Contingent (Austerity) Budget

- If the budget vote fails, the BOE would be required to adopt a contingent “austerity” budget.
- If the budget fails on the first vote, the Board can decide to put up the same or an adjusted budget for a public re-vote or adopt a contingency budget. If the re-vote fails, the District would be forced to adopt a contingency budget.
- Under the tax levy cap law, the district must revert to last year’s tax levy, which is \$5,339,183 less than this year’s proposed tax levy. This means the school district could not collect any more revenue through property taxes than it collected this year.

Contingent (Austerity) Budget

- This would require a reduction of more than **\$5.3 million** from the 2020-2021 proposed budget impacting:
 - Class size
 - Staffing
 - Academic programs
 - Non-mandated study skills
 - Reading, math and special education services
 - After-school clubs and athletic programs
 - Early morning drop off
 - Capital projects
 - Other transportation services
- All contractual and debt service obligations would remain in effect.

NYS Election Law & Rules for Voter Registration

- In order to vote, you must be 18 years of age or older, a citizen of the U.S. and have lived in the district for at least 30 days
- Register to vote by TBD
- Qualified voters can obtain applications for absentee ballots from the district website
- Completed ballots must be received by TBD

Frequently Asked Questions

Q: What is the impact of this budget on my real estate taxes?

A: Real property tax liabilities are a function of assessed values, legislative adjusted base proportions and tax levies. Nassau County's phase in of the new re-assessment figures over the next five-year period makes this a difficult question to answer. It will depend on whether your home has been correctly assessed over the years and if not, what adjustments the Nassau County Assessor has or will be making to your property. It also depends on any improvements you have made to your home, and any exemptions you may have.

Q: How much support is given to private and parochial students?

A: This budget provides support for transportation, library materials, textbooks, nursing, psychological, social work, speech therapy and related service in excess of \$6,500,000 a year.

Q: How much of this budget is dedicated for security?

A: \$2,764,181

Frequently Asked Questions (continued)

Q: What is a Fund Balance?

A: Funds remaining at the end of a fiscal school year. These funds can accumulate over time if the trend for revenues annually exceeds expenditures.

Q: What is a Reserve?

A: A Reserve is a Reservation of Fund Balance. Education Law, General Municipal Law, and Real Property Tax Law govern what can be a Reserve and how much can be maintained as an Unreserved Unappropriated Fund Balance.

Q: How much can a school district legally have in Fund Balance and Reserves?

A: On June 30, the District can maintain in its Unreserved, Unappropriated Fund Balance 4% of the ensuing year's budget. Individual reserve amounts are based on the level of anticipated expenditures that will be funded by the respective reserves.

Frequently Asked Questions (continued)

Q: How much Fund Balance and Reserves does the District have after anticipated additions and future appropriated amounts?

A: Approximately \$54,000,000.

Q: How are Fund Balance and Reserves used?

A: They are non-operating revenues and are typically used for non-operating expenditures such as Capital expenditures. However we are now using these funds in support of the operating budget. \$5.7 million is being used as a funding source in the 2020-2021 budget. It is also enabling the District to meet payroll and other expenditures when budgeted revenues are not being received as scheduled, such as what is happening during this Coronavirus Pandemic.

Q: What is the District's contingency plan in the event of a mid-year state, federal or local reduction in aid?

A: The District would use Reserves and Fund Balance to replace the shortfall in revenues.

Frequently Asked Questions (continued)

Q: What is State Aid?

A: The District receives approximately 4% of our revenue budget from State Aid. It is funding from New York State calculated by formulas that are dependent on the property and income wealth in a school district, student daily attendance and enrollment, and the level of expenditures in specific categories.

Examples of some of the expenditures that are aided are:

- BOCES
- Building Expenditures
- Computer Software
- Library Materials
- Special Education
- Textbooks
- Transportation

Q: How has the coronavirus pandemic affected the 2020-2021 budget? The 2019-2020 budget?

A: There is a delay in the receipt of property taxes; construction projects have been disrupted; the cancellation of various programs requiring the refund of registration fees.

Frequently Asked Questions (continued)

Q: How is a budget formulated and are items in the budget prioritized?

A: Budgeting starts with what is mandated: contractual obligations, labor agreements, debt service, outside service contracts; and then additional amounts are added for what is deemed necessary to provide the best education possible for our students. Revenue sources are then analyzed as to whether they can be counted on as a source of funding, and decisions are made accordingly.

Q: What cost saving methods are employed in the District?

A: The District participates in cooperative purchasing arrangements; cooperative transportation, utilizes Federal, State and County contracts, entered into an energy performance contract, utilizes BOCES, and judiciously utilizes fund balance and reserves to finance capital projects instead of borrowing the money.

Q: Does the District partner with other school districts and/or governments to deliver services to students and residents?

A: Yes, the District has an arrangement with the Great Neck Parks District for security console operations and use of facilities and fields. The District also rents out our facilities to the Great Neck Library and the Great Neck Social Center.
