Summary and Background Information

On March 11, 2021, the President signed into law the American Rescue Plan Act of 2021 (ARP). ARP makes available \$122.8 billion nationally in a third round of Elementary and Secondary School Emergency Relief (ESSER) funds. New York State has been allocated nearly \$9 billion under the ARP Act's Elementary and Secondary School Emergency Relief (ESSER) Fund.

The federal ARP statute requires that States reserve ARP ESSER funds for three State-level reservations for evidence-based activities and interventions that respond to students' social, emotional, mental health, and academic needs and address the disproportionate impact of COVID-19 on students from low-income families, students of color, English learners, children with disabilities, students experiencing homelessness, children and youth in foster care, and migratory students.

- Not less than 5 percent of the State's grant must be reserved to carry out, directly or through subgrants or contracts, activities to address the academic impact of lost instructional time by supporting the implementation of evidence-based interventions.
- Not less than 1 percent of the State's grant must be reserved to carry out, directly or through subgrants or contracts, the implementation of evidence-based summer enrichment programs.
- Not less than 1 percent of the State's grant must be reserved to carry out, directly or through subgrants or contracts, the implementation of evidence-based comprehensive after-school programs.

The 2021-2022 enacted New York State budget fully allocated the required SEA reserves as subgrants to 398 LEAs and NYSED has made allocations to two additional LEAs. Specific LEA allocations are detailed in Columns D, E, and F in the **ARP ESSER Allocations Chart** (see also in the Document Library). Please note that these funds are in addition to the *90% LEA ARP-ESSER ALLOCATION* listed in Column C of that workbook and must be budgeted for separately.

As indicated in NYSED's approved **ARP ESSER State Plan**, NYSED has included within this application a list of evidence-based interventions related to each state reserve. LEAs will be required to utilize state reserve funds to implement evidence-based interventions either chosen from the NYSED-selected list or from another reputable source (such as, but not limited to, the What Works Clearinghouse).

**RESOURCES RELATED TO EVIDENCE-BASED REQUIREMENTS.**

LEAs must select and implement evidence-based activities and interventions either chosen from the NYSED-provided list (embedded within each section of the application) or from another reputable source. Selected interventions must fall into one of the four tiers of evidence defined in the Every Student Succeeds Act (ESSA). Specifically, evidence tiers are defined as:

- **Tier 1 - Strong Evidence:** Supported by strong evidence from at least one well designed, well implemented experimental study (randomized-control groups). Studies show that this strategy improves a relevant student outcome (e.g. reading scores, attendance rates). In these studies, students have been randomly assigned to treatment groups or control groups, so that researchers can speak with confidence that those who participate in the intervention strategy outperform those who do not. These studies meet the What Works Clearinghouse evidence standards without reservations. The studies use large, multi-site samples.
- **Tier 2 - Moderate Evidence:** Supported by at least one well-designed and well-implemented quasi-experimental study (matched groups, interrupted time series, et al.) Studies have found that the strategy improves a relevant student outcome (e.g. reading scores, attendance rates). Students in these studies have not been randomly assigned, but researchers have used statistical matching methods that allow them to speak with confidence that the strategy results in an improved outcome. These studies meet the What Works Clearinghouse evidence

---

Page Last Modified: 10/22/2021

standards with reservations. The studies use large, multi-site samples. No other studies show that this strategy negatively impacts an outcome.

- **Tier 3 - Promising Evidence:** Supported by at least one well designed, well implemented correlational study with statistical controls for selection bias. There is evidence that this strategy improves a student outcome (reading scores, attendance rates), but that research may consist of correlational studies -- studies that can show a relationship between the strategy and outcome but cannot show that the improved outcome was the result of the strategy. The studies supporting Tier 3 strategies do not have to be based on large, multi-site samples. A strategy that would otherwise be considered Tier 1 or Tier 2, but it does not meet the sample size requirements, is considered Tier 3. No other studies show that this strategy negatively impacts an outcome.
- **Tier 4 - Demonstrates a Rationale:** High-quality research findings or positive evaluation suggests that this will likely improve student outcomes or other relevant outcomes; and there are ongoing efforts to examine the effects of such activity, strategy, or intervention. Based on existing research, the intervention cannot yet be defined as a Tier 1, Tier 2 or Tier 3. However, there is good reason to believe — based on existing research and data — that the intervention could improve relevant student outcomes.

Further information may be found in the **Federal Guidance on Evidence-Based Interventions**. There are a number of resources available that identify research which supports specific interventions. Districts and schools are encouraged to review the various clearinghouses to find programs, strategies, and interventions that align to the needs identified during the needs assessment process. Finally, additional technical assistance materials to support LEA planning and implementation of strategies and interventions are available on the Department's **ARP ESSER webpage** and in the Document Library.

Project Period

March 13, 2020 to September 30, 2024 to obligate funds. Funds must be fully liquidated and an FS-10F Final Expenditure Report submitted by October 31, 2024.

Project Number

The project number stems for the three state-reserve programs are:

Fund Code	Project
5884-21-XXXX	ARP-ESSER 5% State-Level Reserve - Addressing the Impact of Lost Instructional Time
5883-21-XXXX	ARP-ESSER 1% State-Level Reserve - Comprehensive After School
5882-21-XXXX	ARP-ESSER 1% State-Level Reserve - Summer Learning and Enrichment

This number should be used on the appropriate FS-10 budget form.

Submission Deadline

Completed applications are due by **November 30, 2021** (with extensions by request) and will be reviewed on a rolling basis.

If an eligible school district does not intent to apply for one or more of its ARP ESSER State Reserve allocations, please advise NYSED by

**ARP-ESSER State Reserve: Consultation**

1. **An LEA must engage in meaningful consultation with stakeholders and give the public an opportunity to provide input in the development of its plan. Specifically, an LEA must engage in meaningful consultation with students; families; school and district administrators (including special education administrators); teachers; principals; school leaders; other educators; school staff; and their unions. Additionally, an LEA must engage in meaningful consultation with each of the following, to the extent present in or served by the LEA: Tribes; civil rights organizations (including disability rights organizations); and stakeholders representing the interests of children with disabilities, English learners, children experiencing homelessness, children in foster care, migratory students, students involved with the juvenile justice system, and other underserved students.**

**In the space provided below, please describe how the LEA has meaningfully engaged a diverse and representative set of stakeholders to receive feedback in developing its plans to address the impacts of lost instructional time, provide summer learning and enrichment, and support comprehensive after school activities using State-Level Reserve Funds.**

As a district, we are committed to transparent and inclusive planning. We engaged all stakeholders; parents, students, teachers, staff, union representation, administration and community members through a community survey and newsletter articles. We discussed opportunities and options at open Board of Education meetings. We engaged in discourse around the most advantageous use of the stimulus funding with our WFA and CSEA unit membership, English as a New Language Teacher, CSE/CPSE Chairperson, and McKinney-Vento Liaison. All stakeholder groups were meaningfully engaged in the process.

2. **In the space provided below, please provide the URL for the website(s) where the LEA Plan for using State-Level Reserve Funds is/will be publicly posted.**  
**For an LEA that does not have a website, the LEA may identify an online platform (e.g. social media group or post, file sharing service, email listserv) that allows plans to be directly communicated to students, parents or legal guardians, school staff, and other stakeholders. As appropriate, the LEA should provide details about how the plan will be made available to people who request it.**

3. **In the space provided below, please describe how the LEA will support ongoing engagement with parents and families, including engagement related to identified student needs, areas of student gains, and available assistance to families that will support student success.**

Our district is committed to ongoing collaboration with families. As data is collected and analyzed, parents and families will be part of the planning process. Through our Multi-Tiered System of Support teams, parents and families will remain informed regarding student needs, strengths, and opportunities for support.

**ARP-ESSER State Reserve: Comprehensive Needs Assessment**

- 1. In the space provided below, please describe how the LEA will determine the social, emotional, mental health, and academic needs of students, particularly those students disproportionately impacted by the COVID-19 pandemic, including students from low-income families, students of color, English learners, children with disabilities, students experiencing homelessness, children in foster care, and migratory students.**

We have a rigorous Multi-Tiered System of Supports that provides us with data around student well being and academic achievement. We collect many data points that are analyzed to inform our work - course grades, iReady benchmark data, attendance, behavior referrals, number of visits to the health clinics, and SEL screeners. We will be utilizing Panorama to assist us in visualizing all of this varied data and targeting the students who need the most supports with interventions that are tailored to their needs. Data collected through this system will be used when identifying students who would benefit from summer learning sessions and pro-social afterschool sessions. We are utilizing part of this funding to support an administrative level position that identifies student needs and ensures that the student is matched with appropriate interventions and supports. This administrative level position will support our building teams as they analyze data by subgroup (students from low-income families, students of color, English Language Learners, children with disabilities, students experiencing homelessness, children in foster care, and migratory students) to provide culturally responsive and targeted interventions.

**5% State-Level Reserve - Addressing the Impact of Lost Instructional Time: Program Design**

- The interventions implemented through the 5% State-Level Reserve to address the impacts of lost instructional time must be evidence-based and may include innovative approaches to providing instruction to accelerate learning. In the space provided below, please describe how the LEA selected evidence-based interventions that will address identified student needs. Include details about how the planned use of state reserve funds for addressing the impacts of lost instructional time will be coordinated with and aligned to other initiatives, including other state reserve funds, interventions detailed in the LEA's ARP-ESSER Plan: Part 2, or other LEA initiatives, including those supported by CARES, CRRSA, Title I Part A, IDEA or other fund sources.

Through our Multi-Tiered System of Supports, student data will be collected and analyzed to determine targeted supports needed. Our academic interventionist will lead this work among all three school buildings to ensure a systematic approach to identifying students who require academic and social/emotional supports. We are hiring a special education teacher to support the impacts of lost instructional time by providing targeted academic interventions in the classroom setting. We are hiring an AIS teacher to provide targeted academic interventions in the areas of English-Language Arts and Mathematics. These positions support our district's initiative around personalized learning as we work with our teachers to develop targeted instruction designed according student needs.

- In the chart below, please provide additional information about the planned evidence-based interventions that have been selected to address the impacts of lost instructional time. For each row, please select a planned intervention from the drop-down menu or select "Other Evidence-Based Intervention" as needed. For each planned intervention, indicate the amount of ARP State-Reserve funding that will be invested, the grade levels to be served, targeted student groups to be served, and a detailed description of the specific activities that will be implemented. Please add rows as necessary to reflect the district's entire plan for the use of State-Reserve funds to address the impact of lost instructional time.

- 3. In the space provided below, please describe how the LEA will monitor and evaluate the effectiveness of selected strategies to ensure that the interventions implemented respond to students' social, emotional, mental health, and academic needs. Provide details about how changes to the program plan (such as changes in identified areas of need or supports provided to students) will be communicated to stakeholders.

The district will monitor the effectiveness of identified interventions through the Multi-Tiered System of Support team at each building. This team is responsible for collecting, analyzing, and monitoring academic and social/emotional interventions for all students. The director of intervention services will work with teams in all three buildings to ensure a systematic approach to interventions, proper data collection, and monitoring. Students, families, teachers, and administrators will be informed regularly by members of the MTSS teams. Changes to a student's academic or social/emotional program will be clearly communicated to ensure all input is considered when determining how to best meet individual needs.

ARP-ESSER State Reserves - Comprehensive After School

Page Last Modified: 03/21/2022

**1% State-Level Reserve - Comprehensive After School: Program Design**

High-quality afterschool programs should have the goal of providing students with important opportunities for academic support and access to enrichment opportunities that help develop social, emotional, and leadership skills. These benefits are particularly important to students from low-income backgrounds, students who are struggling, and students at risk for later academic disengagement. High-quality afterschool programs have demonstrated positive effects on student math and language arts achievement, and programs strongly rooted in the school context can also have a positive impact on school related student outcomes, including greater self-confidence, increased civic engagement, better school attendance, improved high school graduation, and decreased delinquency.

- The interventions implemented through the 1% State-Level Reserve for comprehensive after school programming must be evidence-based and may include innovative approaches to providing instruction to accelerate learning. In the space provided below, please describe how the LEA selected evidence-based interventions that will address identified student needs. Include details about how the planned use of state reserve funds for comprehensive after school programming will be coordinated with and aligned to other initiatives, including other state reserve funds, interventions detailed in the LEA's ARP-ESSER Plan: Part 2, or other LEA initiatives, including those supported by CARES, CRRSA, Title I Part A, IDEA or other fund sources.**

Student data will be collected and analyzed to determine additional academic and social/emotional supports that are needed. Our afterschool programs/groups will be developed based on this student data and will target specific skills that will support student success during the school day. Students will receive research-based interventions and enrichment that can be individualized to meet their needs. We will also have a behavioral specialist working directly with students to help support disruptive behaviors.

- In the chart below, please provide additional information about the planned evidence-interventions that have been selected to address the impacts of lost instructional time. For each row, please select a planned intervention from the drop-down menu or select "Other Evidence-Based Intervention" as needed. For each planned intervention, indicate the amount of ARP State-Reserve funding that will be invested, the grade levels to be served, targeted student groups to be served, and a detailed description of the specific activities that will be implemented. This specialist will observe student behaviors and provide direct support to students in learning to replace inappropriate behaviors with appropriate behaviors that meet their needs.

3. In the space provided below, please describe how the LEA will monitor and evaluate the effectiveness of selected comprehensive after school programming/strategies to ensure that the interventions implemented respond to students' social, emotional, mental health, and academic needs. Provide details about how changes to the program plan (such as changes in identified areas of need or supports provided to students) will be communicated to stakeholders.

Our district will monitor the effectiveness of the afterschool programming/groups by continuing to collect and analyze student data (i.e. discipline referrals, attendance, report card grades, etc.). As student needs change throughout the year, the MTSS teams will identify targeted skills to be addressed during the afterschool programs/groups. Parents, teachers, students, and administration will participate in discussions regarding the focus of the afterschool programs/groups and will have the opportunity to provide input on the skills addressed.

ARP-ESSER State Reserves - Summer Learning and Enrichment

Page Last Modified: 03/21/2022

**1% State-Level Reserve - Summer Learning and Enrichment: Program Design**

Summer learning programs can offer another opportunity to accelerate learning, especially for those students most impacted by disruptions to learning during the school year. Schools and districts should design programs that work best in the local context and reflect the characteristics that evidence suggests lead to successful summer programs. These characteristics include: programs are voluntary, full-day lasting five to six weeks, include three hours of language arts and mathematics taught by a certified teacher each day, and include enrichment activities and experiences. Research points to the potentially positive benefits of strong summer programs. A longitudinal study of summer programs showed students who participated in the summer programs that were reviewed received some benefits in mathematics; however, students with high rates of attendance who attended programs for consecutive summers experienced the greatest learning gains. The amount and quality of instruction influenced the academic benefit, with the highest benefits to students attending programs with high-quality instruction provided by a certified teacher and high academic time on task.

- The interventions implemented through the 1% State-Level Reserve for summer learning and enrichment must be evidence-based and may include innovative approaches to providing instruction to accelerate learning. In the space provided below, please describe how the LEA selected evidence-based interventions that will address identified student needs. Include details about how the planned use of state reserve funds for summer learning and enrichment will be coordinated with and aligned to other initiatives, including other state reserve funds, interventions detailed in the LEA's ARP-ESSER Plan: Part 2, or other LEA initiatives, including those supported by CARES, CRRSA, Title I Part A, IDEA or other fund sources.**

The district will use assessment and SEL data to determine student in need of extra support or who would most benefit from enrichment. We will use this data to determine 2 week summer sessions that would be intensely focused on the skill or knowledge indicated as a deficit via the data. We feel this research based approach of targeted instruction based on assessment data will be most beneficial for students. We will offer a range of opporunities and dates so that students can access the learning. All summer oportuntities will continue to utlize our personalized learning philosophy and we will meet students where they are on their learning paths to ensure growth is made. A focus will be put on foundational mathematic and literacy skills, but we will also offer STEM and ARTS options.

- In the chart below, please provide additional information about the planned evidence-based interventions that have been selected to address the impacts of lost instructional time. For each row, please select a planned intervention from the drop-down menu or select "Other Evidence-Based Intervention" as needed. For each planned intervention, indicate the amount of ARP State-Reserve funding that will be invested, the grade levels to be served, targeted student groups to be served, and a detailed description of the specific activities that will be implemented. Please add rows as necessary to reflect the district's entire plan for the use of State-Reserve funds to address the impact of lost instructional time.**

We have highly skilled staff in key roles for data review. We use multiple types of data - standards based, objective formative, teacher input, SEL screening, summative and informal assessments. As we assess needs, we will adapt programming and communicate opportunities to our families.
