United States Department of Agriculture (USDA)
Child Nutrition Programs Procurement Regulations

As applicable, all federal, state, local, and district regulations and provisions, along with those applicable regulations and provisions below shall be observed throughout and are incorporated in the solicitation process and subsequent contract periods.

Code of Federal Regulations, [7 CFR 210.21, Procurement.](#)

(a) **General.** State agencies and school food authorities shall comply with the requirements of this part and [2 CFR part 200, subpart D](#) and USDA implementing regulations [2 CFR 400](#) and [2 CFR 415](#), as applicable, which implement the applicable requirements, concerning the procurement of all goods and services with nonprofit school food service account funds.

(b) **Contractual responsibilities.** The standards contained in this part and [2 CFR part 200, subpart D](#) and USDA implementing regulations [2 CFR 400](#) and [2 CFR 415](#), as applicable, do not relieve the State agency or school food authority of any contractual responsibilities under its contracts. The State agency or school food authority is the responsible authority, without recourse to FNS, regarding the settlement and satisfaction of all contractual and administrative issues arising out of procurements entered into in connection with the Program. This includes, but is not limited to source evaluation, protests, disputes, claims, or other matters of a contractual nature. Matters concerning violation of law are to be referred to the local, State, or Federal authority that has proper jurisdiction.

(c) **Procedures.** The State agency may elect to follow either the State laws, policies and procedures as authorized by [2 CFR 200.317](#), or the procurement standards for other governmental grantees and all governmental subgrantees in accordance with [2 CFR 200.318](#) through [2 CFR 200.326](#). Regardless of the option selected, States must ensure that all contracts include any clauses required by Federal statutes and executive orders and that the requirements [2 CFR 200.236](#) and Appendix II, Contract Provisions for Non-Federal Entity Contracts Under Federal Award are followed. A school food authority may use its own procurement procedures which reflect applicable State and local laws and regulations, provided that procurements made with nonprofit school food service account funds adhere to the standards set forth in this part and in [2 CFR 200, subpart D](#), as applicable. School food authority procedures must include a written code of standards of conduct meeting the minimum standards of [2 CFR 200.318](#), as applicable.

(1) **Pre-issuance review requirement.** The State agency may impose a pre-issuance review requirement on a school food authority's proposed procurement. The school food authority must make available, upon request by the State agency, its procurement documents, including but not limited to solicitation documents, specifications, evaluation criteria, procurement procedures, proposed contracts and contract terms. School food authorities shall comply with State agency requests for changes to procurement procedures and solicitation and contract documents to ensure that, to the State agency's satisfaction, such procedures and documents reflect applicable procurement and contract requirements and the requirements of this part.

(2) **Prototype solicitation documents and contracts.** The school food authority must obtain the State agency's prior written approval for any change made to prototype solicitation or contract documents before issuing the revised solicitation documents or execution of the revised contract.

(3) **Prohibited expenditures.** No expenditure may be made from the nonprofit school food service account for any cost resulting from a procurement failing to meet the requirements of this part.

(d) **Buy American -**

(1) **Definition of domestic commodity or product.** In this [paragraph \(d\)](#), the term 'domestic commodity or product' means -

(i) An agricultural commodity that is produced in the United States; and

(ii) A food product that is processed in the United States substantially using agricultural commodities that are produced in the United States.

(2) **Requirement.**

(i) **In general.** Subject to [paragraph \(d\)\(2\)\(ii\)](#) of this section, the Department shall require that a school food authority purchase, to the maximum extent practicable, domestic commodities or products.

(ii) **Limitations.** [Paragraph \(d\)\(2\)\(i\)](#) of this section shall apply only to -

(A) A school food authority located in the contiguous United States; and

(B) A purchase of domestic commodity or product for the school lunch program under this part.

(3) **Applicability to Hawaii.** [Paragraph \(d\)\(2\)\(i\)](#) of this section shall apply to a school food authority in Hawaii with respect to domestic commodities or products that are produced in Hawaii in sufficient quantities to meet the needs of meals provided under the school lunch program under this part.

(e) **Restrictions on the sale of milk.** A school food authority participating in the Program, or a person approved by a school participating in the Program, must not directly or indirectly restrict the sale or marketing of fluid milk (as described in [§ 210.10\(d\)\(4\) of this chapter](#)) at any time or in any place on school premises or at any school-sponsored event.

WCPS ADDITIONAL TERMS – BUY AMERICAN

[For the purchase of domestic commodities or products, specifically, commercial food products]

Buy American. The Buy American provision was added to the National School Lunch Act (NSLA) by Section 104(d) of the William F. Goodling Child Nutrition Reauthorization Act of 1998 (Public Law 105-336). Section 12(n) to the NSLA (42 USC 1760(n)), requiring school food authorities (SFAs) to purchase, to the maximum extent practicable, domestic commodity or product.

“Domestic Commodity or Product” are defined as an agricultural commodity that is produced in the United States and a food product that is processed in the United States using substantial agricultural commodities that are produced in the United States.

“Substantial” means that over 51 percent of the final processed product consists of agricultural commodities that were grown domestically. Products from Guam, American Samoa, Virgin Islands, Puerto Rico, and the Northern Mariana Islands are allowed under this provision as territories of the United States.

The Buy American provision (7 CFR 210.21(d)) is one of the procurement standards SFAs must comply with when purchasing commercial food products served in the school meals programs.

Schools participating in the federal school meal programs are required to purchase domestic commodities and products for school meals to the maximum extent practicable. Domestic commodity or product means an

agricultural commodity that is produced in the US and a food product that is processed in the US substantially (at least 51 percent) using agricultural commodities that are produced in the US.

Federal regulations require that all foods purchased for Child Nutrition Program be of domestic origin to the maximum extent practicable. While rare, two (2) exceptions may exist when: the product is not produced or manufactured in the US in sufficient, reasonable and available quantities of a satisfactory quality, such as bananas and pineapple; and competitive proposals reveal the cost of a domestic product is significantly higher than a non-domestic product.

See the USDA's, [Buy American: Supporting Domestic Agriculture in School Meals](#).

(f) **Cost reimbursable contracts -**

(1) **Required provisions.** The school food authority must include the following provisions in all cost reimbursable contracts, including contracts with cost reimbursable provisions, and in solicitation documents prepared to obtain offers for such contracts:

(i) Allowable costs will be paid from the nonprofit school food service account to the contractor net of all discounts, rebates and other applicable credits accruing to or received by the contractor or any assignee under the contract, to the extent those credits are allocable to the allowable portion of the costs billed to the school food authority;

(ii)

(A) The contractor must separately identify for each cost submitted for payment to the school food authority the amount of that cost that is allowable (can be paid from the nonprofit school food service account) and the amount that is unallowable (cannot be paid from the nonprofit school food service account); or

(B) The contractor must exclude all unallowable costs from its billing documents and certify that only allowable costs are submitted for payment and records have been established that maintain the visibility of unallowable costs, including directly associated costs in a manner suitable for contract cost determination and verification;

(iii) The contractor's determination of its allowable costs must be made in compliance with the applicable Departmental and Program regulations and Office of Management and Budget cost circulars;

(iv) The contractor must identify the amount of each discount, rebate and other applicable credit on bills and invoices presented to the school food authority for payment and individually identify the amount as a discount, rebate, or in the case of other applicable credits, the nature of the credit. If approved by the State agency, the school food authority may permit the contractor to report this information on a less frequent basis than monthly, but no less frequently than annually;

(v) The contractor must identify the method by which it will report discounts, rebates and other applicable credits allocable to the contract that are not reported prior to conclusion of the contract; and

(vi) The contractor must maintain documentation of costs and discounts, rebates and other applicable credits, and must furnish such documentation upon request to the school food authority, the State agency, or the Department.

(2) **Prohibited expenditures.** No expenditure may be made from the nonprofit school food service account for any cost resulting from a cost reimbursable contract that fails to include the requirements of this section, nor may any expenditure be made from the nonprofit school food service account that permits or results in the contractor receiving payments in excess of the contractor's actual, net allowable costs.

(g) **Geographic preference.**

(1) A school food authority participating in the Program, as well as State agencies making purchases on behalf of such school food authorities, may apply a geographic preference when procuring unprocessed

locally grown or locally raised agricultural products. When utilizing the geographic preference to procure such products, the school food authority making the purchase or the State agency making purchases on behalf of such school food authorities have the discretion to determine the local area to which the geographic preference option will be applied;

(2) For the purpose of applying the optional geographic procurement preference in [paragraph \(g\)\(1\)](#) of this section, “unprocessed locally grown or locally raised agricultural products” means only those agricultural products that retain their inherent character. The effects of the following food handling and preservation techniques shall not be considered as changing an agricultural product into a product of a different kind or character: Cooling; refrigerating; freezing; size adjustment made by peeling, slicing, dicing, cutting, chopping, shucking, and grinding; forming ground products into patties without any additives or fillers; drying/dehydration; washing; packaging (such as placing eggs in cartons), vacuum packing and bagging (such as placing vegetables in bags or combining two or more types of vegetables or fruits in a single package); the addition of ascorbic acid or other preservatives to prevent oxidation of produce; butchering livestock and poultry; cleaning fish; and the pasteurization of milk.
