

Managing a GNPS iPad at Home with ScreenGuide

ScreenGuide

ScreenGuide is a tool for parents to help manage their child's district-issued iPad while at home. Using ScreenGuide will allow parents to set up restrictions on the iPad outside of school hours to supplement the restrictions put in place by the school.

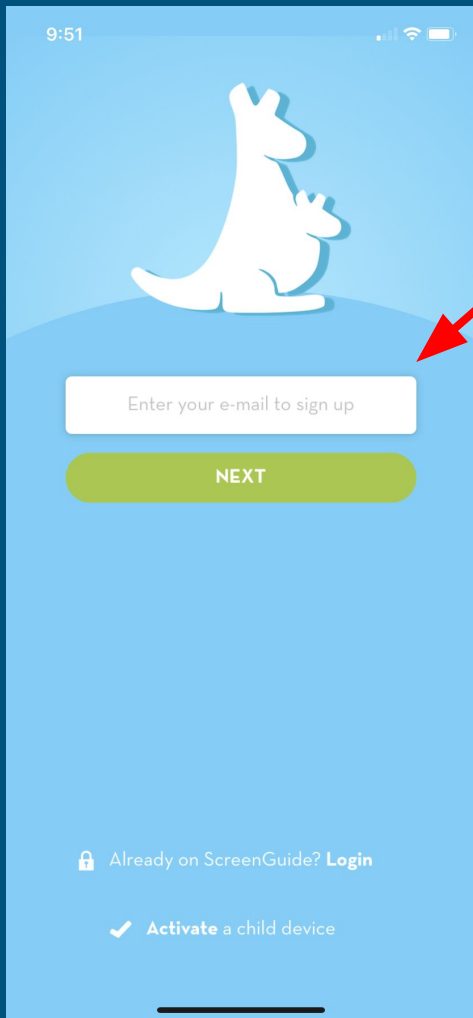

On weekends and days when schools are closed, parents will have 24-hour control over the school device. On weekdays, parents will have control over the device between the hours of 4:00 p.m. and 6:30 a.m.

Installing ScreenGuide

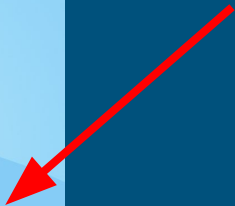

To set up ScreenGuide, you will first need to download the ScreenGuide app on your phone. Once the app is installed, follow the directions in the following slides to connect the app to your child(ren)'s device(s).

[Click here to download for iOS](#)

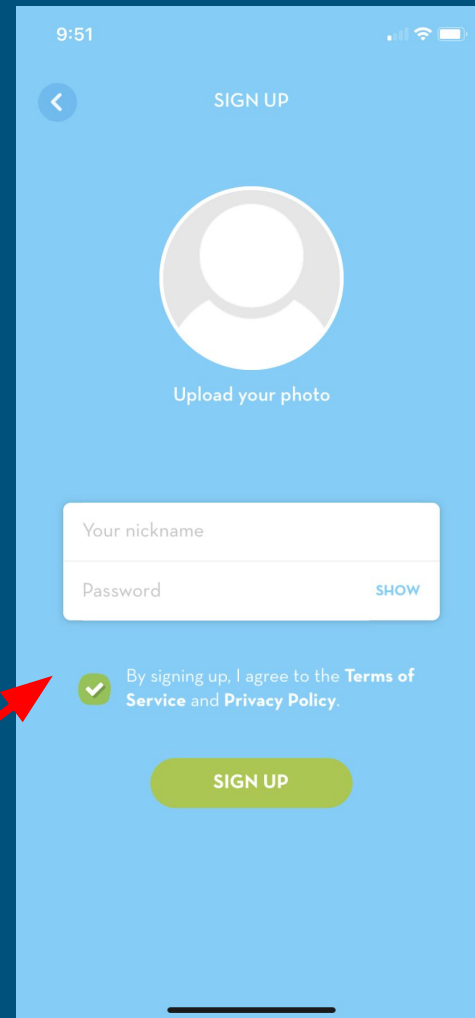

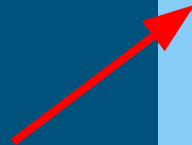

[Click here to download for Android.](#)

1. Enter a personal email address and then click "Next"

2. Enter a username and password, agree to the Terms of Service, and click "Sign Up"

Add your first child

It's time to power up your kids digital experience! Before managing your kids' onscreen activities, let's add them into the ScreenGuide app!

ADD CHILD

1. Click "Add Child"

2. Enter your child's name and click "Add Child"

9:53

Add Child

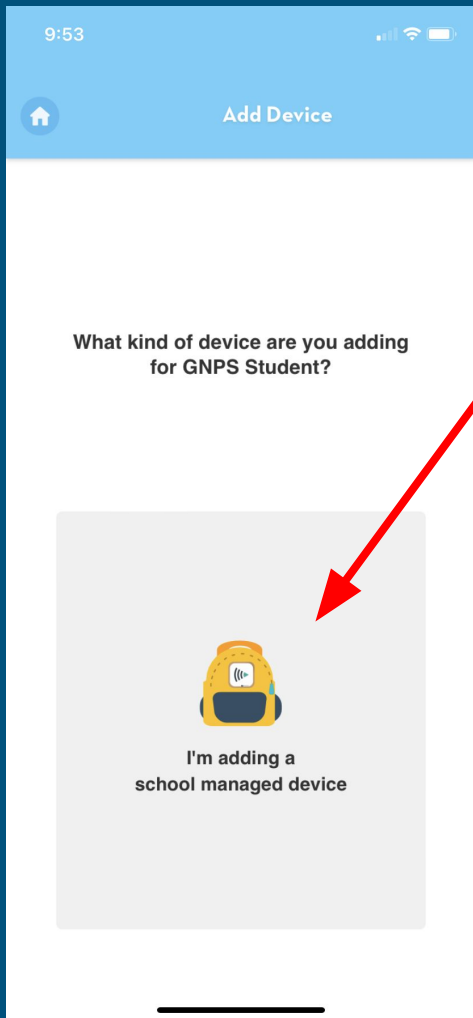

Upload a child photo

GNPS Student

Birthday (optional)

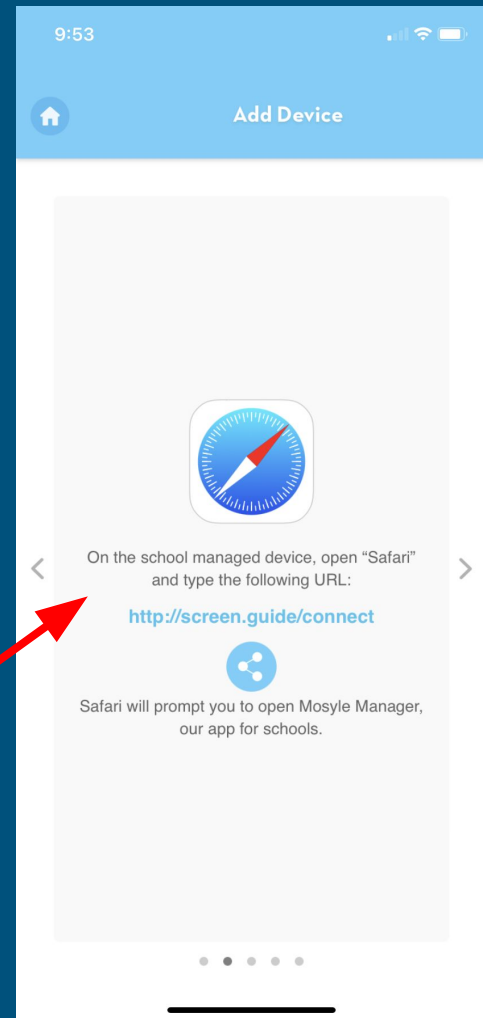

By not informing your child's birthday, the comparison with the trend in Analytics will not be accurate and some restrictions may not work.

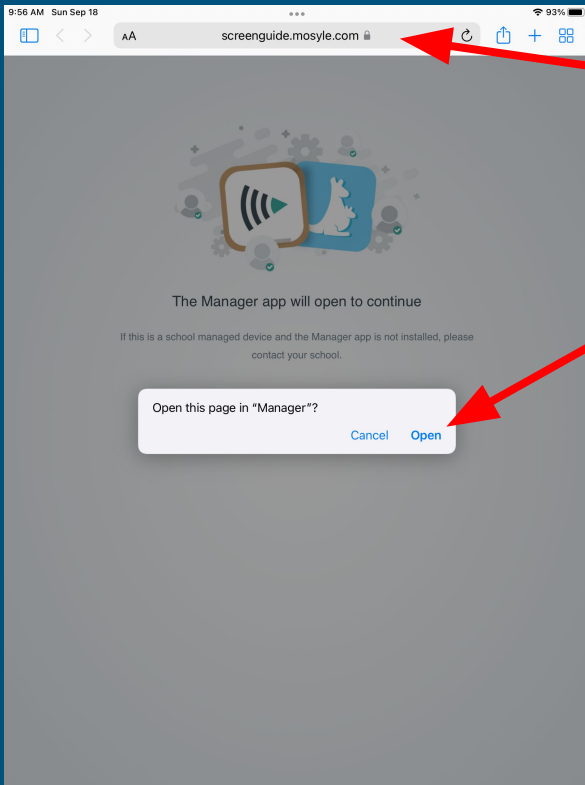

ADD CHILD

1. Click on "I'm adding a school managed device"

2. You will see this screen. Open Safari on your child's district-issued iPad

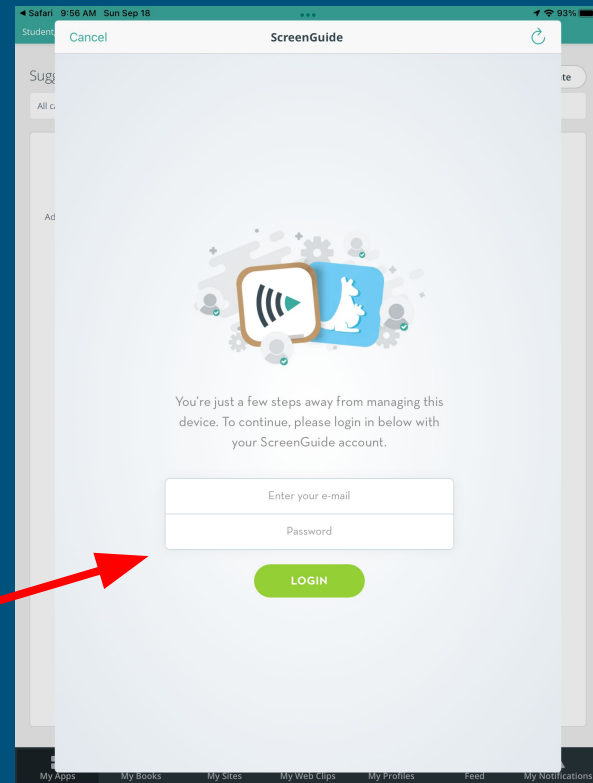

1. On your child's iPad, open Safari and go to screen.guide/connect

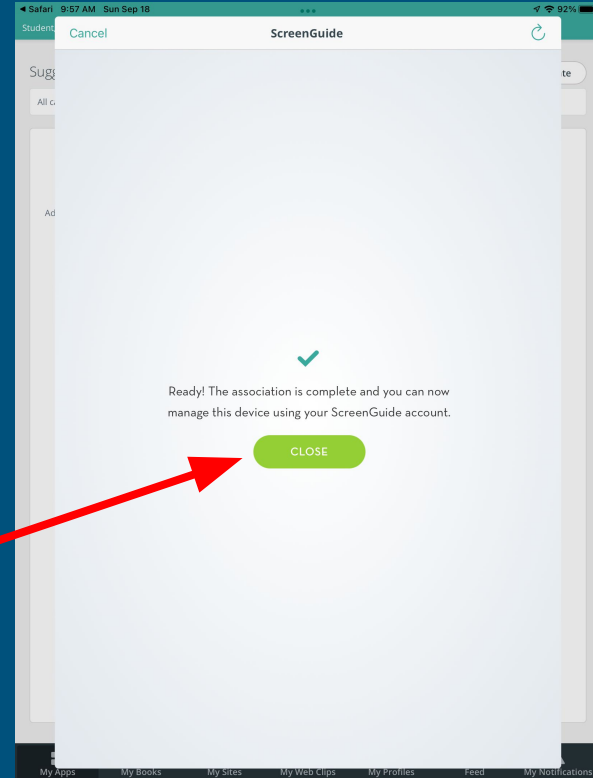

2. Click "Open" to be redirected into the Manager app

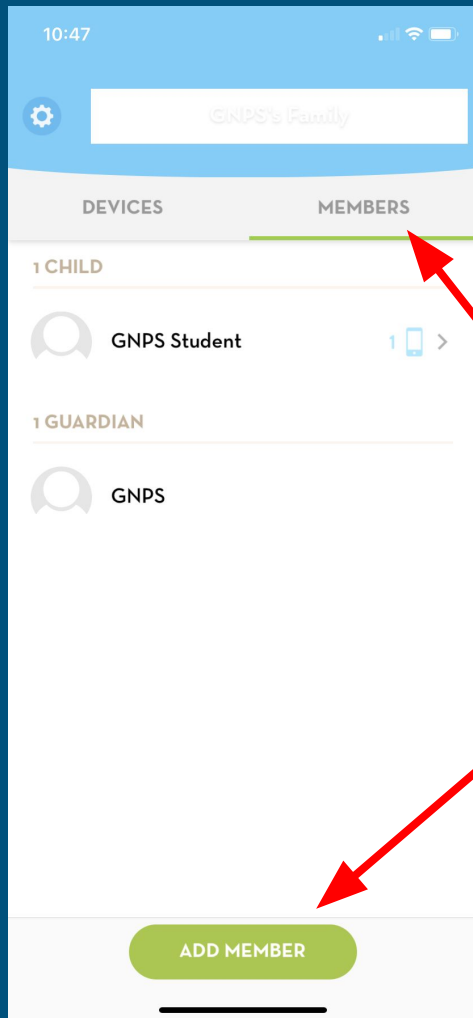

3. In the Manager app, enter the email and password that you used to create your ScreenGuide account

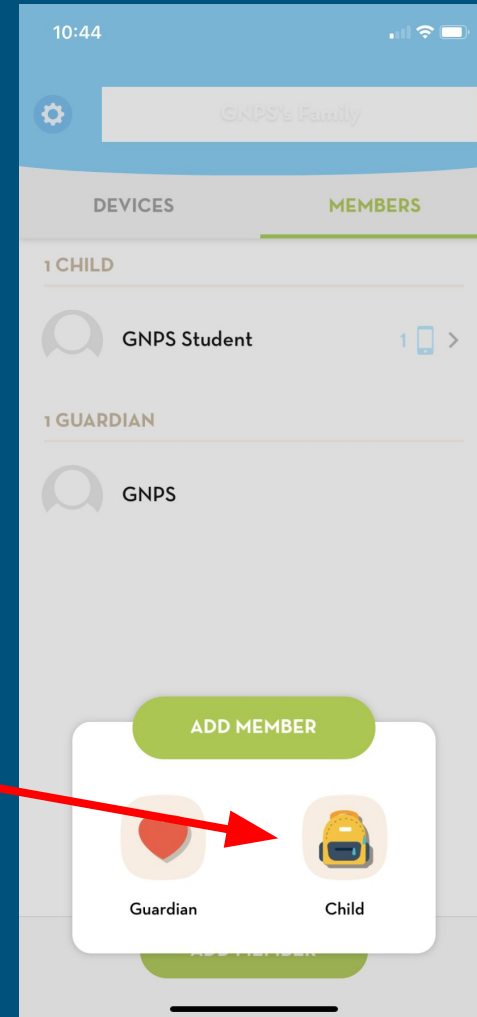

1. In the passcode field,
enter 45091

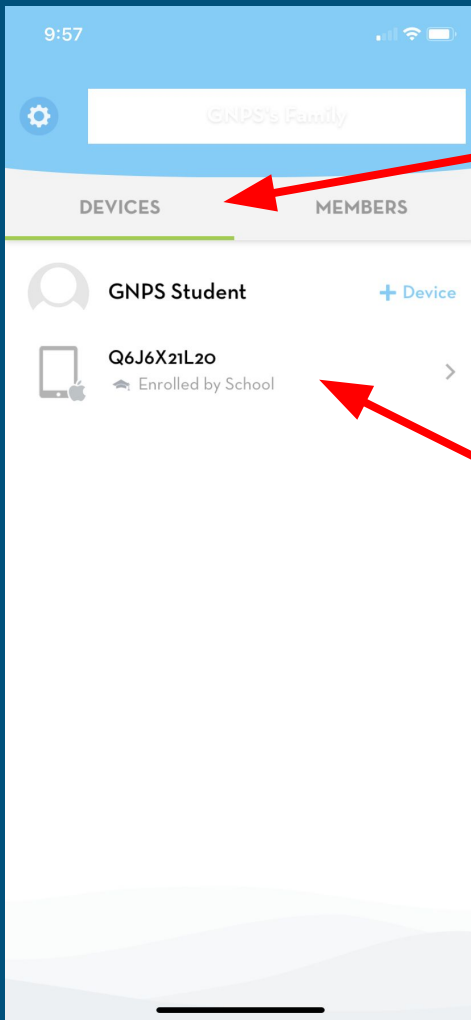

2. Click "Close" and go
back to the
ScreenGuide app on
your personal device

1. If you do not need to add any additional children, you can skip to the next slide.
2. When you open the ScreenGuide app, you will see this screen. If you need to add an additional child, click on "Members"
3. Click on "Add Member" and then "Child" and then repeat the directions in [slides 7-9](#)

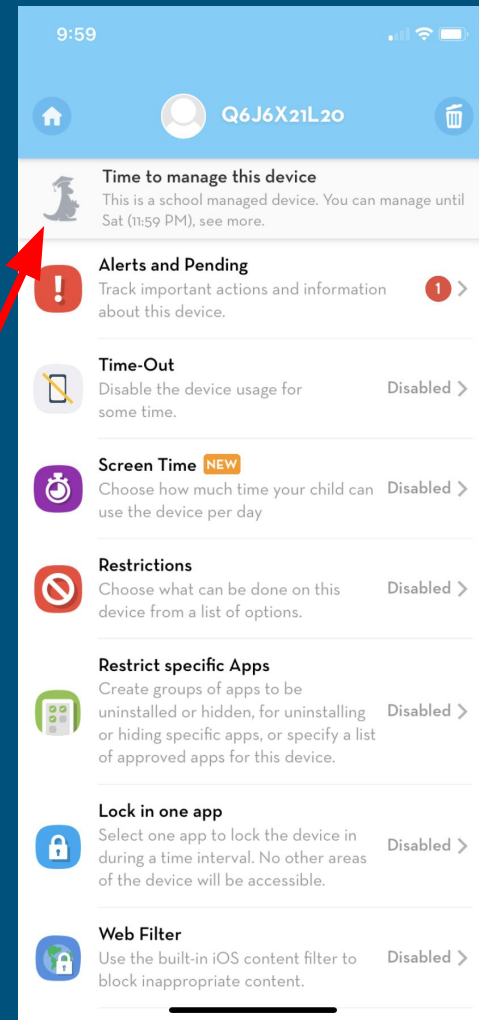

1. When opening ScreenGuide, click on “Devices” to see the list of devices you are able to manage

2. To manage a device, tap on it

3. Tapping on a device will show all of the restrictions available and their current status. You will also see a message at the top detailing the management schedule.

4. The next slide will provide detail on each setting parents can manage.

Overview of ScreenGuide Management Settings
