees collected will be utilized to cover any expenses incurred in collecting checks and in covering the face value of any uncollected checks. The collected NSF check fees will be maintained in a non-public local school fund. If a check is determined not to be collectable, this non-public fund can then be utilized to transfer funds to the appropriate State, Federal or public funds to cover the amount of the NSF check. The non-public fund must not be restricted or designated for any other purpose such as for a club or other fund raising purpose.
3. Uncollected NSF checks will be turned over the Worthless Check Unit of the Calhoun County District Attorney's Office pursuant to its policies and procedures.

RISK ASSESSMENT POLICY

The Oxford City Board of Education recognizes the following areas of the internal control environment to be high risk areas and have taken the steps listed to mitigate those risks:

Payroll

Because of the large volume of transactions and percentage of total expenditures, payroll is considered a high risk area. In order to mitigate this risk, all payroll transactions must be approved by the Superintendent or the CFO. Payroll checks must be signed by the Superintendent and the CFO and only the Superintendent and the CFO have access to the bank's web site for transmittal of direct deposit transactions.

Receipting of Funds

To properly segregate duties associated with the receipt of funds, the mail is opened by the Superintendent or the CFO who gives the checks received to the receptionist for receipting and preparation of the bank deposit. The deposit is taken to the bank by the Assistant Custodian of Funds. The bank reconciliation is prepared by the Supervisor of Local School Accounting. The reconciliation is approved by the Superintendent and the CFO.

Accounts Payable

All purchase order requests require a written requisition. This requisition must be signed by the Administrator responsible for the source of funds being expended. The CFO will check the general ledger coding and will also sign the requisition. The Assistant Custodian of Funds will issue a purchase order based on this requisition. This purchase order must be signed by the Superintendent. When the goods are received the Administrator or their delegate will check the packing slip and confirm that all items ordered were received. The invoice will be turned over to the Assistant Custodian of Funds for payment. The original copies of the invoice, purchase order, and requisition will be retained together. The CFO will approve the payment of the invoices and all accounts payable checks will require the signatures of the Superintendent and the CFO.

Local Schools

In order to mitigate the risk of errors or irregularities in the accounting system at the local school level, the Board employs a Supervisor of Local School Accounting. The Supervisor of Local School Accounting must approve all local school accounts payable batches before the bookkeeper issues checks. The Supervisor also regularly reviews the bookkeeping procedures at the local school level. Any questionable accounting transaction is brought to the attention of the Superintendent and the CFO for resolution.

Inventory

Any equipment purchased by the Board of Education is required to have an inventory control tag. An inventory of assets owned by the Board is maintained at the Central Office. A review of the inventory is conducted each year system-wide by personnel assigned by the Director of Operations. Any deletions from the inventory must be submitted in writing to the Director of Operations and CFO. Any discrepancies between the actual inventory and the inventory list must be explained to the Director of Operations by the responsible local school personnel.

PURCHASING

The Board directs that expenditures in excess of Alabama State bid law limits (41-16-50 and 41-16-51 of the Alabama Code) made for labor, services, work, the purchase or lease of materials, equipment, supplies or other personal property, with limited exception, shall be contracted by free and open competitive bidding with sealed bids and shall be awarded to the lowest responsible bidder meeting specifications. (Exception for professional services; for example, architects, attorneys, etc.)

The Board will purchase locally provided products of equal quality when readily available from local suppliers at prices equal to other non-local vendors.

Pursuant to State law, the Board when purchasing personal property or contractual services shall give preference to commodities produced in Alabama or sold by Alabama persons, firms or corporations.

The Board shall not be limited to making purchases within Calhoun County or the State of Alabama when such local purchases do not meet the quality of competitive price of goods or services available from outside Calhoun County or State of Alabama.

The preference may be given a local vendor having a place of business in Calhoun County for the purchase of personal property, when a bid submitted by such resident bidder meets specifications and is no more than three percent (3%) greater than the bid of the lowest responsible bidder having a place of business outside of Calhoun County.

All bids shall be opened at the office of the Board. Bids may be referred by the Board to the Superintendent and staff for consideration. The Board shall then consider the recommendation of the Superintendent before making the final decision. The Board reserves the right to reject any or all bids.

If any person, firm, or corporation whose name is listed fails to respond to solicitations, such listing may be cancelled. If the purchase or contract involved an amount less than the current legal base, the purchase or contracts may be made upon the basis of sealed bids or in the open market. No purchase or contract involving an amount in excess of the current legal base shall be divided into parts involving lesser amounts for the purpose of avoiding the requirements of this policy.

The Board shall endorse competitive bidding to ensure that the highest possible efficiency at lowest possible cost is achieved.

FEDERAL PROGRAMS INVENTORY PROCEDURES

The Elementary and Secondary Education Assistance Act of 1965 (ESEA) reauthorized by the Every Student Succeeds Act of 2015 (ESSA) requires, among other things, that Local Educational Agencies (LEAs) implement and maintain financial management systems that substantially comply with federal systems management requirements. These requirements, detailed in 2 C.F.R., Part 200.62 Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (2 C.F.R., Part 200) states that LEAs shall provide "effective control over and accountability for all funds, property, and other assets. Recipients shall adequately safeguard all assets and assure they are used solely for authorized purposes." The requisition for the purchase of equipment should follow the LEA's internal control procedures. Procedures should be in place to ensure prior approval of all purchases and provide specifications for receiving the equipment and issuing the equipment to the proper locations.

Procedures for the Requisition of Items with Federal Funds

1. Local schools must submit an Oxford City Schools Requisition Form along with justification for the purchase to the Federal Programs Liaison.
2. Federal Programs personnel will verify alignment with the schoolwide plan and availability of funds in correct General Ledger Codes.
3. Once the requisition is approved, it is converted to a purchase order by the Accounts Payable Department.
4. The school places the order using the purchase order number generated.
5. Once the item(s) is(are) received and verified, invoices are submitted to Federal Programs Liaison.
6. Federal Programs submits the invoice for payment to the Accounts Payable Department.
7. If an approved invoice qualifies for Title I Inventory:
 - a. An inventory card is completed, using the serial number, model number, location, room number, vendor, GL number, cost of item, date acquired, and purchase order number, by Finance Personnel.
 - b. An inventory label is assigned by Finance Personnel and sent to the appropriate location for placement on the item.
 - c. The item is added to the location's inventory by the Administrative Assistant to the Director of Operations.

Procedures for Disposition of Inventory

1. When an item is broken beyond repair or repair cost would be greater than replacement, a school will request the removal of an item from inventory by completing the Inventory Deletion Form.

2. Once the completed form is received and reviewed by the Federal Programs Liaison, the item is removed from inventory.
3. When necessary, the correct department is notified, and removal is scheduled with the school.

**Equipment items with an acquisition cost/current per unit fair market value of less than \$5,000 and are more than three years old may be retained, sold, or disposed of, with no further obligation to ALSDE. The disposition of such items should be so noted on the equipment inventory maintained by the LEA.

Loss, Damage, or Theft of Inventory item

1. Schools will notify the Federal Programs Liaison should an item be lost, damaged, or stolen.
2. Schools will maintain documentation of notification of loss, damage, or theft of equipment, and if appropriate, any police reports.
3. Item will be removed from inventory if not recovered.

Private School Inventoried Items

Funds from several federal programs may be used to purchase materials and equipment to meet the needs of participating (students eligible to receive services) private school students. It is important to remember that although the equipment may be used by the private school, the LEA purchasing the equipment retains title and must continue to account for the equipment in its inventory management system. The ALSDE shall require all LEAs serving private school children to implement adequate procedures and internal controls to account for the location, custody, and security of materials, equipment, and property purchased with federal funds for private school use.

Procedures for Inventory of Items to be used at Private Schools:

1. To ensure all activities including the purchase of equipment paid for with federal funds, are necessary, reasonable, allocable, and allowable, participating private schools must submit requests to the Federal Programs Liaison.
2. The requests are reviewed by the Federal Programs Liaison to verify alignment with the implementation plan and availability of funds in correct GL Codes.
3. Once the request is approved, it is converted to a purchase order by the Accounts Payable Department.
4. The Federal Programs Liaison places the order using the purchase order number generated.
5. Once the item(s) is(are) received and verified, invoices are submitted to the Federal Programs Liaison, who arranges for delivery to the private school.
6. The Federal Programs Liaison submits the invoice for payment to the

Accounts Payable Department.

7. If an approved invoice qualifies for Title 1 Inventory, the procedures outlined above will be followed with one exception: the Federal Programs Liaison will ensure the inventory label(s) is(are) attached to the item(s).

**The LEA will follow the same disposition plan for the item purchased for participating private school students as with any equipment purchased with federal funds in the public school.

Consumable Items

Consumable items are not included in the Title 1 Inventory, however, the procedures for requisitions, purchasing and verification of consumable items is the same as Title I Inventory. Local schools set procedures for maintaining the documentation for consumable items.

**Each school should label materials "Property of Title I" with black Sharpie/permanent marker to items that are not consumable but do not qualify as an inventory item.

**Inventoried items are any single items with a purchase price of \$500 or greater, warranted item, or an item that would be serviced rather than replaced.

Inventory will be monitored annually according to Oxford City Schools procedures. Each school's administration must report any discrepancies or changes regarding items purchased with Title I funds to the Federal Programs Liaison in writing within one (1) week of the completion of the inventory process.
