

WSD Student Illness Guidelines

The following guidelines have been developed to help you determine when your student needs to stay home or go home from school

In most situations, any student who develops new, unexplained symptoms should not return to campus until it is clear that symptoms are mild and improving or are due to a non-infectious cause. For some instances, a healthcare provider documentation may be requested.

<p>COVID-19 Positive Please notify the school office if your student tests positive</p>	<ul style="list-style-type: none"> • Must isolate/stay home and return to school when: <ul style="list-style-type: none"> ○ Student is fever free for 24 hours WITHOUT using fever reducing medication AND ○ Student if feeling well with no symptoms or the symptoms are mild and improving
SYMPTOMS	Should your student stay home or go home from school?
<p>Fever</p>	<p>Yes, if</p> <ul style="list-style-type: none"> • Fever of 100.4°F or greater, or student acts ill or student unable to comfortably participate in school activities <p>Must: Stay home until 24 hours have passed since resolution of fever without the use of fever-reducing medications</p>
