

# CCSD's Emergency Operations Center

## PROJECT TEAM

### Construction Management:

Cumming

### Project Manager:

Bob Faust

### Site Manager:

Randy Grant

### Architect:

Rosenblum Coe

### General Contractor:

Hill

## PROJECT UPDATE 1/11/2018

This project is complete. The 5,000 square foot Emergency Operations Center was constructed to house the Security Monitoring for CCSD and place the CCSD IT servers in a facility above the Base Flood Elevation. It also serves as two conference rooms for the CCSD staff at Bridgeview replacing the rooms at 206 A&B that will be turned into Administrative Offices. The building contains offices for 24/7 security monitoring for CCSD schools/facilities and provides a facility that will be the main Operations Center for CCSD during a natural disaster or emergency. The purpose is to serve as a central command and control facility responsible for carrying out the principles of emergency preparedness and emergency management, or disaster management functions at a strategic level during an emergency, and ensuring the continuity of operation of the Charleston County School District.

## PROJECT DATA

**Scope:** Construct a 5,000 square foot Emergency Operations Center to include electrical upgrades to the Bridge View electrical grid. The EOC will house the District's security operations and the main data servers.

**Project Budget:** \$3.88 Million

### Schedule:

Design Completion: Sept 2016

Construction Start: Dec 2016

Construction Competition: Sept 2017

**Square Footage:** 5000 SF

**Site Size:** 10 acres
