

HIGH SCHOOL AND BEYOND MEET UP

MAY 21, 2024 FROM 12:30-1:30 ONLINE

VIA ZOOM

The LILRC High School and Beyond Interest Group was created to promote discussion and provide a platform where academic, public, and school librarians can share information on the needs of high school students transitioning to college and life. With the conclusion of the Stony Brook University Libraries "Ready For Success" summit on March 15th, the need for continued conversations is vital for our collective students' success.

Please join us as well as high school librarians and academic librarians to meet up to discuss their 2023-2024 school year.

What worked? What did not work? Successes? Challenges?

This will be a helpful sharing opportunity for all those in attendance. We will also plan for a regular monthly conversation during the 2024-2025 school year.
