

PAC NOTES

5/2/24

Parent Suggestions:

1. Communicate how an incident is handled procedurally so parents understand the process and time it takes.
2. It is suggested to disallow cell phones on at school during the day. Purchase pouches to secure the phones in.
3. Disclose school populations of who is being served.
4. Survey families when to have meetings. (ie days, times)
5. Provide snapshot of whole year of events.

Teacher/Administration/School System Suggestions:

1. How to get social media to help not hurt school.
2. Parents/guardians need to understand the steps Administration takes to send out information after an incident.
3. Not equitable because small percentage that are acting out are getting all the attention.
4. The administration is trying to figure out what parents need with more communication instead of determining that for the parents.
5. Asking parents of disruptive students how they handle situations at home so maybe those techniques can be used at school to help students.
